Ceska Zbrojovka, Cz, Bren, Cz Scorpion, Cz-P-U9, Dan Wesson and Huglu are trademarks of Cz-USA or Česká Zbrojovka a.s. All other trademarks are the properties of their respective owners, who are not associated with Cz-USA. CZ-USA reserves the right to make changes to products, specifications and pricing at any time.

2020 will certainly be a year of innovative products for us here at CZ-USA and Dan Wesson! The most obvious is the DWX—combining the quality and craftsmanship of the Dan Wesson pistols with the high capacity and great feel of a CZ. The efforts of our design team and product managers have created a very special pistol that not only shoots well, it is also incredibly good looking.

Innovation can also be seen in our shotgun line, where we have a patent pending system in our All-Terrain series that holds shells in the gun when it is open. It may seem like a small thing, but it helps our customers be more safe when in the field hunting, which is always a positive.

In our rimfire line we saw great innovation last year with the release of the 457 series. With many upgrades and improvements over our 455, it is proving to be very popular with customers. To bring something new to this line, we developed our own aluminum chassis to give shooters even more options when choosing a CZ rifle to compete with.

As we move forward with our manufacturing goals here in the United States, our team is always working to bring fresh ideas to the market. We have one of the most diverse sets of products in the firearms industry and will continue to strive for innovation. It is important to us to always provide the quality and reliability our customers have come to know us for while still being at a price point that a regular person can afford.

Thank you very much for your patronage!

Alice Poluchova CZ-USA President

TACTICAL

BREN 2 Ms

CZ BREN 2 Ms PISTOL

223 Rem./5.56x45, 7.62x39 | Black

The next generation of the Bren, the Bren 2 Ms makes first landfall in the US in pistol form with multiple barrel lengths and two chamberings. Whereas the 805 Bren was designed to a specific set of requirements set out by the Czech military, the Bren 2 is a clean-sheet design. With a bevy of changes, the most noticeable is sure to be the strict weight-loss regimen that the Bren 2 has undergone. With a trimmed-down aluminum receiver and a lower made from carbon-fiber-reinforced polymer, the result is a robust but substantially lighter gun.

Gone is the reciprocating charging handle, replaced with one that stays stowed in the forward position until it is needed. Swappable from side to side, it does double duty as a forward assist. Also added is an AR-style bolt catch/release system that is mirrored on both sides of the firearm, as well as a catch/release nestled into the front of the trigger guard. The magazine release and safety are also ambidextrous and located in very familiar locations for anyone versed in the AR platform.

Chambered in 223 and 7.62x39, each is available in several barrel lengths. AR-15 style magazines are used for 223 variants, whereas in 7.62 the factory's magazines are used to ensure last round hold-open and consistent feeding. All variants are swappable to different barrel lengths and chamberings and also feature a modular forend that can be swapped to different lengths.

In pistol form, the Bren 2 Ms comes with a flush rear plate that has the provision for attaching an AR-style buffer tube for the installation of an arm brace, cheek rest or similar pistol stabilizing device. For those who wish to SBR, a Carbine buffer tube and stock can be installed or the entire rear plate can be removed and replaced with a factory folding/adjustable stock.

CZ SCORPION EVO 3 S2 MICRO PISTOL W/ FOLDING BRACE

9mm Luger | Black

With a 4" barrel, HB Industries short handguard and a folding SB Tactical brace, this new variant of the diminutive Scorpion Micro takes into account input from the CZ fan base. Replacing the previous Micro that was equipped with a collapsible brace, this version also gets a more minimal flash can muzzle device and Magpul MBUS back-up

CZ **SCORPION EVO 3 S1 PISTOL**

9mm Luger | Black polymer

 $With \, dead-simple \, blowback \, operation, the \, Scorpion \, will \, chew \, through \, an \, ammo \, stockpile \, in \, no \, time \, flat. \, Based \, and \, an experimental experimen$ on our tried-and-true Al submachine gun, the Scorpion Pistol and all of its variants revolve around the same principle — less is more. With fewer moving parts in general and over-built, robust components, the Scorpion

An 11-inch Picatinny rail rides on top, and a superb set of aluminum adjustable sights are fitted from the factory. With four rear aperture sizes, they can be set up for quick acquisition or precision with just a spin of the rear sight. The muzzle on the Scorpion Pistol is threaded with both 18x1 and 1/2x28, so fitting a suppressor or muzzle device is a no-brainer.

MODEL VARIANTS:

CZ Scorpion EVO 3 S1 Pistol Battleship Grey — Battleship Grey furniture CZ Scorpion EVO 3 S1 Pistol FDE — Flat Dark Earth furniture CZ Scorpion EVO 3 S1 Pistol OD Green — OD Green furniture

CZ SCORPION

CZ SCORPION EVO 3 S1 CARBINE FDE W/ FAUX SUPPRESSOR

9mm Luger | FDE polymer

With a Flat Dark Earth exterior, this version of the Scorpion Carbine is a refreshing change in the endless sea of black carbines. There are two versions to choose from — one equipped with a faux suppressor and the other with a two-port compensating muzzle brake. The top Picatinny rail makes mounting optics easy, and the factory iron sights are Magpul MBUS flip-ups.

MODEL VARIANT:

CZ Scorpion EVO 3 S1 Carbine FDE w/ Muzzle Brake — Compensating muzzle brake

CZ **SCORPION CARBINE BULLPUP KIT**

Relying on the bullpup expertise of the aftermarket design gurus over at Manticore Arms, the Scorpion Bullpup Kit has been a project long in the making. Able to convert any Scorpion over to a bullpup configuration, it reuses trigger components of the gun being converted and condenses the Scorpion down to an even smaller package.

The ideal candidate for conversion is the Scorpion Carbine, and the bullpup chassis ties into our standard Carbine handguard as well as Manticore and HB Industries long handguards. With the addition of one of those handguards, Scorpion pistols can be converted as well, though doing so with a barrel length less than 16" will require proper paperwork/tax stamp and conversion of the pistol to an SBR.

For those who will want to modify their Scorpion Bullpup, it retains the ability to take aftermarket grips, trigger shoes, charging handles and magazine releases.

In addition to reducing the overall assembled length of the Scorpion Carbine, the Bullpup conversion also shifts the weight of the rifle to the rear.

Bullpup Kits can be purchased through our webstore at shop.cz-usa.com.

CZ SCORPION EVO 3 S1 PISTOL W/ FLASH CAN & FOLDING BRACE

9mm Luger | Black polymer

Equipped with a folding SB Tactical arm brace, this Scorpion Pistol wears the forend of its larger brother, the Carbine. With the same 7.7" pistol barrel, owners can unscrew the 5" KAK Flash Can and install most pistol suppressors under the handguard, keeping the overall length down. Dual threads of 18x1 and 1/2x28 make fitting a suppressor simple.

MODEL VARIANT:

CZ Scorpion EVO 3 S1 Pistol w/ Flash Can — Rear sling attachment plate instead of folding brace

CZ SCORPION EVO 3 SI CARBINE W/ MUZZLE BRAKE

9mm Luger | Black polymer

The Scorpion Carbine is a whole new animal. Building on the lauded submachine gun platform that first hit the US civilian market in pistol form in 2015, the Carbine has a 16.5" barrel fitted with either a compensating muzzle brake or a faux suppresor. Fit with the factory's folding adjustable stock, the Carbine features a number of USmade parts to make it fully 922(r) compliant.

One of the nicest features of the firearm is the carbine-length forend, which is covered in M-LOK attachment points to keep the profile slim while still being big enough to swallow most pistol-caliber suppressors should the owner decide down the road to convert it to an SBR for use with a suppressor.

A set of Magpul MBUS sights round out the package, and a top Picatinny rail allows the mounting of optics.

MODEL VARIANT:

 ${\it CZ\,Scorpion\,EVO\,3\,S1\,Carbine\,w/\,Faux\,Suppressor\,--\,Faux\,suppressor\,instead\,of\,brake}$

CZ-USA SUPPRESSORS

CZ-USA **RIMFIRE**

Any rimfire below .224", 17 Hornet, 22 Hornet | Black Cerakote

Simple, lightweight and highly effective! With a patented screw-in baffle system, our Rimfire suppressor maximizes its use of internal capacity. Unlike monocores or baffle stacks, there's no extra material contained within, eating up valuable capacity that could be aiding suppression. Not only does this help the Rimfire return impressively low dB readings, it also translates into light weight. Tipping the scales at a ridiculously low 2.5 ounces, we feel confident in saying that when it comes to suppression per ounce, the CZ Rimfire is at the top of the rimfire suppressor food chain.

Built to blend into the heavy cylindrical barrels found on most of our rimfire Varmint rifles, the Rimfire has an external diameter of 0.866" and a length of 6.9".

Another feature of our rimfire suppressor system is the ability to tune the baffle system itself. A guide is provided on the assembly/disassembly tool to space the four internal baffles at regular distances. If a user wishes, they can also vary those baffle depths in an effort to find the right mix for the particular load they're shooting. For example, if they want a large blast chamber with shorter spacing on subsequent baffles, the ability is at their fingertips.

Able to be easily taken apart for cleaning, the Rimfire can be used on any rimfire round under .224 in diameter including 17 HMR, 22 WMR and even 17 WSM. Additionally, it is safe to use with 17 Hornet, 22 Hornet and 5.7x28 Due to the dirty nature of rimfire ammunition, cleaning every 300 rounds is recommended

CZ-USA RIMFIRE INTEGRAL 20.9"

If it weren't for the endcap, this suppressor would be completely unnoticeable — that is until the trigger is pulled. Then it still might go unnoticed, since with sub-sonic ammo the loudest report will be that of

Built into one of our standard 455 Varmint barrels, the Integral fits on any CZ 455 or 457 and utilizes the same patented screw-in baffle system as our stand-alone Rimfire suppressor above. Using the included tool, the owner can thread the baffles in to pre-designated locations within the forward threaded suppressor portion of the barrel. If they wish, they can tune baffle lengths to their liking, finding just the right combination for their load of

Baffles and endcap are cut from 7075 aluminum, meaning between the hollowing out of the barrel and the lightweight suppressor components, the .866" diameter Varmint barrel experiences some weight loss while still

Rimfire ammunition is notoriously dirty, resulting in the buildup of carbon and lead in rimfire suppressors. To enable easy cleaning, each baffle has six cutters milled into it, letting it function much like a tap to cut its way through the accumulated crud. Just like with a tap, a few spritzes of oil will aid in cutting. The recommended cleaning interval for our rimfire suppressors is every 300 rounds.

MODEL VARIANTS:

CZ-USA Rimfire Integral 20.9" 17 HMR — Chambered in 17 HMR CZ-USA Rimfire Integral 16.9" 22 LR — Chambered in 22 LR CZ-USA Rimfire Integral 16.9" 17 HMR — Chambered in 17 HMR

A fully-welded titanium can, the S2 Ti Reflex is designed to fit under an HB Industries or Manticore Arms handguard, allowing it to have a 2" reflex blast chamber and giving it the volume of much larger cans while only protruding from the muzzle 5.83 inches. This full titanium can weighs in at just 9.6 ounces and spits out 147-grain defensive loads at well under 130 dB

For Scorpion owners who want the benefits of the S2 suppressor but at a more favorable price point, the S2 SS is the same fully-welded reflex design executed in 17-4 stainless steel. The stainless construction comes with a little more weight, though the less costly material cuts \$330 from the MSRP.

This is a direct thread for Scorpion Micros and Carbines, while most Pistols will require the addition of an aftermarket free-floating handguard.

