COVERT SCOUTING CAMERAS

Covert Scouting Cameras for High-quality Wildlife Monitoring

Dependable Scouting cameras with some of the most affordable data plans and an easy to use app to provide the BEST user experience possible.

SCOUT. ORGANIZE. HUNT.

Covert isn't just a trail camera brand – it's a full scouting ecosystem. Our updated app makes adding and managing cameras incredibly simple: just scan the QR code, name your camera, and you're live in seconds. Powerful image recognition helps you quickly sort and find the shots that matter most, while some of the most affordable data plans on the market let you run more cameras without breaking the bank. Combine that with unbeatable image and video quality, rock-solid field performance, and U.S.-based support, and you're not just buying a camera – you're getting a complete scouting system working together to keep you ahead of the game.

SCENT CRUSHER®

SCENT OFF. GAME ON.®

Scent Crusher Odor-Eliminating Gear for Successful Hunting

Industry leading ozone technology providing scent elimination not only to the outdoor enthusiasts but also for every day use.

ELIMINATE ODORS

Developed from NASA based research, Scent Crusher products feature scent-crushing Ozone Activated Technology. Our Ozone Activated Technology effectively eliminates odors on your gear. Sweat, soaps, food, perfume – you name it, Scent Crusher eliminates it by killing the organisms that cause odors. Scent Crusher leaves no scent, chemical residue or harmful byproducts.

THE LOCKER 2.0

ITEM #: SC00108

The Locker provides an easy and effective way to eliminate all odors on clothing and equipment so you are ready for the next hunt. The portable digital generator emits ozone that destroys most odors within 30 minutes. Rechargeable, the generator can operate 4+ hours on a single charge so you can take it with you. Heavy-duty metal shelves are convertible and adjustable to suit your storage needs; great for basements, garages & hunting camps.

- Locker size: 45" W x 69" H x 27" D
- Techno-lite fabric (Heavy Duty Zippers, Weather-Resistant Base)
- Heavy-duty metal shelves are adjustable to suit your storage needs
- Upgraded to Gray and Black Diamond Fabric
- New Generator
- Upgraded Zippers
- New hanger to accommodate the new generator

LOCKER LITE 2.0

ITEM #: SC00085

The Scent Crusher® Locker Lite provides an easy and effective way for hunters to eliminate all odors on clothing and equipment so you are ready for the next hunt. Easy to assemble and tough enough to use outdoors, the portable closet is great for basements, garages and hunting camps. The digital generator emits a chemical free ozone that destroys most odors within 30 minutes.

- Upgraded Fabric to Gray and Black Diamond Fabric
- New Generator
- Upgraded Zippers
- New hanger to accommodate the new generator

GEAR BAG 2.0
ITEM #: SC00054

The Scent Crusher® Ozone Gear Bag 2.0 is loaded with features providing an easy and effective way for hunters to eliminate odors before and after the hunt. Utilize the power of ozone with our system to quickly destroy odors. Simply place your gear in the bag, zip it up and set the timer. The Scent Crusher® Gear Bag 2.0 is completely complementary to carbon/silver lined scent control clothing and extends the life of the item with reduced laundering.

- Gear Bag: 31" L x 13" W x 13"H
- One Removable Shoulder Strap
- Handles with Velcro Closure
- Upgraded Zippers
- New Generator
- Moved logo to allow for customization
- Larger Bag

ROLLER BAG 2.0
ITEM #: SC00061

The Scent Crusher® Ozone Roller Bag makes traveling a snap. The large bag gives you the extra space needed for those long hunting trips and has the extra amenities needed for them! The Ozone Roller Bag has incorporated an extendable handle, heavy-duty wheels and sturdy structure construction.

