Fred Eichler

We are proud to partner with world-famous traditional bowhunter, Fred Eichler, on a first of its kind aluminum Take Down riser. The Fred Eichler Signature Take Down features a 17" machined riser with Bear's patented Fred Bear latch system. The Eichler Signature riser can be paired with Bear's 1, 2, 3 and Longbow limbs to create a Take Down with a 58", 60", or 62" AMO. The durable and ergonomic design of the bow is the result of immense testing and input from Fred Eichler himself. As the first individual ever to complete the Super Slam (all 29 of North America's big game animals) with a traditional bow, Fred Eichler's knowledge and first hand experience in the field with a recurve is second to none. The low wrist, slim grip design, adjustable strike plate and customizable shelf radius are critical components that give bowhunters the flexibility to tailor the riser to their wants and needs.

Mag Riser

We've paired the Mag Riser with the classic Fred Bear Take Down limbs for easy transportation. The Mag Riser features an aluminum A or B length riser for extreme durability and accuracy.