MODEL VARIANT:

CZ S2 SS Reflex — Stainless steel construction

CZ-USA **5.56 TI REFLEX**

223/5.56x45 | Black Cerakote

Combining light weight, superb suppression and short installed length, our centerfire reflex cans sport a very distinctive shape. To shave the ounces, each titanium baffle is turned down on a lathe until it possesses just the right amount of material to withstand the pressures of full-auto use. The swirled shape of the internal baffle structure is reflected in its exterior, and each baffle is welded to the next until the stack exhibits a very unique silhouette. Not only does this eliminate extra material that would simply add weight, it also increases surface area

The endcap and mount are replaceable, and each can is shipped with a 3" reflex mount that allows the user to boost the internal can capacity greatly without increasing the overall length when assembled, with a standard flush mount also included for use on firearms that won't allow for the reflex. Threaded 1/2x28 in 5.56, it is rated for full-auto use.

MODEL VARIANTS:

CZ 7.62 Ti Reflex — Rated for up to 300 Win. Mag., 5/8x24 thread CZ 338 Ti Reflex — Rated for up to 338 Lapua, 3/4x24 thread

MILITARY/LAW ENFORCEMENT ONLY

CZ BREN 2

223 Rem./5.56x45,7.62x39 | Folding/adjustable, black

The ever-evolving needs of military forces led to the further development of the Bren platform. Whereas the 805 was built to a specific set of predetermined requirements, the Bren 2 took years of input and data from use in the worldwide war on terror and put it all together in a smaller, lighter package.

A shorter gas system allows for barrel lengths down to 8", while giving settings for normal use or adverse conditions. The aluminum receiver is shorter and thinner, shaving weight from the rifle. Modular and built to swap between chamberings and barrels, the Bren 2 is available in multiple barrel lengths in 223 Rem./5.56x45 and 7.62x39.

Gone is the reciprocating charging handle and in its place is one that remains forward while the action cycles, but can be used to charge the rifle via a ratcheting mechanism that allows it to be used as a forward assist if needed. All controls are ambidextrous, including a bolt release located inside the trigger guard. For those familiar with the M16/AR15 platform, a paddle-style bolt catch/release is located on the left side of the weapon.

The Bren 2 is select-fire, currently only available for military/LE special-order.

CZ **BREN 2 BR**

308 Win. | Folding/adjustable, black

Chambered in 308 Win., the BR in this Bren's name stands for Battle Rifle. Piston-driven and loaded with all the same ambidextrous features seen on its smaller Bren 2 counterpart, this larger rifle adds a modular forend, much like the semi-auto Bren 2 Ms found earlier in this section. The Bren 2 BR is select-fire, meaning it is only available on military/LE special-order basis.

CZ **SCORPION EVO 3 A1**

9MM LUGER | Folding/adjustable, black

The CZ Scorpion EVO 3 A1 is a compact submachine gun in 9mm Luger. With a blowback-operated action, the Scorpion can empty its magazine in a hair over 1.5 seconds. Equipped with a folding, adjustable LOP stock, accuracy can be had out to 250 yards. The stock can be removed completely to create a surprisingly controllable machine pistol.

To make the Scorpion user-customizable, the reach to trigger is adjustable for different hand sizes, the charging handle is reversible, and the mag release is ambidextrous.

The EVO's frame and trigger guard assembly are made of a lightweight polymer with monolithic top rail and accessory rails on sides and bottom. Field strip is made simple with a captured pin that allows the removal of the trigger assembly, enabling easy removal of the bolt and all moving parts.

Select-fire versions of the Scorpion are only available on military/LE special-order basis.

FIRST RESPONDER PURCHASE PROGRAM

CZ-USA recognizes the many sacrifices our first responders and military members make on a daily basis. As a small way of saying thanks, we offer a special buying program for these special people (as well as retirees from these professions), and participants enjoy a significant savings off of MSRP. To request program details, email LESales@cz-usa.com.

The two major points that put the original P-10 C on the map were the superb ergonomics and the crisp, light trigger. These updated pistols are no different — they still feel right in the hand much like the classic CZ 75 and their trigger feel is at the top of the class when it comes to striker-fired pistols. With a solid wall, a clean break and a tactile, audible reset, the P-10's trigger leaves many other striker guns in its dust.

Built to withstand the rigors of military use, its fiber-reinforced polymer frame and hardy nitride finish are made for the daily grind. A generous trigger guard allows use with gloved hands while being undercut to allow as high a grip as possible.

With CZ reliability, engineered ergonomics and a bevy of features both familiar and new, the P-10 is the complete package.

MODEL VARIANTS:

CZ-USA P-10 F Optics-Ready — 19+1 capacity CZ-USA P-10 C Optics-Ready — 15+1 capacity CZ-USA P-10 S Optics-Ready — 12+1 capacity CZ-USA P-10 S — No optic plate system, 12+1 capacity

CZ POLYMER STRIKER

CZ **P-10** C

9mm Luger | Nitride/Black polymer

A compact pistol, the C is one of the more versatile versions of the P-10. Small enough for concealed carry, it brings a capacity of 15+1, making it a good choice for a duty pistol and comfortable for extended range work.

MODEL VARIANT:

CZ P-10 C FDE — Flat Dark Earth frame, tritium night sights

CZ **P-10 F**

With a whopping 19+1 rounds on tap, the P-10 F is the full-size version of our striker-fired P-10. With the same crisp trigger and engineered

MODEL VARIANTS:

CZ P-10 F FDE — Flat Dark Earth frame, tritium night sights CZ P-10 F OD Green — Olive Drab frame, tritium night sights

9mm Luger | Nitride/Black polymer

ergonomics that have made the P-10 platform a favorite, the F brings a longer sight radius, barrel and grip. Three swappable backstraps help tune the fit of that grip to the owner's hand, while the magazine release can be configured for right- or left-handed shooters. Equipped with a set of three-dot glow sights, the rear of which features a shelf for one-handed manipulation.

CZ **P-10 F** SUPPRESSOR-READY

9mm Luger | Nitride/Black polymer

With an extended barrel threaded 1/2x28, this striker-fired pistol can fill every role — from range-day plinker or duty weapon to bedside protector with a light and compact can. High night sights give good visability over most 9mm cans while the extended mag bases boost capacity by 2 rounds.

MODEL VARIANT:

CZ P-10 C Suppressor-Ready — 17+1 capacity

CZ URBAN GREY SUPPRESSOR-READY **SERIES**

9mm Luger | Nitride/Urban Grey polymer

Clad in an urban grey color, this series of pistols has a set of high suppressor sights equipped with tritium lamps front and rear. Extended capacity magazines are used wherever possible, boosting capacities on all but the SP-01 by 2 rounds. This gives the P-10 F and P-09 an impressive 21+1!

MODEL VARIANTS:

CZ **P-07**

9mm Luger | Nitride/Black polymer

Our compact polymer DA/SA pistol, the P-07 shares all of the features of the P-09, just in a much smaller package. The same Omega trigger system allows users to easily swap from a manual safety to a decocker depending on their preference. With 15+1 capacity, it makes for a concealed carry firearm without sacrificing round-count.

A Picatinny light rail on the dustcover enables it to pull duty at the bedside with a light/laser and the metal 3 dot sights are easy to acquire at the range. Three interchangeable backstraps allow shooters with small or large hands to tune it to fit their grip.

The P-07 is shipped with ambidextrous decockers installed but can easily be converted to an ambidextrous manual safety with the supplied parts and instructions.

CZ P-07 OD GREEN

9mm Luger | Nitride/OD Green polymer

With all of the great features of the P-07 above, this two-tone pistol also adds an Olive Drab frame and a set of 3-dot tritium night sights.

CZ **P-09**

9mm Luger | Nitride/Black polymer

For those who prefer the double-strike capability of the CZ 75 DA/SA hammer-fired system, the P-09 is our full-size service pistol. Boasting an impressive 19+1 rounds in its flush-fitting magazine, its capacity is unsurpassed by any other service pistol.

With the versatile Omega trigger system, the P-09 is shipped with ambidextrous decockers installed but can easily be converted to ambi manual safety with the supplied parts and instructions.

Also included are small, medium and large backstraps that allow users to customize the pistol's grip to their hand while retaining the natural point of aim that CZ handguns are known for.

With an integrated 1913 Picatinny rail, the P-09 is readily adaptable to low-light situations. The Omega DA/SA trigger provides a crisp single-action trigger break while providing the safety of a DA first-pull option.

MODEL VARIANT:

CZ P-09 OD Green — OD green frame

handguns

CZ P-07
SUPPRESSOR-READY
9mm Luger | Nitride/Black polymer

Loaded with features but without all the flash of the Urban Grey series, the standard black P-07 Suppressor-Ready comes with high night sights and extended magazine bases in addition to the obligatory extended, threaded barrel (1/2x28).

MODEL VARIANT:

CZ P-09 Suppressor-Ready — Full-size model, 21+1 capacity

CZ FULL-SIZE

On October 12th, 2007, we built the 1 millionth CZ 75 — a testament to its popularity worldwide. Designed in 1975, the CZ 75 was one of the first "Wonder Nines" — 9mm pistols that combined high capacity with a double-action trigger system. With a signature slide-in-frame design, an entire family of pistols has been developed around the CZ 75 design, including compacts, decockers, single-action only, ambidextrous, alloy frames and even competition pistols.

Following a steady rise in popularity within USPSA, results from the 2014 Production Nationals showed that CZ pistols are now used by more competitors than any other brand of pistol. Ergonomics, shootability and reliability of the 75 platform leave the other production pistols wanting.

CZ 75 PLATFORM **COMMON FEATURES**

- · High-capacity double-stack magazine
- · Hammer-forged barrel
- · Ergonomic grip and controls
- Unparalleled accuracy
- · Slide-in-frame design for better recoil control
- · 3-dot sighting system (tritium night sights available)
- · Extended service life due to advanced design and superior materials
- Firing-pin-block safety (on most models)

LISTED ON = CALIFORNIA **DOJ ROSTER**

C7 75 B 45th **ANNIVERSARY**

9mm Luger | Glossy blue

It's hard to believe this iconic pistol is 45 years old! To celebrate, 1,000 pieces of this limited edition engraved anniversary pistol will be made. Its high-gloss blued finish pops in conjunction with the deep engraving on slide and frame. A set of wooden grips embellished with matching engraving and glossy silver controls create contrast, while a set of tritium night sights top it all off.

CZ **75 SP-01**

9mm Luger | Black polycoat

A stand-out as one of the most popular pistols in our extensive lineup of CZ 75 variants, the SP-01 has a reputation for shootability and reliability. Originally designed as a military and law enforcement duty sidearm, its exceptional accuracy and handling characteristics have found it a home in the world of competitive shooting. For that reason, SP-01s and SP-01 Shadows (see page 28) have risen to become the gun of choice for competitors at USPSA Production

With an integral Picatinny-style rail on the dustcover, rubber grip panels and a set of tritium night sights, the SP-01 is equally adept as a home defense firearm as it is clanging steel on a range. CZ's two stage finish of a hardy phosphate base and the corrosion-resistant black Polycoat outer layer are built to withstand the rigors of military use, meaning holster wear and rough treatment may leave it scuffed but otherwise unaffected.

Borrowing from the improved grip geometry of the compact P-01, the SP-01 utilizes an extended beavertail to protect the shooter's strong hand as well as allowing for a deeper and more secure grip. The grip geometry, checkering in key areas on the frontstrap and backstrap, and redistribution of mass provided by the accessory rail, noticeably decreasing the perceived recoil from standard 75 models and allowing for more rapid target acquisition and transition.

MODEL VARIANT:

CZ 75 SP-01 Tactical — Ambidextrous decocking levers

$CZ 75 B \Omega$ **CONVERTIBLE**

9mm Luger | Black polymer

A further evolution of the 75 B Ω (Omega), the new Convertible version allows users to swap from decocker to safety operation in the same manner as our popular P-07/P-09 pistols. Using the same simplified, more robust variation of the 75's trigger system as the previous Omega, trigger parts use an interlocking design that allows for easy disassembly and reassembly without the need for tools. Not only does this simplify maintenance, the trigger parts themselves are made of different materials to enhance durability, operation life and reliability.