- Roller Bag size: 34" L x 20" W x 13" H
- Techno-lite fabric (Heavy Duty Reversed Zippers, Weather-Resistant Base)
- Sturdy Structure construction (D-flap opening)
- 1 Ozone-Free Exterior Pocket / Pocket Size: 10"x 9"x 3"
- Heavy-Duty Rugged Roller Wheels & Reinforced Pull Straps
- Telescopic pull handle and TSA compliant
- Upgraded to Gray and Black Diamond Fabric
- New Generator
- Upgraded Zippers
- Generator bracket designed to improve airflow

OZONE GO SUPER MAX
ITEM #: SC59903

- Power Source: 12V
- Designed for large vehicles
- Power on/off button
- High/low output setting
- USB charging port
- Automatic shutoff

HALO SERIES BOOT DRYER
ITEM #: SC59358

- Overall size: 10" W x 24.5" H x 9.75" D
- Adjustable Air Pipes
- Optional Heat Cycle Dries While Eliminating Odors
- Power source: 110V

SCENT FREE MAT BAG
ITEM #: SC00115

- Scent controlled storage
- Use as a dressing mat in the field to stay dry
- Durable construction
- Water-resistant

Ozone is scientifically proven to reduce and eliminate odors from sweat, soaps, food, perfume, smoke, and other unwanted scents.

RHINO

High Quality Hunting Blinds & Chairs for All Seasons

REAL TREE EDGE

- High-quality blinds with innovative design, premium camo and feature-packed options for every budget.
- Chairs that are designed for every hunt. From a utility stool to a comfortable, multipurpose, lightweight chair for those all-day sits.

NEW

TURKEY CHAIR

ITEM #: RC-1064 *NEW*

The turkey chair is a low profile, lightweight, and durable chair. With a weight limit of 250 pounds, textilene mesh, and a steel frame, the Rhino turkey chair has durability and comfort mixed into one. The Rhino Turkey chair comes with 600D fabric in Mossy Oak Bottomland. The new turkey chair offers convenience, functionality, and comfort for those long sits in the woods.

NEW

SMALL CUT-N-RUN

ITEM #: RB1054 *NEW*

The Small Cut-N-Run Blind is a single hub design that is perfect for quick sets and is incredibly easy to carry. Its lightweight design makes it the perfect addition to your turkey vest or hunting pack, ensuring you can take it with you wherever your hunt leads. Despite its portability, this blind doesn't compromise on durability or functionality. Constructed with tough 150D fabric and leaf cutouts on both side panels to create a natural, camouflaged appearance. Offered in Mossy Oak Obsession Camo.

NEW

HEATED SEAT CUSHION

Heated Chair Pad ITEM #: RC-1085 *NEW*

The Rhino heated cushion comes equipped with 600D fabric in Mossy Oak Bottomland camo and a 20,000mAh power bank. A thick padded foam and rubber cushion brings much comfort for turkey chairs, blinds and treestands. It has high, medium, and low settings to adjust temps right for the conditions. The PVC coating brings durability, water resistance and support to the all-new Rhino Heated Cushion.

NEW

HEATED CHAIR PAD

Heated Chair Pad ITEM #: RC-1078 *NEW*

The Rhino Heated pad comes equipped with 600D fabric in Mossy Oak Bottomland pattern. The pad offers high, medium, low settings powered by an external power bank. It has a durable elastic band that makes it universal with most standard-sized hunting chairs. With a 20,000 mAh rechargeable power bank that can run for up to 6 hours on high keeping you warm in cold conditions.

BLINDS

ACCESSORY

NEW

RHINO AUGER STAKE

The Rhino Auger Stake is a heavy-duty stake that twists easily into the ground and locks.

ITEM #: RASK-4
(4) RHINO AUGER STAKES
ITEM #: RB0880 *NEW*
(25) RHINO INDIVIDUAL AUGER STAKES

Rhino Auger Stake - PDQ Display
Packed in a convenient 25-count PDQ display, Rhino Auger Stakes are easy to merchandise at the register, in the blind aisle, or with accessories—perfect for grab-and-go add-on sales all season long.

NEW

R85
Real Tree Edge ITEM #: R85 *NEW*

The all new R85 Triangle Blind offers a new look to the Rhino lineup with a small footprint but still great concealment. The R85 has one large hook and loop window with full panel entry allowing for easy accessibility. With an easy setup and take down, the R85 folds up small and is lightweight, making it very portable and easy to pack. The R85 replaces the need for spring steel blinds.