MODEL VARIANTS:

CZ 75 B 9mm Luger — Classic CZ 75 trigger system ✓ CZ 75 BD 9mm Luger — Decocking lever ✓

CZ COMPACT

CZ 75 COMPACT

9mm Luger | Black polycoat

At 5" tall with a barrel length of just under 4", the compact model shaves a little more than 3/4" off the length and about 1/2" off the height of the full-size CZ 75. This reduced size allows it to readily disappear under regular clothing, while the steel frame still makes it comfortable to shoot for extended sessions at the range. Equipped with a manual safety, it is able to be carried cocked and locked, or manually decocked for a double action first pull and SA thereafter.

$CZ 75 P-01 \Omega$ **CONVERTIBLE**

9mm Luger | Black polycoat

Incorporating our swappable Ω (Omega) trigger system, the P-01 Ω can be converted from decocker to safety operation with minimal tools. Using the same simplified, more robust variation of the 75's trigger system as previous Omega models, trigger parts use an interlocking design that allows for easy disassembly and reassembly without the need for tools. Not only does this simplify maintenance, the trigger parts themselves are made of different materials to enhance durability, operation life and reliability.

C7 75 D PCR

9mm Luger | Black polycoat

Thanks to its forged 7075 aluminum frame, the PCR weighs a full $\frac{1}{4}$ pound lighter than the 75 Compact, making it more comfortable for everyday carry. Equipped with a decocking lever, it is designed to be decocked before holstering. After decocking, the trigger safety is much like that of a double-action revolver. While there is no need to flip a safety lever off, the relatively longer and heavier trigger pull for the first round requires a conscious decision to pull the trigger before firing. Other additions to the PCR include rubber grip panels, serrated frontstrap and backstrap for improved handling, low-drag sights and a loaded-chamber indicator.

CZ SUB-COMPACT

CZ **2075 RAMI B**

9mm Luger | Black polycoat

With a 3" barrel and an unloaded weight of less than 26 ounces, the black polycoat, alloy-framed RAMI is ideal for concealed carry.

Based on the proven CZ 75 line of pistols, the RAMI is double action/single action, allowing it to be carried in different conditions depending on the shooter's preferences.

Incorporating the CZ double-stack magazine design, the little RAMI ships with a 10-round flush-mount magazine and 14-round extended magazine. A low-capacity-compliant version of the 9mm is available with two 10-round magazines.

MODEL VARIANT:

CZ 2075 RAMI BD — Decocking lever instead of safety

CZ 75 P-01

9mm Luger | Black polycoat

The P-01 was designed for LE and military duty, but its compact size and reduced weight make it ideal for discrete carry as well. Its forged aircraft aluminum 7075 frame sheds ounces, while the dust covermounted rail allows a user to add a light or laser.

Equipped with the traditional CZ 75 trigger system, the P-01 has a

CZ FULL-SIZE 45 ACP

CZ 22 LR KADET KITS

S CZ 75 KADET

CZ KADET II ADAPTER

22 LR | Black polycoat

The original CZ "Kadet" kit, this adapter allows owners of CZ 75-pattern pistols to fire cheaper 22 LR cartridges for practice or plinking.

Included are two 10-round magazines that fit flush with the grips of the full-size CZ 75 and SP-01 models. The Kadet II conversion kit will work on CZ 75 compact models including the P-01, P-06 and PCR, but the full-size magazines will extend below the bottom of the compact grips of these models. The Kadet II conversion will not work on the 97, 75 TS or any polymer models. The P-01, PCR and certain other compact models use a specific slide stop. On 85s, the Kadet slide stop will not work; the factory 85 stop must be used, which won't allow for last-round hold-open.

CZ SHADOW 2 KADET KIT 22 LR | Black anodized

Affording Shadow 2 owners a cheaper plinking option, this conversion swaps the 9mm Shadow 2 over to a blow-back 22 LR, allowing shooters to use their competition belts, mag holders and any frame-mounted modifications or accessories. Ships with two

10-round magazines.

MODEL VARIANT: CZ SP-01 Kadet Kit — Shorter slide to fit SP-01 models

CZ P-09 KADET KIT

22 LR | Black anodized

Built specifically for our polymer hammer-fired pistols, this allaluminum Kadet adapter gives P-09 and P-07 owners the ability to get plenty of practice without the expense that usually comes with it. Topped with a set of serrated target sights borrowed from the Shadow 2, the P-09 Kadet Kit ships with two magazines.

MODEL VARIANT:

CZ P-07 Kadet Kit — Shorter slide and magazines to fit compact P-07 models

CZ **97 B**

45 ACP | Black polycoat

The CZ 97 B is the big-bore brother to the CZ 75 B — the first CZ pistol produced in 45 ACP. It is operationally identical to the 75 B (SA/DA, firing pin block safety and magazine brake). Features include a screw-in barrel bushing, loaded-chamber indicator and a double-stack magazine holding 10 rounds. The thin aluminum scales slim the grip down to make it comfortable for even those with smaller hands, and the fiber-optic front sight and two-dot rear make it great at the range.

A special version of the 97 B is specifically made for the California market, so check with your local CZ-USA Authorized Dealer for availability. SKU of that pistol is 01401.

CZ **97 BD**

45 ACP | Black polycoat

Just as the standard 75 has a decocker variant, so does the 97. For those who prefer the heavy double action first pull, the BD model adds a manual decocker to help drop the hammer to half-cock. The 97 BD shares many of the features of the B model, including its hardy black polycoat finish and thin aluminum checkered grips. Besides the decocker, the BD also adds a set of tritium night sights.

INEW

CZ SHADOW 2 ORANGE

9mm Luger | Nitride/Black polycoat, orange grips, mag release and mag bases

Turning the Shadow 2 up a notch, the biggest addition on the Orange is a barrel bushing that increases slide-to-barrel fit, resulting in tighter groups. Not as obvious is a factory-tuned trigger with short reset and the hand-fitting of the slide and frame.

With many of the same great features that have made the Shadow 2 dominant in USPSA Production Division, the Orange wears a set of signature grips, mag bases and mag release button to set it apart from the standard pistols.

CZ SHADOW 2 SA

9mm Luger | Nitride/Black polycoat, blue grips and trigger

For those target shooters who seek out the best triggers possible, this variant of the Shadow 2 has a single-action-only trigger. While not legal for USPSA Production Division like the standard version, the lighter, crisper SA trigger gives the target-shooting enthusiast the ability to punch paper with precision!

Outwardly nearly identical to the standard Shadow 2, the SA requires the hammer to be cocked in order for it to fire. Finished in black and with a set of blue aluminum grips and matching SA trigger, it's a striking pistol that is a joy to shoot.

CZ 75 TACTICAL SPORT ORANGE

9mm Luger | Nitride/Black polycoat, orange grips/mag bases

Turning the Tactical Sport up a notch, the Orange borrows a number of design features from the Czechmate and incorporates a few of its own. With the slimmer trigger guard, revised grip geometry and finer checkering from the Czechmate frame, it adds a thumb stop and fully adjustable target sights.

With the same long slide and full-length dust cover as the standard TS, it also shares the single-action-only trigger, giving it an incredibly light pull and short reset, making it a joy to shoot at the range and instinctual in competition.

MODEL VARIANT:

CZ 75 Tactical Sport Orange $-40\,\text{S\&W}$

CZ **CZECHMATE**

9mm Luger | Black polycoat

The Czechmate is an out-of-the-box USPSA Open gun with all the extras to shoot Limited as well. Featuring the same fine checkering as the TS Orange, the Czechmate is equipped with a C-MORE® red dot sight and four-port compensator and is built to run major power factor ammunition.

More than just a one-trick pony, the comp and brake can be easily swapped over to a Limited Division setup. To make the transition, a spare barrel is included along with a front sight adapter to replace the compensator and a rear sight to replace the slide racker handle. A big stick 26-round magazine and three 20-round magazines are included in the CZ hardcase.

CZ SHADOW 2 BLACK & BLUE

9mm Luger | Nitride/Black polycoat, blue grips

In recent years, the SP-01 Shadow has taken the competition circuit by storm. In USPSA Production Division, CZ pistols are now used by twice as many top-level competitors than any other maker.

Given that popularity, it was high time to up the ante. Starting from scratch, CZUB engineers took the best features of the original Shadow and improved upon them. More than two years later, the Shadow 2 emerged, bearing the fruits of their efforts.

With a higher beavertail and undercut trigger guard, the shooter's hand is able to be as close to the bore axis as possible. With a contoured slide, the majority of the reciprocating mass is contained below the bore, equating to less muzzle flip. Increased weight at the dust cover/rail also helps keep the muzzle down.

The Shadow 2's swappable mag release has an adjustable, extended button with three settings to allow shooters to set it in the spot most comfortable for them. Also included in the box is an extended ambidextrous safety set and a number of buffers for use with lighter springs and/or hotter rounds.

Best of all, new trigger components give smooth DA and crisp, clean SA while drastically reducing trigger reset.

A hardy nitride finish coats the entire pistol, leaving it nearly impervious to corrosion, with an additional layer of our propietary black polycoat on the frame. Thin blue aluminum grips have healthy checkering to match the fine front and backstrap checkering of the pistol itself. Sitting atop the slide are a set of target sights — fiber optic on front and a serrated, black HAJO rear (click adjustable for elevation, drift adjustable for windage).

MODEL VARIANT:

 ${\sf CZ\,Shadow\,2\,Urban\,Grey-Nitrided/Urban\,Grey\,polycoat}, black\,grips.$

COMPETITION

BUILT BY CZ CUSTOM

When it comes to tuned competition CZs, there's no one who builds more of them each year than Angus Hobdell, owner of CZ Custom. Angus has been building pistols for us for the better part of a decade, with his shop becoming the de facto CZ-USA custom pistol shop. Each year we partner with him to build a handful of models that combine the best parts available to meet the varying needs and budgets of competitive shooters. Check out CZ Custom at czcustom.com.

CZC AOI-LD

9mm Luger | Nitride/Black polymer

Built from scratch at CZ Custom, the A01 is the evolution of the Shadow series as Angus would have done it.

The frame is the star of the show and is hammer-forged, CNCmachined and then blued. Very obvious is its massively heavy dustcover which kills both recoil and muzzle rise. With a deep beavertail, undercut trigger guard, raised 25-LPI checkering and an internal magwell, it combines classic CZ 75 ergonomics with purposedriven features ideal for competition. To ensure that the trigger is up to snuff, both the hammer and the sear are directly pinned in the frame to solidify trigger pull consistency. DA pull weight is from 8-8.5 lbs while SA clocks in at 3-3.5 lbs and a short reset is standard. The trigger itself is lifted from the CZ 85 Combat.

The slide is CNCed from 4140 bar stock and features front and rear serrations, CZ Custom low-mount rear sight and fiber-optic front.

Icing on the cake is a 4.925" Match-grade bull barrel made from 416

Built for the higher capacity P-09/P-07/P-10 magazine platform, the A01-LD ships with two 19-round P-09 magazines.

Made in Mesa, AZ, USA.

CZC A01-LD

CZ ACCUSHADOW 2

9mm Luger | Black polymer

Leave it to CZ Custom to take the Shadow 2 to the next level! To anchor the muzzle in the slide, their new 1/4 turn 1911 style AccuBushing makes the pistol capable of sub-3" groups at 50 yards. A custom hammer further lightens and smooths the DA and SA pulls, while the reset is shortened with a hand-fit disconnector. Whether you're after outstanding accuracy, an edge in competition or just plain fun — the AccuShadow 2 can deliver!

CZ **75 SP-01** SHADOW TARGET II

9mm Luger | Black polymer

The Target II is a competition-ready pre-B-style SP-01 Shadow, featuring a CZ Custom trigger job with a short-reset trigger, fully adjustable rear sight, fiber-optic front sight, stainless steel guide rod, lighter springs for competition (11-lb recoil and 13-lb main), extended magazine release and checkered aluminum grips. It was created by champion shooter Angus Hobdell's CZ Custom Shop to have trigger pulls of 3 to 4 lbs in SA and 7.5 to 8.5 lbs in DA.

In 1968, Dan Wesson struck off on his own to manufacture fine firearms that deviated from the standard. 50 years later the company he founded is still going strong and still building unique products. Though there are many manufacturers of 1911s, not many combine custom-level fitting, top-shelf parts and clean, elegant lines like a Dan Wesson — let alone at such an attainable price.

We produce only a few thousand handguns a year, using the best components and finishes the industry has to offer. We painstakingly hand-fit and polish each and every part, creating the best possible production 1911. Even a custom pistol maker would be hard-pressed to build a gun that would outperform ours straight out of the box. No matter the model, from our entry-level Vigil series to the long-slide Bruin, we are proud to provide our customers the best bang for the buck in the industry.

All our pistols share the same match-grade components, but specific features vary by model. We invite you to find another production 1911 in our price range that gives you everything Dan Wesson has to offer.

FEATURES

- · Hand-fit 70-series frame and slide
- Forged slides and barrels
- Hand-fit match barrels
- · Billet alloy steel fire-control system
- Zero MIM parts
- · All premium components
- Lowered and flared ejection port
- · Beveled magazine well
- · Carry bevel treatment
- Undercut triggerguards Hand-polished flats
- · Crisp 3.5-5 lb. factory trigger job
- Two magazines
- · Signature-series case
- · Cable lock and manual

For more images and detailed feature breakdowns, visit our website at danwessonfirearms.com.

It started as an experiment — a grand melding of Dan Wesson and CZ pistols. Borrowing the crisp single action fire control group of a DW 1911 and combining it with the ergonomics and capacity of a CZ, the resulting pistol emerged as something great.

Designed initially for competition use, the DWX has evolved into much more than that, with both full-size and compact variants. Its locked breech barrel system is simple, ditching the standard 1911 link system and using CZ-style takedown via the slide stop. The easier take-down will be familiar to any hammer-fired CZ owner, as is removing the match-grade barrel due to the bushing-less barrel system that resembles a P-10 or P-09/P-07. Double-stack magazines based on the P-09/P-10 boost the capacity of the full-size to 19+1 with flush bases, and many standard 1911 parts enable gunsmiths and competitive shooters to tune the X just the way they like it. Sights are easily customized, using a 1911-style dovetailed sight in the front and a CZ Shadow 2 style sight cut in the rear. For lefties, the magazine catch is easily swappable to either side. As with all Dan Wessons, the DWX has no MIM parts whatsoever.

With the grip angle and contours that made the CZ 75 a stand-out in the realm of pistol ergonomics, the DWX is a natural fit to most hands. The full-size DWX uses standard CZ 75 grips and magwells, allowing easy customization. With so many ways to individually tune the DWX, it is sure to shine in USPSA Limited Division!

DW **DWX COMPACT**

9mm Luger | Black Duty finish, red trigger

A more concealable version of the DWX, the Compact has an aluminum frame with a shorter grip and a shorter slide. Using the double-stack magazine from the CZ 75 Compact, magazine capacity is and impressive 15+1. To make it more comfortable to carry, the DWX Compact frontstrap and backstrap have Frag pattern checkering (inspired by Ned Christiansen).

For those who like to customize how their pistol looks and feels, the DWX Compact will accept grips and magwells made for CZ 75

Compact models.

MODEL VARIANT:

DW DWX Compact w/Light Rail — Railed dustcover for accessories

DW HEIRLOOM

45 ACP | Color case/blued

Kicking off what we plan to be a regular but especially limited series, the Heirloom is a piece of art. Instead of one of our standard finishes, the frame sports a gorgeous color case hardening – the result of a heat treating process that leaves a layer of carbon in a brilliant and random color pattern with golds, greys, blues and purples. An ornately-engraved slide sits atop this fine frame, with ample scrollwork and minimal text in typical Dan Wesson fashion.

Frontstrap and backstrap are checkered 25 LPI for the ideal amount of grip, and a set of smooth French walnut grips give beautiful contrast. A classy set of sights are perched on the round-top slide with a serrated U-notch in rear and a brass bead out front.

VALOR45 ACP | Matte stainless

Our long-time flagship of the Dan Wesson line returns in glorious form! With a bevy of changes, the Valor now features a Stan Chen SI magwell, tapered grips and a tactical ambidextrous safety. Our new style slide stop is recessed, allowing for the use of laser grip panels.

Sitting atop the slide are a serrated U-notch rear sight and a front tritium with a large orange ring, while GI-style cocking serrations give it a classic look. Our new inset serrations not only knock down any glare from the top of the slide — they also look great!

The stainless steel slide and frame of the Valor can be had in a matte bead-blast or our black Duty finish.

MODEL VARIANT:

DW Valor Black — Black Duty finish, white/black grips

45 ACP | Black Duty finish

Little brother to the Valor, the V-Bob is a Commander-size variant with a bobbed mainspring housing to boot. Ideal as a concealed carry piece, it has a shorter 4.25" match-grade barrel. A set of tapered grips and a tactical ambidextrous safety add several features that have become increasingly popular when customers request custom pistols. Our new style slide stop is recessed, allowing for the use of

Our new inset serrations knock down the glare between the sights — a serrated U-notch in the rear and a tritium with a large orange ring in the front. Classic good looks come courtesy a set of GI-style rear slide serrations.

The stainless slide and frame on V-Bobs can be had in a bead-blasted finish or our black Duty Coat — a signature finish that makes the stainless even more hardy. For folks who like both, we now have a

MODEL VARIANT:

DW V-Bob — Matte stainless steel, black grips

DW **KODIAK**

10mm Auto | Tri-tone

Letting full-power 10mm loads achieve their potential, the longslide Kodiak features a 6-inch bushing-less bull barrel. Available in two finish variants, the Black version has bronzed controls and barrel while the tri-tone adds a matte gray slide to boot.

Not only does that long barrel give the potent 10mm more time to build energy, the sight radius that comes with it allows for more accuracy as well as greater slide/barrel mass, reducing felt recoil and muzzle flip.

Fully-adjustable sights are fitted with fiber optic rods for illumination, and a rail on the dustcover allows for the mounting of a light or laser. Reloads are made smoother by the addition of a magwell and an ambidextrous safety makes this 1911 a bit more lefty-friendly.

Model Variant:

DW Kodiak Black — Black Duty finish slide

DW **BRUIN**

10mm Auto | Two-tone black/bronze Duty finish

With more folks than ever choosing to hunt with a handgun and the continuing resurgence of the 10mm cartridge, we decided it was time to bring the heat. Our first long-slide 1911, the Bruin was born to hunt. The long slide means a long sight radius and the 6" barrel within allows full-power 10mm loads as much time as possible to use their powder charge. Fully adjustable tritium sights ensure that when shooting hours arrive, you'll be able to see the sights. Not only that, but we're using a tritium/fiber-optic combo front sight to make

MODEL VARIANT:

DW Bruin Black — 10mm or 45 ACP, black Duty finish, red/black grips

DW **V-BOB TWO-TONE** (LIMITED PRODUCTION)

45 ACP | Matte stainless/blued

With a blued slide and a matte stainless frame, the V-Bob Two-Tone has a little more flash!

DW **SPECIALIST**

9mm Luger, 10mm Auto, 45 ACP | Matte stainless

Getting a facelift for 2020, the Specialist features our new style light rail frame (as seen on the Kodiak) as well as forward cocking serrations and our inset slide serrations that reduce glare between

The result of law enforcement agencies asking us to build more reliable, durable 1911s for duty use, the Specialist included all of their requests in one package. The additions that made it into an ideal pistol for law enforcement also made it perfect for personal defense, so we gladly offered it for sale to the public.

The stainless steel slide has a 1913-style rail integrated into it for installation of lights and lasers, while the undercut trigger guard and 25 LPI frontstrap checkering help plant the pistol. Controls are prominent, with an ambidextrous thumb safety, extended magazine release and a magwell to facilitate guick reloads. Finished off with a set of G-10 grips that guide the hand up and into the extended beavertail, the Specialist is topped with a set of tritium sights front and rear, the back sight configured in a stacked dot style.

DW Specialist Black — 9mm Luger, 10mm Auto, 45 ACP, black Duty finish DW Specialist Commander — 45 ACP, Commander-length slide matte stainless finish

DW Specialist Commander Black — 45 ACP, Commander-length slide, black Duty finish

DW Specialist Distressed — 45 ACP, distressed Duty finish

DW **DISCRETION COMMANDER**

DW **DISCRETION** 9mm Luger, 45 ACP | Black Duty finish

a belt if using the pistol one-handed.

With suppressors becoming more and more mainstream, the Discretion's match-grade stainless barrel is extended and threaded

and competition-inspired hammer give it a look all of its own.

High tritium sights allow for sighting over the top of most pistol suppressors, with a rear designed so that the slide can be racked on

to make it a ready host. Its aggressively-ported slide helps make

up for the added weight of a can out front, while its serrated trigger

9mm Luger, 45 ACP | Black Duty finish

This shorter, Commander-length version of the Discretion might actually be a better suppressor host than its 5" big brother. By reducing slide and barrel length, weight is removed from the muzzle end, meaning once your suppressor of choice is attached it's much less muzzle-heavy than its Government-sized counterpart.

DW **WRAITH**

9mm Luger, 10mm Auto, 45 ACP | Black Duty finish

Anyone who's been paying attention to the development of the CZ and Dan Wesson lines in recent years will have noticed a trend - many more Suppressor-Ready pistols. The Wraith is a threaded Government-size 1911 available in 45 ACP, 10mm or 9mm and is blacked out from head to toe in our Duty finish.

A set of tapered G-10 grips are cut short to accommodate a magwell and the slide wears a set of high night sights.

DW RAZORBACK

10mm Auto | Brushed/bead blasted stainless

Our Razorback has always been our most popular 10mm platform A 5" 1911, it features our serrated target rib machined on the top of the slide with fixed defensive sights. We fit a match-grade ramped barrel for use of the most popular 10mm loads and smoother feeding. The slide is mated to our standard forged frame with undercut trigger guard and smooth frontstrap. On both the frame and the slide, we polish the flats to a soft brushed finish and sandblast the rounds. The gun is finished off with a nice set of double diamond cocobolo grips. Chambered in the powerful 10mm cartridge, the Razorback is a very versatile 1911 package suitable for defensive use, target shooting and handgun hunting of mediumsized game up to deer or wild boar

45 ACP | Blued

Introduced last year to rave reviews, the A2 is our vision of what the 3rd generation of military 1911 could have looked like. New for 2018 is a Parkerized version, even further standing as a testament to the most-copied pistol design in history.

A lowered and flared ejection port, modern combat sights, tactical beavertail and an extended thumb safety as well as a hint of undercutting to the trigger guard make this one combat-ready pistol.

Starting with a forged steel frame and slide, the A2 is built using topshelf parts, with each component being hand-fit. Parts are blended by hand, then it is bead-blasted and finished in a matte blue.

Double-diamond walnut grips give it a classic look while the stainless steel match barrel and tight slide-to-frame fit ensure that it's no slouch in the accuracy department.

DW ECP

9mm Luger, 45 ACP | Black Duty finish

compact, stainless steel slide and a forged aluminum frame, weight

A tri-topped slide wears aggressive side serrations and a top rib to 1911 dual recoil spring setup

With a compact size that melts away when concealed and a beefy bull barrel, the ECP is an ideal 1911 for everyday carry

9mm Luger, 45 ACP | Black Duty finish

DW **VIGIL CCO**

DW **VIGIL**

MODEL VARIANT:

and standard-height sights

DW **VIGIL**

COMMANDER

being easier to carry on-body all day.