- 3 Sided blind
- 49"x49"x49"
- 65" Roof Height
- 150D fabric
- 1 Large Hook & Loop Window
- Back panel opens for easy entry

NEW

R90
Real Tree Edge ITEM #: R90 *NEW*

Measuring 49" x 49", the R90 offers just the right amount of space for a solo hunter or small gear while remaining low-profile enough to blend seamlessly into its surroundings. This blind features a large mesh window and two smaller side windows, providing optimal visibility and a full range of sightlines without compromising your cover. The windows are equipped with hook-and-loop closures that silently open and close, ensuring stealthy movement when it's time to take the perfect shot.

- 49"x49"x65"
- 1 Large mesh hook & loop window
- 2 Small mesh hook & loop windows
- Zipper door entry

NEW

R95
Real Tree Edge ITEM #: R95 *NEW*

R95- Like the R90, the R95 is equipped with a large central mesh window and two smaller side windows, offering excellent visibility while ensuring you stay concealed. The mesh design allows for easy observation of your surroundings while providing a clear line of sight for that perfect shot. The windows are designed with silent hook-and-loop closures, enabling you to adjust your view without making a sound, ensuring that you remain undetected when it matters most.

- 58"x58"x66"
- 1 large mesh hook & loop window
- 2 small mesh hook & loop window
- Zipper door entry

CHAIRS

A. HUNTING SWIVEL STOOL
ITEM #: RC-829

The Rhino Outdoors RC-829 Hunting Stool is easy to transport and excellent for those small areas. It has a powder-coated steel frame with a 600D Black Polyester seat. Adjustable legs allow you to use this stool on uneven ground, and the tripod frame gives you a sturdy base. Easily turn 360˚ with the comfortable swivel seat.

- Comfortable 600D polyester seat
- Powder-coated steel frame
- Swivel base for 360° viewing
- Adjustable legs for various seat heights (14"-17")
- Compact and lightweight

B. FOLDABLE HUNTING CHAIR W/POUCH
ITEM #: RC-371

The Rhino Outdoors RC-371 Hunting Chair is a high-back chair that folds flat with an attached shoulder strap for easy transport. This chair works well outside regardless of conditions and provides you a comfortable place to sit for extended time periods. It also comes equipped with an under-the-seat storage pouch that can hold your accessories.

- Folds flat with attached shoulder strap for easy transport
- Powder-coated steel frame
- Large zippered gear pouch under seat
- Comfortable 600D polyester seat and backrest 16 inch seat height

C. PADDED SWIVEL CHAIR
ITEM #: RC-2281

The Rhino Outdoors RC-2281 Padded Hunting Chair features a 360° swivel so you can easily see your surroundings. This chair comes equipped with a thick padded seat and provides you with a comfortable place to sit for extended time periods. The 600D black polyester seat and backrest cover is durable and built to last.

- 360° silent swivel
- Folds flat with a carry strap for easy transport
- 17 inch seat height Powder-coated steel frame

D. SWIVEL HUNTING CHAIR
ITEM #: RC-40001

The Rhino Outdoors RC-4001 Premium Hunting Chair features a 360° swivel so you can easily see your surroundings. With a durable textilene material, this chair is built for longevity and comfort. The RC-4001 works well outside regardless of conditions and inside your ground blind, providing you a comfortable place to sit for extended periods of time. The attached shoulder strap makes transporting this chair a breeze.

- Premium textilene for durability and comfort
- 18 inch seat height
- 360° silent swivel
- Folding legs and carry strap for easy transport
- Powder-coated steel frame
- Great for hunting, camping, sporting events

E. SWIVEL HUNTING CHAIR W/ ADJUSTABLE LEGS
ITEM #: RC-009

The Rhino Outdoors RC-009 Premium Hunting Chair features a 360° swivel so you can easily see your surroundings. It has four legs and large flat feet that adjust separately to give you better stability on uneven terrain and prevents sinking. With the durable textilene material, this chair combines durability and comfort. The attached shoulder strap makes transporting this chair a breeze. Perfect for hunting, camping or enjoying your favorite sporting event.

- Adjustable legs and feet
- 360° silent swivel
- Powder-coated steel frame
- Durable textilene material
- 19.5" to 22.5" adjustable seat height

ITEM #: RTL-052

- 19.5" x 15" Seat Platform
- Box Weight 41.5 lbs.
- Seat Height 15 ft.