9mm Luger, 45 ACP | Black Duty finish

With the same features as the Government-size Vigil, this shorter

Commander drops some weight due to its shorter barrel and slide,

making it a mid-size pistol that remains incredibly shootable while

SUPPRESSOR-READY

A more affordable entry into the Dan Wesson lineup, the Vigil series

The round-top slide wears a tritium sight on the front and a serrated

9mm Luger, 45 ACP | Black Duty finish

features a rounded butt for comfortable carry.

threaded barrel and high sights with a tritium front.

DW Vigil — Standard non-threaded match barrel

Rounding out the Vigil series, the CCO variant combines a subcompact Officer frame with a compact Commander slide and barrel. Ideal for concealed carry, it is light as can be while retaining the sight radius of a Commander model, making it very shootable

Like all of the Vigil pistols, the Vigil CCO wears a set of cocobolo Shadow grips, a forged aluminum frame with 25-LPI frontstrap checkering and a round-top slide with a tactical sight in the rear and a tritium night sight in the front.

Bringing the heavy, match-grade bull barrel from our Officer-size ECO to a bit bigger platform, the Enhanced Compact Pistol is a 4" gun that conceals well but is a tack-driver at the range. With a is kept to a svelte 29 ounces. Our new tapered G-10 grips and a bobbed frame enhance its ergonomics, affording shooters with smaller hands an easier reach to the trigger

knock down glare, while our new U-notch rear sight is matched to our brass-beaded front sight. The bull barrel itself is flush-cut to make for easier disassembly and has a 30 degree crown. With a similar recoil system to the ECO, it has a flat wire recoil spring that is rated for 15,000 rounds - three times the round count of a typical

DW TCP

9mm Luger, 45 ACP | Black Duty finish

Combining a match-grade bull barrel and our new railed alloy frame, the Tactical Compact Pistol sits in the sweet spot of concealability and shootability. The TCP for short, its compact stainless slide is tri-topped and has aggressive slide serrations. A top rib helps reduce glare and it features our new U-notch rear sight with a whopping .156" wide notch paired with our brass-beaded

Its ramped bull barrel has a 30 degree crown and is flush cut for easier disassembly. Its recoil system uses a similar flat wire recoil spring to our ECO. Rated for 15,000 rounds in 45 ACP, that's three times the round count of a typical 1911 dual recoil spring setup.

The TCP's grips are also new, with a tapered profile that is slim at the top and full-width at the bottom, giving shooters with smaller hands an easier reach to the trigger. With three facets that mimic the distinctive slide, their serrated features encourage a high, deep grip. Our one-piece magwell, flat K-style trigger and square hammer round out the features

All-in, the TCP tips the scales at just 32 ounces, making it an accurate pistol that's easy to carry on the regular

DW **ECO**

9mm Luger, 45 ACP | Black Duty finish

We wanted to give our customers the smallest, lightest gun we could without sacrificing accuracy, dependability and stopping power. Enter the ECO — a single-stack, Officer-size 1911 that weighs only 25 ounces

The lightweight 3.5" slide is topped with tritium night sights with our tactical rear, which allows for easy one-handed racking. The ECO barrel is a flush-cut, ramped bull barrel with a target crown rather than the traditional barrel bushing setup, allowing it to be more compact and easier to

The frame is anodized aluminum and features an undercut trigger guard and 25-LPI checkering. The mainspring housing is also aluminum with 25-LPI checkering and a rounded bottom corner for concealability and shooting comfort. The enhanced grip safety and slim-line G-10 grips plant the pistol in your hand, allowing for faster follow-up shots and better recoil control. Just like the Guardian, the ECO's slide and small parts receive the Duty finish, and it's available in both 9mm and 45 ACP

DW POINTMAN NINE (PM-9)

9mm Luger | Brushed/bead blasted stainless

The Pointman series has been offered in limited quantities in the past, and demand always outpaces production capacity. Featuring our serrated rib on top of the forged slide, it has an adjustable target sight in the rear and fiber-optic sight in the front, and front and rear cocking serrations.

The frame is forged stainless with an undercut trigger guard and 25-LPI frontstrap checkering. The flats are polished to a soft brushed finish, and the rounds are sandblasted for a nice contrast. Double diamond cocobolo grips finish it off. With the lower cost of 9mm ammunition and mild recoil, this is the perfect model for getting acquainted with the 1911. Holding 9+1 rounds, the PM-9 shines both at the range and in competition.

MODEL VARIANT:

DW Pointman 45 (PM-45) — 45 ACP

DW **POINTMAN SEVEN** (PM7)

45 ACP | Brushed/bead blasted stainless

While the differences between it and the PM-45 are few, they are enough that the PM-45 is deemed an entirely different gun and can't be sold in the state of California. Not "safe" enough, or something along those lines.

With legacy features, the PM7-45 is as the Pointman was first configured many years ago — with an adjustable rear target sight, blacked-out front sight and forward serrations. A smooth front strap, 25-LPI rear strap and double-diamond Cocobolo grips secure the pistol in the hand, and flats are brushed and rounds are bead-

DW COMMANDER CLASSIC BOBTAIL

45 ACP | Brushed/bead blasted stainless

Produced only in small numbers in past years, a resurgence in demand means we brought this handy little pistol back into regular production. One of the few California-legal models in our 1911 line, it has a loyal and growing following in the Golden State. With stainless steel slide and frame, its flats are brushed and rounds are bead blasted. With snag-free tritium sights and a bobbed mainspring housing, it's an excellent candidate for concealed carry.

45 ACP | Brushed/bead blasted stainless

A fully stainless take on the CCO concept (Commander-length slide with an Officer frame), the Pointman Carry is easily concealed while being incredibly comfortable to shoot. With features closely mirroring the full-size Pointman Nine, its reduced grip length makes it disappear under even thin cover garments and its stainless frame helps soak up recoil. Aiding this are a round butt mainspring housing, bobbed grip safety, low-profile slide stop and a tactical thumb safety.

Besides its size, a few key differences set it apart from the full-size Pointman series. Lack of forward serrations and a fixed combat rear sight help make it better in its role as an every day CCW.

DW **HERITAGE**

45 ACP | Brushed/bead blasted stainless

Building on one of our longest-lived models, the Heritage is a Government-sized pistol with classic good looks. Polished flats and cocobolo grips make it stand out, while 25-LPI frontstrap and backstrap checkering plant it in the hand without being too aggressive. A front fiber-optic sight glows brightly above our new serrated slide top, and its 5" match barrel makes it a joy to shoot at the range.

DW GUARDIAN

9MM Luger, 38 Super, 45 ACP | Black Duty finish black anodized

A mainstay in our line, the Guardian has a 25-LPI checkered and bobbed aluminum frame and mainspring housing that reduce weight and help it print less when carried concealed. The Commander-length slide gives it a good barrel length and sight radius, making it not only concealable but very shootable at the range. Fixed night sights are robust and are lit by tritum lamps.

DW 715 PISTOL PACK

(LIMITED PRODUCTION)

357 Magnum/38 Special | Brushed stainless

The 715 is as it was before — designed and built to be the most accurate, rugged and versatile revolver on the market. Famous for its swappable barrels and tack-driving accuracy, the 715 Pistol Pack is shipped with 4", 6" and 8" barrel/shroud assemblies in the modern heavy vent shroud profile, the weight of which tames the recoil of the 357 Magnum very well.

Like its famous predecessors, barrel assemblies and grips are easily swapped by the shooter, and the 715 accepts grips and barrel/shroud assemblies from 15-2 model and newer revolvers. The tensioned barrel of the DW interchangeable barrel system enhances accuracy, pulling the barrel tight like a guitar string, enabling it to vibrate at the same frequency

The forward crane latch, located in front of the cylinder and paired with a rear ball detent, helps to ensure proper cylinder/barrel alignment during firing. While the tensioned barrel definitely improves accuracy over other revolvers, it's that consistent cylinder/barrel alignment that contributes most to the accuracy of the design. Additionally, the clockwise-rotating cylinder reduces stress on the crane, since it turns in the same direction the crane locks, prolonging service life and keeping everything tight. The 715's frame is robust, built to handle the heaviest of factory loads.

Each Pistol Pack is shipped in a custom Dan Wesson hardcase with compartments for the additional barrel assemblies and a factory-supplied barrel wrench kit.

RIMFIRE

CZ RIMFIRE

CZ **457**

If we were to pick one thing that our previous rimfire platforms were lacking, it was an American-style push-to-fire safety something Hunter's Education instructors and 4-H shooting coaches have begged us to incorporate for years. Though that was the most obvious change, we also took the opportunity to tweak a load of small things at the same time. In addition to the receiver-mounted, push-to-fire safety, we chopped almost an inch of length from the action and slabsided it to reduce its footprint and weight. The stamped bottom metal of the 455 is gone, swapped for a classy two-piece interlocking system. To make scope fitment easier, we ditched the 90° bolt rotation in favor of 60°, allowing for larger ocular bell diameters with lower ring heights. To top it all off, the 457 now features a trigger adjustable for weight, creep and overtravel. With the exact same swappable barrel system as the 455 and the same reliable polymer magazine system, the 457 is without a doubt the best rimfire platform we've ever fielded.

CZ 457 FEATURES

- · Push-to-fire safety
- · Trigger with adjustable pull weight, creep and overtravel
- · Action fully machined from bar stock
- · Cold-hammer-forged,
- hydraulically-lapped barrel
- · Detachable magazine (5, 10, 25 and single-shot adapter available in 22 LR)
- · Hardy nitride finish
- · 11mm dovetail milled into receiver
- · 60° bolt rotation
- · Interchangeable barrels
- · Interchangeable stocks

C7 **457 VARMINT MTR** 22 LR | Walnut/nitride

Taking our heavy-barreled rimfire to the next level, the 457 Match Target Rifle gets a bit more attention than the average 457 Varmint. Its Match chamber is cut to the tightest specification that CIP will allow, meaning it will perform impressively well with top-tier ammo. The MTR's Turkish walnut stock is designed with ergonomics in mind, and its vertical grip has a comfortable palm swell and laser stippling for texture. A large, flat forend has dual QD studs for running a bipod and a sling, and wrap-around stippling gives much more grip for the forward hand.

C7 457 VARMINT PRECISION CHASSIS SUPPRESSOR-READY

22 LR | Black anodized aluminum/nitride

Precision rimfire rifle competitions have been gaining steam in the last few years and CZ rifles have been go-to equipment for the sport. Expanding on our premium offerings, the Varmint Precision Chassis pairs our heavybarreled 457 action with an aluminum chassis of our own design. Equipped with an adjustable Luth-AR stock, an AR-style grip, QD sling sockets and plenty of M-LOK slots, proper fit and customization are easy to accomplish.

MODEL VARIANT:

CZ 457 Varmint Precision Chassis Suppressor-Ready — Tapered varmint profile 24" barrel, 1/2x28

CZ 457 VARMINT PRECISION TRAINER SUPPRESSOR-READY

22 LR | Camo composite/nitride

A constant in our rimfire line, the Precision Trainer was designed to provide the same look and feel as a full-size tactical rifle while allowing for more economical training. Though the golden days of cheap and plentiful 22 LR ammo may be behind us, the Precision Trainer has become more popular than we ever could have imagined. Based off the PRSI stock, this special Manners carbon-fiber composite stock provides a rock-solid platform and is finished in a three-color camouflage pattern with a base of carbon fiber peeking through the background. The stock itself has multiple layers of carbon fiber and fiberglass hand-laid in high-temperature epoxy resins, then placed in a vacuum and heat-cured to create the perfect resin-to-fabric ratio. Combined with a 24" tapered Varmint barrel threaded 1/2x28, the Precision Trainer is a paper-puncher with surgical precision.

MODEL VARIANTS:

CZ 457 Varmint Precision Trainer Suppressor-Ready — 0.866" profile 16.5" barrel, 1/2x28 CZ 457 Varmint Precision Trainer — 0.866" profile 20.5" barrel, no muzzle threads

CZ 457 PROVARMINT SUPPRESSOR-READY

22 LR | Black-painted laminate/nitride

Always one of our most popular Varmint models, the ProVarmint has a heavy 16.5" barrel threaded 1/2x28 for use with a suppressor or other muzzle device. Riding in a black-painted laminate stock, it incorporates features found on much more expensive stocks without pushing the price of the rifle through the roof. The short barrel gives plenty of time for the cartridge to get a full burn while increasing the rigidity of the barrel, resulting in a rifle that drives tacks. Quietly.

CZ RIMFIRE

The standard heavy-barreled version of the 457, the Varmint has a .866" cylindrical barrel. Not only does the heavy barrel make for good harmonics, it also allows the Varmint to perform well with a wide variety of rimfire loads, translating into an accurate platform for shooting targets or getting game. The Turkish walnut stock has an American-style comb for use with a scope and a wide, flat forend that rides a sandbag well. Laser-cut stippling gives grip fore and aft.

Designed in the European style, the Lux has a hogback stock fashioned from Turkish walnut. With a cheekpiece and comb ideal for use with its crisp iron sights, this 457 is one classy plinker. Like all 457s, it has an 11mm dovetail for mounting optics and can be quckly and easily swapped to a different chambering with the addition of a second barrel set (sold in our webstore). One 5-round magazine is included.

decorative forend tip with Schnabel, while its hog-back stock has a mild Monte Carlo and a cheekpiece. Its 24.8"

barrel wears irons, with a tangent rear sight and a fiber optic front sight, while the muzzle is threaded 1/2x20 (a

Starting out in our classic 452 platform, transitioning to our switch-barrel 455, now manifested in our push-to-fire 457, the Training Rifle is famous in the niche of rimfire competition. With all the same features it's always had, the 457 Training Rifle has a 24.8" barrel, tangent rear sight (adjustable for distance) and beechwood stock with

Between the long sight radius and the crisp iron sights, it's no wonder the Training Rifle has become a favorite in open-sight Rimfire Sporter competition. An ideal rifle for introducing youth to the shooting sports, the Training Rifle is shipped with a 5-round magazine, but single-shot adapters and 10-round magazines are available.

sight is easily adjusted for distances from 25 to 200 meters, and the muzzle is threaded 1/2x28 for a suppressor. With a beechwood stock ideal for open sights, it has grip stippling that follows with the Jaguar motif.

CZ 457 VARMINT AT-ONE®

22 LR | Nutmeg laminate/nitride

Using the popular Boyd's AT-ONE® stock as its basis, this 457 Varmint variant makes an ideal trainer for the whole family. With the push of a button, length of pull can be adjusted from 12.5" to 14.25". Comb height is similarly adjustable, with 5/8" of rise available. The stiff laminate stock provides a nice, rigid platform from which to work and the 16.5" threaded heavy barrel makes fitting a suppressor easy.

CZ 457 AMERICAN

22 LR, 17 HMR, 22 WMR | Walnut/nitride

The classic American-style rimfire rifle, this gorgeous 457 has a 24.8" barrel with no sights and is meant to be topped with a scope. Its Turkish walnut stock has a high, flat comb and a classic checkering pattern. Like all of our 457s, it has an 11mm dovetail milled into the top of its receiver for attaching scope ringmounts.

MODEL VARIANT:

CZ 457 American Combo — Ships with both 22 LR and 17 HMR barrel sets, magazines and required tools

With a premium Walnut stock and decorative forend tip, the Royal definitely plays the part! Intended for use with a scope, it has a high, flat American-style comb and no sights, while its forend is especially long, giving it an attractive look that harkens back to early rimfire rifles. The Royal's 20.5" barrel is threaded 1/2x20 (a European

MODEL VARIANT:

CZ 457 Royal — 16.5" barrel threaded 1/2x20

CZ RIMFIRE

CZ 457 SCOUT

22 LR | Beechwood/nitride

Built to be an ideal first gun for young shooters, the Scout has a short 12" length of pull. With simple leaf rear sight and blade front (rear adjustable for windage, front for elevation), learning the basics of sight picture has never been easier. 11mm dovetails on the receiver make adding a scope a breeze. Own a suppressor? 457 Scouts have a muzzle that's threaded 1/2x28, allowing for hearing-safe shooting without the need for muffs or plugs. As young shooters outgrow the short stock, adding a full-size stock is easy as can be. Any of our 457 stocks with a sporter barrel will fit (American, Lux, Training Rifle, etc.), and the same goes for the many barrel sets available for the 455/457 platforms. Shipped with a single shot adapter to teach ammo conservation, any of the 455/457 magazines will fit, with capacities of 5, 10 and 25 rounds.

CZ 512 AMERICAN

22 WMR | Walnut/blue

Set up for optics, the 512 American has a Turkish walnut stock with laser-cut checkering. The unique semi-auto's action is comprised of an aluminum alloy upper receiver, which secures the barrel and bolt assembly, and a fiberglass-reinforced polymer lower half that houses the trigger mechanism and the magazine well. The modular design is easily maintained, requiring only a coin as a tool for fieldstripping. Sharing magazines and scope rings with the CZ 455, the 512 makes the perfect companion to your bolt-action CZ rifle.

CZ 512 STANDARD

22 WMR | Beechwood/blue

The standard iron-sighted version of the CZ 512, this model is the one that kicked off the 512 line. One of the only affordable and reliable semi-auto 22 WMR rifles on the market, it has built a reputation as a tack-driver owing to its cold hammer forged barrel and crisp fully-adjustable iron sights.

CZ **CENTERFIRE**

CZ **527**

The smallest of our centerfire platforms, the CZ 527 has proven popular the world over. In Europe, it has won more awards in the "light rifle" category than anv other rifle — ever.

Designed specifically for small-base centerfire calibers, it is a true micro-length Mauser action. With controlled round feed, a detachable single-stack magazine, a cold-hammer-forged barrel, integral 16mm dovetails and our renowned single set trigger, many people think it's the ultimate small-caliber platform.

With such a small action, even longer-barreled Varmint models seem short and quick-handling. Whether you need a varmint chambering such as 17 Hornet or 204 Ruger, want to shoot deer or antelope with 6.5 Grendel or need to plink with steel-cased ammo in 223 Rem. or 7.62x39, we've got a 527 for the job.

- · True micro-length Mauser-style action
- Controlled round feed
- · Cold hammer-forged barrel
- · Single set trigger (except MTR)
- · Detachable magazine
- receiver
- calibers
- CZ 223s are built to fire 5.56 ammunition. CIP spec doesn't differentiate between the two.

- 16mm scope dovetails milled into the
- · Left-hand versions available in select
- · Because they are built to CIP spec, all

C7 527 AMERICAN SYNTHETIC SUPPRESSOR-READY

223 Rem., 6.5 Grendel, 7.62X39 | Synthetic/blue

Threaded for a suppressor, this short, handy 527 is equally happy shooting steel or taking down hogs. Chambered in 223, 6.5 Grendel or 7.62x39, the latter two have enough knock-down power for most medium game at shorter ranges, and with the addition of a suppressor, plinking can be quiet as can be! Muzzle threads are 1/2x28 in 223 Rem. and 5/8x24 in 6.5 Grendel and 7.62x39.

CZ **527 AMERICAN**

17 Hornet, 22 Hornet, 223 Rem., 204 Ruger, 6.5 Grendel, 7.62x39 | Walnut/blue

The CZ 527 American features a classic American pattern stock, a sporter-weight hammer-forged barrel, a single set trigger and a recessed target crown. Made to be used with optics, the 527 American has a high, flat comb and the same 16mm dovetail as all 527s milled directly into the action. A recent addition to the many chamberings available is the increasingly popular (and for good reason!) 6.5 Grendel. A 24" barrel allows you to extract as much velocity as possible out of the potent little round, and accuracy comes courtesy of CZ's cold-hammer-forged and lapped barrel. Since 2015 all CZs in 223 Rem. ship with a 1:9"-twist barrel for most bullets up to 70 grains

MODEL VARIANT:

CZ 527 American Left-Hand — 223 Rem

17 Hornet, 204 Ruger, 223 Rem. | Turkish walnut/matte blue

The Varmint retains all of the features that made the 527 famous, from its controlled round feed and claw extractor to its single set trigger and heavy cold hammer-forged barrel. Scope mounts are milled directly into the top of the forged, square bridge receiver (rings not included), and the rifle comes with a 5-round detachable box magazine.

MODEL VARIANT:

CZ 527 Varmint Suppressor-Ready — 6.5 Grendel, 5/8x24 muzzle threads

C7 527 VARMINT MTR

223 Rem., 6.5 Grendel | Walnut/blue

Tuned to perform, the Match Target Rifle is a bit different than most 527s. Not only does it have a heavier-than-normal barrel (measuring .866" at the muzzle), it also gets a fully-adjustable trigger very similar to the one found on the 557. Though it lacks the Single Set function of other 527s, this trigger is able to be finely adjusted and is a superb choice for target shooting where precision is required. Its Turkish walnut stock is impressively ergonomic — with stippling in all the right places a vertical pistol grip and a wide forend that's perfect for riding a sandbag The MTR is threaded for use with a suppressor (1/2x28 in 223, 5/8x24 in 6.5 Grendel).

The Carbine is an intermediate-range "brush gun." Weighing in at less than 6 lbs, this handy rifle has a straight comb walnut stock and open sights. Our most popular model chambered in 7.62x39, it combines low recoil with effectiveness on medium-sized game such as deer and wild boar, making it ideal for beginning hunters. Both chamberings offered in the Carbine are economical to shoot given their service rifle heritage and the availability of surplus ammunition. Built to CIP specifications, our 7.62x39 chambers are ideal for shooting steel-cased surplus ammo. Designed to shoot .311 bullets, some American brass ammo may not perform as well as the imported steelcased variety because of SAAMI brass dimensions and varying bullet diameters.

The CZ 527 Lux has won more awards in the light rifle category in Europe than any other rifle — ever! Fitted with a Turkish walnut stock in the famous Bavarian pattern, the Lux is ideal for open-sight shooting, and the hooded front sight allows for a glare-free, crisp sight picture. Ships with a 5-round single-stack magazine.

CZ **CENTERFIRE**

CZ **557**

CZ's newest centerfire platform, the 557 is a departure from the Mauserstyle bolt found on 550 models. Instead, it has a short extractor and plunger-style ejector for smooth operation and enhanced ejection. The short extractor or "push feed" system also makes it easier to single load the rifle, which many shooters prefer for range work.

With a receiver machined from steel billet, it wears CZ's integral 19mm dovetails for mounting a scope. Equipped with a 2-position safety, the bolt can be cycled while the rifle is on "Safe." To top it off, it comes with a fully adjustable trigger that allows the owner to tune weight, creep and overtravel to their liking. Paired with CZ's legendary cold-hammer-forged, factory-lapped barrel, the resulting rifle is destined to become a treasured hunting companion.

CZ 557 FEATURES

- · Push feed action
- · Square bridge receiver
- · Cold-hammer-forged barrel
- · Barrel lapped for accuracy

- · Integral 19mm scope bases
- · Two-position safety
- · Adjustable trigger

CZ 557 AMERICAN

6.5x55, 270 Win, 30-06 (long action); 243 Win, 6.5 Creedmoor, 308 Win (short action) | Walnut/blue

With a 24" version of our cold-hammer-forged and lapped barrel, the 557 American picks up where the short-barreled Sporter left off. The longer barrel squeezes a bit more velocity out of the chosen chamberings. and its American-pattern stock has a classic checkering design borrowed from our UHR.

With a high comb and no sights, this rifle is intended for use with a scope, and built-in dovetails mean there are no bases required — allowing scopes to be mounted directly to the action and enabling a simpler, more robust attachment method.