16' SINGLE LADDER STAND

ITEM #: RTL-102

- 17-1/4" x 12" Foot Platform
- 19-1/2" x 15" Padded Seat
- Seat Height: 21-1/2"
- Padded Arm Rests
- Padded Flip-Up Shooting Rail
- Flip-Up Foot Rest
- Fall Arrest System Included
- Box Weight: 48 lbs.

16' DELUXE SINGLE LADDER STAND

ITEM #: RTL-202

- 17-1/2"x 24" Full Foot Platform
- 19" x 13" Comfort Mesh Flip-Up Seat
- Comfort Mesh Backrest
- Seat Height: 21"
- Padded Arm Rests
- Padded Flip-Up Shooting Rail
- Height is measured to the arm rest
- Box Weight: 54 lbs.

1.5 MAN LADDER STANDS

- Comfort Mesh Back Rest
- Seat Height: 21"
- Flip-Up Foot Rest
- Padded Arm Rests
- Padded Flip-Up Shooting Rail
- Height is measured to the arm rest
- Rigid Rectangle Ladder
- Secures With (2) Ratchet Straps
- Pinned Ladder Sections
- Fall Arrest System Included
- Adjustable Ladder Support Bar Included
- Meets ASTM Standards
- Weight Capacity 300 lbs.

17.5' 1.5 MAN LADDER STAND

22' 1.5 MAN LADDER STAND

17.5' 1.5 MAN LADDER STAND

ITEM #: RTL-302

- 29" x 23-1/2" Foot Platform
- 25" x 14" Comfort Mesh Flip-Up Seat
- Box Weight: 70.5 lbs.

22' 1.5 MAN LADDER STAND

ITEM #: RTL-402

- 29" x 23-1/2" Foot Platform
- 23-1/2" x 14" Comfort Mesh Flip-Up Seat
- Box Weight: 82.5 lbs.

17' 2 MAN LADDER STAND

17' XL 2 MAN LADDER STAND

2 MAN LADDER STANDS

- Pinned/Sleeved Ladder Sections
- Adjustable Ladder Support Bar
- (2) Fall Arrest Systems Included
- Meets ASTM Standards
- Weight Capacity: 1 Person 300 lbs., 2 Persons 500 lbs.

17' 2 MAN LADDER STAND

ITEM #: RTL-1002

- 40" x 13" Foot Platform
- 40" x 12-1/4" Seat Platform
- Seat Height: 16"
- Padded Back-Rest Cushion
- Padded Flip-Up Shooting Rail
- Height is measured to the seat
- Attaches with (2) Looped Ratchet Straps
- Box Weight: 66.5 lbs.

17' XL 2 MAN LADDER STAND

ITEM #: RTL-3002

- Curved 53" x 13" Foot Platform
- Curved 37" x 16" Padded Seat
- Seat Height: 18"
- Padded Arm Rests
- Height is measured to the arm rest
- Padded Shooting Rail
- Heavy Duty Rectangular Ladder Tubing
- Secured With: (4) Ratchet Straps
- Box Weight: 95 lbs.

17.5' 2 MAN DELUXE LADDER STAND

ITEM #: RTL-4002

- 44" x 29" Full Access Foot Platform
- Seat Height: 19.5"
- Individual Flip-Up Seats
- Comfort Mesh Back Rest
- Padded Arm Rests
- Height is measured to the arm rest
- Padded Shooting Rail
- Heavy Duty Rectangular Ladder Tubing
- Secured With: (4) Ratchet Straps
- Box Weight: 99 lbs.

17.5' 2 MAN DELUXE LADDER STAND

PLATFORM TOWERS

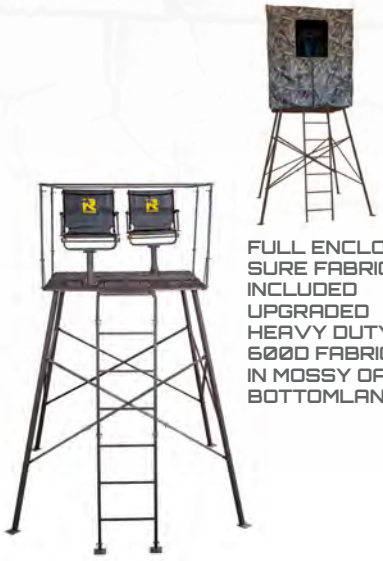

- Non-skid, Full Steel Mesh Platform
- Meets ASTM standards

7FT PLATFORM TOWER

ITEM #: RTT-502

- Ladder Entry and Extra Wide Base
- Large 60" x 60" Foot Platform
- 7' Platform Height
- Improved Hand Rail
- Landing Platform Entry
- Improved Cross Supports
- Accommodates Most Ground Blinds
- Multiple ladder attachment points to accommodate different blind door styles
- Box Weight: 105.5 lbs.
- Total Weight Capacity: 500 lbs.

FULL ENCLOSURE FABRIC INCLUDED UPGRADED HEAVY DUTY 600D FABRIC IN MOSSY OAK BOTTOMLAND

10' QUADPOD

ITEM #: RTT-512

- Two Man Quad Pod
- Full Enclosure Fabric Included
- 57-1/2" x 57-1/2" Foot Platform
- (2) 20" x 14" Pre-assembled Comfort Mesh Swivel Seats
- (2) Swivel Seats With (4) Mounting Locations
- Seat Height: 20"
- Landing Platform Entry
- Improved Cross Supports
- Adjustable Roof Height and Extra Wide Base
- 10' Measured To The Shooting Rail
- Pinned Ladder Sections
- Box Weight: 165.5 lbs.
- Total Weight Capacity: 500 lbs.

15.5' TRIPOD COMMAND TOWER

ITEM #: RTT-302

- Rectangle Ladder Entry and Extra Wide Base
- Large 37-1/2" x 37-1/2" Platform
- 20" x 14" Comfort Mesh Swivel Seat
- Seat Height: 20"
- 16' Measured To Shooting Rail
- Rigid Rectangular Ladder Entry
- Padded Arm Rests
- Padded Shooting Rail
- Box Weight: 131 lbs.
- Weight Capacity: 300 lbs.

31" TIMBER STEPS

ITEM #: RTSL-402

- 4 Sections, 31" Each
- Fold Out Tread Steps For Easy Climbing
- Secured With (1) Strap Per Section
- Meets ASTM Standards
- Weight Capacity 300 lbs. per section
- Box Weight 21.5 lbs.

31" CLIMBING SECTION

ITEM #: RTCS-100

- Includes a 31" Climbing Section with 3 Steps
- Secured with (1) Hook Strap Per Section For Added Safety
- Meets ASTM standards
- Weight Capacity: 300 lbs. per section

24' HOT FOOT CLIMBING STICK

ITEM #: RTSL-24U

- 24' Double Step Climbing Stick
- Angled Steps For Easy Climbing
- Extended Tree Braces For Safe Climbing
- Six 4' Stick Sections
- Secured With (6) Looped Button Straps
- Meets ASTM standards
- Weight Capacity: 300 lbs.
- Box Weight: 24.5 lbs.

20' MINI LADDER

ITEM #: RTML-202

- 20ft Mini Ladder Climbing Stick
- 6" Extended Tree Braces for Safe Climbing
- 8" Ladder Rung Spacing
- (5) Bolted Ladder Sections
- Secured With (5) Looped Button Straps
- Meets ASTM standards
- Weight Capacity: 300 lbs.
- Box Weight: 33.5 lbs.

Capsule Feeders
Wildlife Feeding System

Keeping your feet on the ground with the unique stand-and-fill design. A solar powered feeder that is durable, varmint resistant, and built to last.

THE FUTURE OF GAME FEEDERS

Capsule Feeders are an innovative approach to game feeding, with an emphasis on safety, durability and efficiency.