6.5x55, 270 Win, 30-06 (long action); 243 Win, 6.5 Creedmoor, 308 Win (short action) | Synthetic/blue

Equipped with a black synthetic stock, this rifle is impressively ergonomic. Its high, flat comb is ideal for being behind a scope for long periods of time, while its grip radius and forend are very comfortable on the hands. With a soft-touch finish that grabs onto you, it's the stock of choice for folks who know they'll be putting a gun through the ringer. Whether that means busting brush on a deer drive or riding in a scabbard into the wilderness, the 557 American Synthetic is up for the challenge.

With a high comb and no sights, this rifle is intended for use with a scope, and built-in dovetails mean there are no bases required — allowing scopes to be mounted directly to the action and enabling a simpler, more robust attachment method

30-06 | Walnut/blue

Left-handed shooters may not be a large group, but they sure are vocal! Bringing lefty-friendly operation to the medium-game chamberings are the 557 Left-Hand and Left-Hand Short Action.

Built on the same CNCed action as the standard 557, the Left-Hand wears a handy, American-pattern stock paired with a 24" barrel to help squeeze a bit more energy out of the 30-06 chambering. The cold-hammer-forged and lapped barrel coupled to our tried-and-true 557 push-fed action mean this rifle will cut very respectable groups.

MODEL VARIANT:

CZ 557 Left-Hand Short Action — 308 Win

Building on the incredibly precise 557 short action, the Varmint model adds a stout 25.6" barrel in a heavy profile that tapers to a 0.863" muzzle. Anchored in an incredibly ergonomic walnut stock, it has a healthy palm swell, laser-cut stippling and a flat forend. Matching the human form was the guiding principle in the stock's development, the result is an incredibly comfortable rifle to lay behind, whether you're punching paper, ringing steel or knocking off prairie dogs at great distances.

308 Win. | Turkish walnut/blue

CZ **CENTERFIRE**

CZ 550 MAGNUM

Known worldwide as the Brno 602, the 550 Safari Magnum has long ruled the roost when it comes to magnum capacity. A classic go-to for African professional hunters, many 602s are still riding the rack after many decades in the field. In the staple 375 H&H chambering, the 550 Magnum will hold one in the chamber and five in the mag, giving it more rounds on tap when dangerous game wants to get up

With the controlled round feed of the Mauser system, there's no chance to short-shuck the action when under stress, meaning positive ejection and sure feeding when the chips are down. With several configurations to choose from, the 550 Safari Magnums offer good looks, great value and most importantly — rock-solid reliability.

CZ 550 MAGNUM FEATURES

- · Mauser-style controlled round feed action
- · Square bridge receiver
- · Cold-hammer-forged barrel
- · Barrel lapped for accuracy
- · Integral 19mm scope bases
- ·Two-position safety
- · Single set trigger

CZ 550 SAFARI MAGNUM

375 H&H Mag., 458 Win. Mag., 416 Rigby | Field grade walnut/blue

Known worldwide as the 602 Brno, the CZ 550 Safari Magnum is a true full-size magnum, not a smaller action blown out to barely hold the cartridge. The rifle of choice for most Professional Hunters in Africa, odds are that the rifle backing you up on a dangerous game hunt was made by CZ. Features include 3-leaf express sights (1 standing, 2 folding), hammer-forged barrel and single set trigger. The stock is made from select Turkish walnut and has a classic safari shape. The controlled round feed and fixed ejector make this rifle reliable enough for heavy and dangerous game, while the reasonable heft helps tame the recoil

C7 550 AMERICAN SAFARI MAGNUM FIELD GRADE

375 H&H Mag., 458 Win. Mag., 416 Rigby, 458 Lott, 505 Gibbs | Field grade walnut/blue

The American model retains the quality and reliability of the original CZ 550 Safari Magnum, but is fitted into an American-pattern stock with a straight comb, making it ideal for use with optics. It still retains the back-up express sights in case the optic goes down or tight confines dictate the optic needs to be removed.

MODEL VARIANTS:

CZ 550 American Safari Magnum Walnut Fancy Grade — Fancy grade walnut CZ 550 American Safari Magnum Aramid Composite — Composite stock

CZ ALL-TERRAIN

Clad in OD Green and walnut – these shotguns stand out without being ostentatious. The muted green Cerakote finish makes them ideal for field work, increasing their hardiness and making them near impervious to the elements, and sling points make adding a shoulder sling easy.

The stand-out feature included on the break-open variants in this series is a small but revolutionary (and patent pending!) addition to their actions. To make them more ideal for use in a duck blind or while handling dogs and equipment in the field, each of the All-Terrain over/unders and side-by-sides has a set of rare earth magnets installed in their extractor or ejectors. With these magnets in place, most modern shells are retained in the gun even when the gun is turned upside-down. This makes loading them easy in a pit blind or boat, and never will a dog-handler accidentally dump shells out of their gun while bending over to work with their dog.

all-around hunting shotgun, easily slung while carrying decoy bags or trekking in to a turkey spot.

CZ DRAKE ALL-TERRAIN

Built on our most affordable over/under platform, this Drake is all business. Without some of the flairs

Built on our most affordable over/under platform, this Drake is all business. Without some of the flairs of our other shotguns, it has a robust single extractor, mid-rib delete and a few little hand-engraved touches. A single selectable trigger allows the user to choose which barrel fires first, and five extended chokes give plenty of control of shot constriction.

With a bit more flair than the Drake above, the Redhead Premier All-Terrain has auto ejectors that kick empty hulls out of the action, more hand-engraved embellishments on the action and a solid mid-rib that adds a little weight and a classy look while giving the gun a smoother swing. Unlike others in the All-Terrain series that only have a 28" barrel length, the Redhead can also be had with 30" barrels if so desired.

C7 LIDI AND LILTDALIGHT ALL-TEDDAIN

The lightweight in the crew, the Upland Ultralight All-Terrain incorporates features that have long made the Upland Ultralights favorites of bird hunters who put on the miles. With an aluminum action, mid-rib delete and hollowed-out butt stock, this shotgun shaves some key ounces, meaning it doesn't weigh

CZ BOBWHITE G2 ALL-TERRAIN

Side-by-sides are seeing a surge in popularity and this double-barrel is the hardiest by far of our offerings. With double triggers, an English-style straight grip and a splinter forend, the Bobwhite G2 All-Terrain adds the features of the All-Terrain series minus one — we left off the extended chokes to give it a bit more classic appearance!

CZ COMPETITION

Now in 20 gauge!

CZ REDHEAD PREMIER TARGET

The Redhead Premier Target is assembled like the standard Redhead Premier but with a different purpose in mind — it's designed to crush clay targets, plain and simple! It comes fitted with a special Monte Carlo stock that keeps the gun on your shoulder while keeping your head up to see the clays. Add to that a healthy right-hand palm swell, 30" barrels and a stepped rib designed for rising trap targets — it's the perfect choice for those wanting to own a true target gun at an affordable price. Shipped with a set of black extended and knurled choke tubes, the Redhead Target has laser-cut checkering and a 1-piece CNCed receiver. This target gun can be had in 12 or 20 gauge.

CZ SCTP STERLING

After several years spent homing in on the ideal shotgun for female shooters, an interesting truth presented itself — those unique dimensions required to fit women with long necks and slender faces are nearly interchangeable with those needed to properly fit many youth shooters both male and female! As the product photo demonstrates, these dimensions create a stock that looks very different from most other shotguns, allowing these shooters to keep their heads up and eyes on target. A 4-way adjustable comb helps fine-tune the fit and increased pitch makes it much more comfortable to shoulder (clocking in at around 8°).

This classy shotgun is chambered in 12 gauge with 28" or 30" barrels and handles $2\frac{3}{4}$ " and 3" shells.

MODEL VARIANT:

CZ SCTP Sterling Southpaw — Cast on for left-handed shooters

CZ SHARP-TAIL TARGET

This target side-by-side carries all of the mechanics as the Sharp-Tail but with a 30" barrel and a 14¾" length of pull. Originally designed to tackle side-by-side sporting clays events, it is a classy double gun that doesn't carry the accustomed weighty price tag. Equipped with a set of extended, knurled black choke tubes, it's the perfect choice for a clay shooter or gentleman hunter.

C7 712 G2 TARGET

Equipped with a soft-recoiling gas piston system and larger, more comfortable target-style stock, the 712 Target is a joy to shoot. Its soft-shooting nature and affordable price make a favorite for youth shooters and many others looking for a target shotgun that won't break the bank.

Right at home on the trap field, the Target's 30" barrel has a stepped rib that helps drop the shotgun out of the shooter's line of sight. With a hardy matte black chrome finish and 5 interchangeable choke tubes, this target gun can easily pull double duty chasing both birds and clays.

CZ 612 TARGET

One classy pump gun, the 612 Target is fitted with Select grade wood in a glossy oil finish while the metalwork gets a deep polished blue. With a factory-tuned trigger system, raised rib and comfortable Monte Carlo stock, it's ready to kill some clays. An assortment of stock shims help users adjust drop and cast to achieve a better fit, while a set of extended chokes and a pair of white beads round out the package.

CZ ALL-AMERICAN

A purpose-built target gun, the All-American is packed with features that make it excel at busting clays and the rigorous shooting schedule of competition. Available in 30" or 32" barrel lengths, it features lengthened forcing cones and porting to reduce recoil. A wealth of adjustable features help tune the fit to its owner, with an adjustable length of pull (14 1/2" to 15 1/2"), 4-way adjustable parallel comb, toe in/toe out and an adjustable reach to the trigger (with 3/8" of adjustment). Premium internals include firing pins that ride in bushings, drop-in locking blocks and replaceable hinge pins for as the round-counts climb and the gun loosens up. A mechanical trigger and manual safety increase reliability, and five extended, knurled chokes allow for quick constriction changes on the course.

CZ ALL-AMERICAN SINGLE TRAP

A single-shot version of the All-American above, the Single Trap combines all the adjustability of its predecessor with a handful of improvements for the sport of singles trap. It is a dedicated singles gun, with a correspondingly shorter action (so sadly it doesn't accept standard All-American barrel sets). With available barrel lengths of 30", 32" and 34", all are ported and have a wide beavertail forend, high rib and a small white mid-bead with a large white front bead. Built for high round counts, it also features drop-in locking blocks and replaceable hinge pins.

For those shooters who need a versatile competition gun, this All-American is ideal for trap singles, doubles and sporting clays. With two included barrel sets, it can be fitted with the 32" double barrels or the 32" unsingle barrel with its dial-adjustable rib (from 100% high down to 50/50). All barrels have lengthened forcing cones and porting to reduce recoil. Just like the standard All-American, this variant has heaps of adjusability — length of pull (141/2" to 151/2"), 4-way adjustable parallel comb, toe in/toe out and an adjustable reach to the trigger (with 3/8" of adjustment). A wide array of chokes are included, and the same premium internals and replaceable parts ensure that this shotgun can stay in the game as it racks up rounds.

CZ OVER/UNDER

Now with 3" chambers in 28 gauge!

CZ DRAKE

There is no doubt in our minds that the Drake is the best bang for the buck in the over/under category Built on our one-piece CNCed receiver, the Drake has a single selectable trigger, meaning you can choose whether to fire top barrel or bottom barrel first. With a simple, robust extractor to lift spent shells, the Drake sheds some weight with a mid-rib delete

The Drake can be had in 12, 20, 28 or .410 chamberings, all fitted with Turkish Walnut furniture with sharp laser-cut checkering that sticks them in the hand. With 28" barrels and five interchangeable chokes (except for .410, which has fixed IC/Mod barrels), the Drake ships in a protective hard case.