CAPSULE OUTPOST 20LB GAME FEEDER

ITEM #: OUT-100

The Capsule Outpost 20LB Game Feeder is your go-to solution for attracting and feeding game with ease. 20 lb Capacity: Feeds up to 2-3 weeks. Customizable Feeding: Set feed times (up to 2x/day) and feed rate (1-30 seconds). Portable & Lightweight: Weighs only 25 lbs when full, with a convenient carrying bag. Battery Powered: Runs on 4 AA batteries (not included)

CAPSULE FEEDER 100LB

ITEM #: CAP-100

The Capsule Feeder 100LB is designed for hunters seeking a reliable, easy-to-manage feeding solution. Its compact size allows for effortless single-person setup and maintenance. The built-in base with staking holes ensures stability, while the included timer, battery, and solar panel provide consistent, automated feedings. Backed by a limited lifetime warranty, this feeder is a durable and efficient choice for wildlife enthusiasts.

CAPSULE FEEDER 200LB

ITEM #: CAP-200

The Capsule Feeder 200LB is the ultimate solution for hunters who need high-capacity, low-maintenance feeding. Built for rugged conditions, its ground-level design eliminates the need for ladders or heavy lifting, while the patented Tireless Base provides added stability without staking. The 200 lb capacity ensures fewer refill trips, and the included timer, battery, and solar panel deliver reliable, automated feedings day after day. With a tough, varmint-resistant construction and a limited lifetime warranty, this feeder is built to perform season after season.

CAPSULE FEEDER 250LB

ITEM #: CAP-250

The Capsule Feeder 250LB offers a perfect balance between capacity and convenience. Its lightweight, durable construction is animal-resistant, ensuring feed is protected from pests. The original sit-and-fill design allows for safe and easy refilling without ladders. With managed feedings and an exclusive design, this feeder is ideal for various wildlife feeding situations. (Requires semi truck tire-not included)

CAPSULE FEEDER 400LB

ITEM #: CAP-400

The Capsule Feeder 400LB stands at 4 feet tall and features a robust, roto-molded body with four metal legs and sink-proof feet. This design ensures stability and durability in various terrains. It's animal-resistant and supports managed feedings, making it suitable for diverse wildlife feeding needs. The stand-and-fill approach eliminates the need for ladders, enhancing safety and convenience.

DELUXE CAPSULE FEEDER 500LB

ITEM #: CAP-500

The Capsule Feeder 500LB Deluxe is built for serious land managers and hunters who demand maximum capacity with minimal hassle. Its elevated 500 lbs feed volume drastically reduces refill frequency, making it ideal for high-traffic game areas. Designed for ground-level access, it allows safe, easy filling—no ladders required. The deluxe package includes a programmable timer, 12V battery, solar panel, and a durable varmint-resistant design for consistent, long-term performance. Backed by a limited lifetime warranty, this feeder is the dependable, high-volume solution for year-round feeding.

CAPSULE FEEDER 800LB

ITEM #: CAP-800

The Capsule Feeder 800LB is engineered for those requiring substantial feed storage. Its patented ground-sitting design eliminates the dangers associated with traditional elevated feeders. Constructed from virtually indestructible HDPE, it's lightweight yet durable. The low center of gravity prevents tipping, and the sit-and-fill design allows for safe, ladder-free refilling. Equipped with a digital timer, battery, and solar panel, this feeder ensures consistent, automated feedings.

DELUX CAPSULE FEEDER 1000LB

ITEM #: CAP-1000

The Capsule Feeder 1000LB Deluxe is the ultimate high-capacity feeding system for large properties and serious wildlife management. With an impressive 1000 lbs feed capacity, this feeder dramatically reduces refill frequency while maintaining reliable, year-round performance. Its ground-level design ensures safe, ladder-free filling, and the deluxe setup includes a programmable timer, 12V battery, and solar panel for fully automated operation. Built tough with varmint-resistant materials and backed by a limited lifetime warranty, it's the most efficient and durable solution for large-scale game feeding.

BAD ASS AUGER
ITEM #: BA-AUG-100

The BadAss™ Auger Tripod Feeder Filler is engineered to take the heavy lifting out of filling your tripod feeder. Designed for durability and ease of use, this powerful, gas-powered auger system mounts directly to your ATV or truck hitch and quickly transfers feed from the ground to your feeder—no climbing, no buckets, no hassle. The flexible hose and hand-held control allow precise filling, while the rugged construction stands up to demanding conditions. Whether managing multiple feeders or just saving your back, this filler is a game-changer for efficient, high-volume feeding.

55 GALLON BARREL FEEDER
ITEM #: CAP-BAR

The 55-Gallon DIY Barrel Feeder is perfect for hunters and land managers who want a customizable, budget-friendly feeding solution. Designed to hold up to 400 pounds of feed, this feeder comes with all essential hardware—just add your own 55-gallon barrel to complete the setup. The included timer, spinner plate, and varmint guard offer dependable, controlled feed distribution, while the steel leg brackets provide a stable foundation. Easy to assemble and built for long-lasting use, it's a practical choice for those who prefer a hands-on approach to game feeding. (Barrel not included)

CAPSULE FEEDER 800LBS

Bringing the toughest and most dependable tools for land management.

TOUGHEST SAWS ON EARTH

Wicked Tree Gear™ was created to fix what was broken. To build a product line of tree trimming gear that was durable, but precise. Plenty of people rely on our products to get the job done, arborists, tree farmers, serious hunters, and home owners alike. If this sounds like you, then you've found your saw company!

A. WICKED TOUGH HAND SAW

ITEM #: WTG-001

- Rugged cast aluminum handle construction
- Wicked high carbon steel blade – taper ground, heavy gauge resists bending and breaking
- Comfortable non-slip rubber over-mold grip design is ergonomically designed to fit your hand
- Fail Safe Blade Lock Design™ with hardened steel lock-pin and hardware – NO PLASTIC to break
- 1-Year Warranty, excludes blade
- Closed Length: 8.25in. – Blade Length: 7.0 in.
- Weight: 0.50 lbs.
- Patent No. D664,823

B. WICKED TOUGH UTILITY BONE SAW

ITEM #: WTG-007

- Rugged cast aluminum handle construction
- Wicked high carbon steel blade – taper ground, heavy gauge resists bending and breaking
- Comfortable non-slip rubber over-mold grip design is ergonomically designed to fit your hand
- Fail Safe Blade Lock Design™ with hardened steel lock-pin and hardware – NO PLASTIC to break
- 1-Year Warranty, excludes blade
- Closed Length: 8.25in. – Blade Length: 7.0 in.
- Weight: 0.50 lbs.
- High visibility yellow grip
- Patent No. D664,823

C. WICKED BEAST

ITEM #: WTG-021

- Fixed Hand Saw with 11" Arborist Style Blade
- Wicked high carbon steel blade – taper ground, heavy gauge resists bending and breaking
- Weight: 2.00 lbs.
- High visibility yellow grip

D. WICKED HAND PRUNER

ITEM #: WTG-017

- Wicked Tough Hand Pruner features an aluminum frame and ergonomic yellow rubber grip
- Cuts branches up to 1 inch in diameter and weighs only 9 ounces

E. WICKED MACHETE

ITEM #: WTG-028

- Ergonomic grip & Forged carbon steel
- Includes sheath with belt loop

F. WICKED TOUGH 15FT POLE SAW

ITEM #: WTG-012

- 15 foot model is 42" long when disconnected and weighs 4.8 lbs
- Rugged cast aluminum saw head – strong and light
- Wicked curved style arborist blade is made from the finest high carbon steel
- Rugged "Wicked Ultra-Lock" connection allows for quick and easy removal of pole saw head, allowing it to be used as hand saw
- Cuts smooth, and fast, through all types of trees and wood
- Removable pole saw head allows super-compact packing carrying size and attachment of pole to different tools
- Fail Safe Blade Lock Design ™ with hardened steel lock-pin and hardware
- Adjustment screw eliminates blade slop for maximum cutting efficiency
- Strong and durable telescoping pole assembly
- Comfortable custom rubber grip
- Patent Numbers D723,890, D723,891, and U.S. Patent App. No. 16/155,689

G. WICKED ULTRA LIGHT POLE SAW

10ft Pole Saw | ITEM #: WTG-014
14ft Pole Saw | ITEM #: WTG-015

- 10 foot version is 41" long when closed and weighs 2.5 lbs
- 14 foot version is 46" long when closed and weighs 3.5 lbs
- Blade length: 11 inches
- Rugged "Wicked Ultra-Lock" connection allows for quick and easy removal of pole saw head, allowing it to be used as hand saw
- Curved arborist's style premium high carbon steel blade cuts smooth and fast through all types of trees and wood.
- Heavy duty nylon plastic scabbard with lanyard and innovative "blade punch" mechanism to keep scabbard in place during transport
- Strong and durable aluminum pole assembly with telescoping design
- Comfortable rubber grip on both the pole and saw handle
- U.S. Patent No. 10,091,948

Rage®

Rage Broadhead

Provide field point accuracy, with huge entry holes, gaping wound channels, and better blood trails.