MODEL VARIANT: CZ Drake Southpaw — Cast on for left-handed shooters, 12 or 20 gauge

13 3/4" length of pull

Nearly identical to the Drake above, what sets the Quail apart is a slightly shorter length of pull that makes it more comfortable to carry and shoot for youth shooters and hunters. The mid-rib delete trims a noticeable amount of weight from the muzzle end, making it easier to shoulder and swing

Chambered in 20 gauge and fitted with 28" barrels, the Quail comes in at a very respectable price point, making it a much more attainable investment than most similarly-equipped youth shotguns

Once broken in a bit, extractor guns tend to be substantially easier to open than their ejector counterparts, and this gun is no exception. A single extractor lifts spent shells from the chambers, and the shotgun ships with five interchangeable chokes

CZ UPLAND ULTRALIGHT

An over/under on a diet, we trimmed weight from the Upland Ultralight by building it on a CNCed alloy receiver, foregoing the mid-rib and hollowing out the buttstock. Though this doesn't necessarily make it the ideal choice for a day on the sporting clays course, it excels in the field — with the 20 gauge version clocking the scales at just 5.8 lbs!

To make things simple, a single extractor lifts shells to hand as the action is opened. Barrel lengths are 28" in 12 gauge and 26" in 20 — each with interchangeable chokes (shipped with a set of five). Laser-cut checkering and a hard matte chrome finish round out the stats.

Now in 16 gauge!

A mainstay in our lineup, the Redhead Premier is truly an all-purpose shotgun. Auto-ejectors propel spent shells from the chambers, and a solid mid-rib gives it a classy look and a more deliberate swing. Equally at home on the sporting clays course or in the field chasing roosters, its wrap-around checkering provides plenty of purchase

Available in 12, 16 and 20 gauges, the Redhead is fitted with 26" or 28" barrels (16 gauge is 28" only) with a classy white bead atop the rib. A single selectable trigger and five flush mount chokes are included in its hard protective case (16 gauge guns are fixed IC/MOD choke)

MODEL VARIANT:

CZ Redhead Premier Reduced Length — 20 gauge with 24" barrels and 13" length of pul

CZ WINGSHOOTER ELITE

One of the classiest shotguns in its price range, the Wingshooter Elite has faux sideplates that are ornately hand-engraved, reminiscent of our custom-grade guns that cost much more. It carries all of the best features in our over/under line, with our one-piece CNCed receiver, single selectable trigger, solid mid-ribs, ejectors and a two-tone hard-chromed finish. Add to that laser-cut checkering, a pistolgrip stock and a white bead, and it's hard to find a more elegant shotgun for the money.

Available in 12 and 20 gauges with 3" chambers, selectable 28" barrels, Turkish walnut stocks, independent auto ejectors and 5 flush-mount choke tubes.

Now with 3" chambers in 28 gauge!

Whether you're a clayshooter or a hunter, nothing quite matches the feeling of shooting a bespoke shotgun. We do a number of custom, built-to-order shotguns each year and wanted to introduce a high-grade production gun that carries the flair of these customs but at a bit better price point.

Nith deep relief engravings cut by hand, the Supreme Field is fitted to a Grade III stock that shows off the grain structures that Turkish walnut is famous for. With our one-piece CNCed receiver, the Supreme Field is chambered in 12, 20 and 28, with automatic ejectors standard on all three gauges. Its full forend is sharply-checkered and a solid mid-rib both adds to the class and gives this 28" barreled shotgun a smooth swing. Shipped in a protective hard case with five interchangeable extended chokes.

 $With 3\,1\!/2" chambers, short barrels and a camo finish, the 12 gauge Reaper Magnum is built to slay the state of the sta$ turkeys! Offering what single-barrel turkey guns cannot, this magnum shotgun allows a hunter to equip two vastly different chokes, allowing the choice of short range or long range constriction with

Shorter 26" barrels make it more maneuverable in the woods or blind, while the top removeable Picatinny-style rail makes adding an optic easy as can be. Polymer stocks clad in camouflage help it blend in, and adding a sling is simplified with QD swivels front and back. The Reaper Magnum ships with five extended interchangeable chokes, including an extra full.

CZ SWAMP MAGNUM MAX5®

If you ask Bruce Horrell, host of CZ-USA's Gun Dog TV, why he shoots 31/2" shells, he'll answer, "Because they don't make 4 inch." For the folks who want to dish out the heat on waterfowl, we've got the over/

The only over/under in our line that has an automatic safety, it engages every time the action is opened, giving an added level of safety to the duck blind. The hardy polymer stock will take a beating much better than wood — an inevitability in waterfowling. This 3 1/2" chambered 12 gauge has 30" barrels and was born to knock big birds from the sky.

CZ BOBWHITE G2

Back by popular demand and better than ever, the Bobwhite G2 is still a double-trigger gun with an English-style grip — but now with a CNCed receiver, upgraded internals, a hardier receiver finish and a

Now with 3" chambers The straight stock makes busting brush easier, and the double triggers allow for quick choke decisions when a a bird busts at distance. Shipped with five interchangeable chokes, it has 28" barrels and can be in 28 gauge!

> Between the straight stock and new action design, the Bobwhite is downright dainty in the smaller gauges, and in 28 gauge it's tipping the scales at just 5 1/2 lbs. Our tough black chrome finish on barrels and receiver mean this side-by-side will be less prone to rust than a blued gun. Light and rugged, it's a shotgun built to do work.

Now with 3" chambers in 28 gauge!

With a single selectable mechanical trigger and pistol grip, the Sharp-Tail is one of the sharpest-looking side-by-sides on the market. Built around a lithe one-piece CNCed receiver, the metalwork is finished in a beautiful color case. With independent floating firing pins, coil-spring-operated hammers

Available in 12, 16, 20, 28 and .410 with 28" barrels, Turkish walnut stocks, and a robust single extractor. 12, 20 and 28 gauges ship with five interchangeable chokes, while 16 and .410 have fixed IC/Mod barrels.

CZ SHARP-TAIL COACH

and redesigned sears, the result is longer life and greater consistency.

With the same slender action of the Sharp-Tail as well as its single selectable trigger, the Sharp-Tail Coach is a more modern coach gun than our hammered version below. With a mechanical trigger and a manual safety, it has a single extractor that lifts shells for removal. Its 20" barrels are cylinder bore and it can be had in 12 or 20 gauge and will chamber 23/4" or 3" shells.

A modern incarnation of the fowling piece of old, the Hammer Classic has fully-functional hammers and long 30" barrels. Built to handle modern loads, both hammer models have a true side lock frame design and 3" chambers. Dual triggers and color case finish round out the look, and five flush interchangeable chokes lend modern functionality.

CZ HAMMER COACH

The chopped-down version of the Hammer Classic, the Coach is popular with Cowboy Action shooters who want a period-correct firearm that can handle modern loads. With fully-functional hammers and dual triggers, short 20" barrels, color case finish and cylinder bore barrels, the Hammer Coach will dish out birdshot, buckshot or slugs up to 3" in length — take your pick!

The next evolution in our semi-auto shotgun line, the 1012 uses a gas-less operating system. Instead of redirecting gas from the barrel to run the action, the 1012 uses a spring within the bolt to store energy during the shotgun's recoil, spending this energy a split second later to rotate and unlock the twin lugs from the barrel extension and withdraw the spent shell.

 $The \ major \ advantage \ of \ this \ gas-less \ system \ is \ the \ less \ stringent \ maintenance \ schedule. \ Unlike \ gas \ guns$ that need periodic cleaning of the piston and magazine tube, the 1012's needs are vastly fewer. During our testing, we pushed 1012s to 5,000 rounds without a drop of oil or cleaning of any sort, while experiencing zero parts breakage or malfunctions. In normal use, the occasional cleaning and oiling should be

Additionally, the gas-less system itself is tuned to run a wider variety of shells — from light-recoiling target loads up to the smoking hot 3" magnums currently on the market.

MODEL VARIANTS:

CZ 1012 Bronze — Bronze receiver CZ 1012 Grey — Grey receiver

With one of the most iconic camo patterns of all time, the 1012 Bottomlands® is a bird-hunting machine. Using the same uber-reliable inertia semi-auto system that was used to set a clayshooting World Record in 2019, this auto-loader is built for abuse. Whether it's a duck boat or a grueling 12-hour torture test, the 1012 is specifically designed to run a wide variety of ammunition while receiving minimal maintenance.

CZ 1012 SYNTHETIC WATERFOWL CAMO

The same clean-running gas-less system 1012 is also available in a hardy synthetic-stocked variant. Clad in waterfowl camo, it'll eat even the hottest 3" magnum loads out there.

CZ 1012 SYNTHETIC

If camo isn't your thing, we've got a hardy black synthetic version of the 1012 as well. With silver bolt and controls, it's a workhorse shotgun that can do it all!

The CZ 712 is our tried-and-true gas-operated semi-automatic that enabled CZ-USA's David Miller to set a new world record, breaking 3653 clays in 1 hour. Built on a lightweight alloy receiver, it accepts 23/4" and 3" shells and is an all-arounder, a great choice for upland game, waterfowl or clays. The barrel on the 712 is chrome-lined and has a matte black hard chrome exterior that will resist corrosion for many seasons in the field. Fit with a Turkish walnut stock, the G2 version adds laser-engraved checkering, right-hand palm swell as well as a barrel lock ring to make assembly easier.

The Utility is exactly that — an all-purpose tool good for anything from home protection to pest control on the farm. Its small size makes it a very handy shotgun that is easy to stash, whether behind the truck seat or behind the closet door, allowing it to be there when you need it most. Chambered for 23/4"

13" length of pull

Built for smaller-statured shooters, this version of our 20 gauge 720 has a shorter 13" length of pull and a 24" barrel. Shipped with five choke tubes, this soft-shooting semi-auto makes a great first shotgun!

MODEL VARIANT:

CZ **720 G2** — Standard 14 1/2" length of pull, 26" barrel

finished in a high-gloss black chrome. Though similar in many respects to the 712, the 912 houses its action spring in the buttstock, making cleaning the gas system even easier.

With modern stock lines, a 28" barrel and a ventilated butt pad to soak up recoil, the 912 will hold 4+1 in the mag tube and is designed to shoot everything from standard field loads all the way up to 3" magnum hunting loads.

The 20 gauge version of our 912, the 920 is a classy little semi-auto. Its aluminum action is scaled down for 20 gauge, making it light and handy, while its 28" barrel lets it swing more smoothly. Shipped with five interchangeable chokes, the 920 is tuned for standard hunting loads in 23/4" or 3" and holds 4+1 in the shotguns

CZ PUMP ACTION

Simple, strong and smooth, the 612 Field is designed to shoot everything from targets to turkeys. With dual action bars and an aircraft alloy reciever, the Field wears a Turkish walnut stock with an oil finish that's easy to touch up through the years. Fitted with a 28" barrel with a brass bead, metalwork is a

Chambered for 23/4" and 3" shells and supplied with three chokes, it's the hardest-working shotgun in

Fitted with select grade wood!

For those who want a light, classy pump gun to carry in the field, we put together the perfect shotgun. Built on a gauge-specific 7075 aluminum action, this 28 gauge has a deep glossy blue finish and select grade Turkish Walnut. A set of interchangeable chokes lets you tune constriction and the full forend and pistol grip help make this lithe shotgun feel good in the hands. With a 28" barrel, the 628 clocks in at just 5.4 lbs, lightening the load for those full days chasing birds. The 628 is chambered for 2 3/4"

MODEL VARIANT:

CZ 620 Field Select — 20 gauge, 3" chamber

The 612 Magnum Turkey was created for the turkey woods and is finished in camo to match. This pump gun comes equipped with two chokes, one extra-full to deliver maximum pellets to the kill zone and one modified for upland hunting and steel shot.

Available in 12 gauge with a 26" barrel, the Magnum Turkey has camo-dipped polymer stocks and will chamber 23/4", 3" and 31/2" shells.

Built for the goose blind, the 612 Magnum Waterfowl boasts the perfect waterfowl camo pattern combined with a $3\frac{1}{2}$ " chamber for magnum shotshells. This machine is the best tool for making big birds fall from the sky. The 612 Magnum Waterfowl ships with 5 extended black choke tubes.

Available in 12 gauge with a 28" barrel, the Magnum Waterfowl is hydrodipped in camo and will chamber 23/4", 3" and 31/2" shells.