WE HARVEST MORE GAME THAN ANY OTHER BROADHEAD... PERIOD.

Rage Broadheads are Leading the Evolution in Lethal Technology with award-winning designs and the number-one-selling expandable broadhead of all time. They feature SlipCam™ technology and revolutionary rear-deploying blades that fly like field points, yet are fully expanded at the moment of impact without significant loss of kinetic energy.

TYRANT 3 BLADE NEW

The Rage Tyrant 3 Blade redefines mechanical broadhead performance with a mission to deliver devastating entry wounds, flawless flight, and unrelenting impact power. Every component is designed to amplify what Rage is known for—catastrophic wound channels, explosive energy transfer, and the confidence to take any shot that presents itself.

At impact, the Tyrant's offset 3-blade configuration goes to work—creating a helical wound channel that spins as it cuts, ripping through hide, muscle, and bone to produce the largest 3-blade entry wound in Rage history. The result is extreme hemorrhage, shorter blood trails, and faster recoveries—proof of Rage's relentless pursuit of terminal performance.

Constructed with an aluminum ferrule and a titanium Trocar tip, the Tyrant offers both precision flight and brute-force durability. The massive 2.0+ inches with deploys instantly on contact, releasing three .035" thick 420 stainless steel blades honed to surgical sharpness. The proprietary compression-fit collar eliminates traditional O-rings and springs, guaranteeing quiet flight and flawless blade deployment every time.

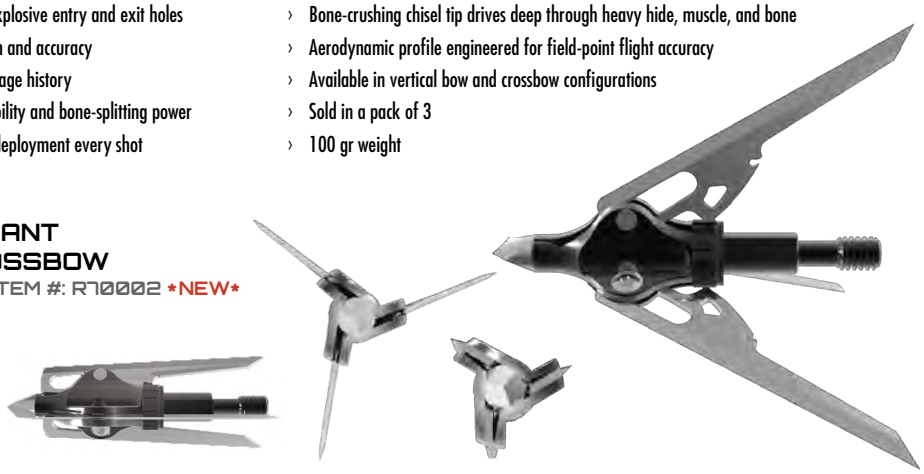

The Tyrant 3 Blade is more than a broadhead—it's an evolution of mechanical design. Its aerodynamic shape maintains field-point accuracy, while the helical offset geometry increases rotational energy for deeper penetration and more destructive internal damage. From fast crossbows to vertical hunting bows, the Tyrant is built to fly true, hit hard, and destroy everything in its path.

This is controlled chaos—engineered to devastate.

- Offset blades create a devastating helical wound channel for explosive entry and exit holes
- Aluminum ferrule with titanium impact tip for ultimate strength and accuracy
- 2.0+" cutting diameter — the largest 3-blade mechanical in Rage history
- .035" thick 420 stainless steel blades deliver razor-sharp durability and bone-splitting power
- Two-use compression-fit collar ensures clean, consistent blade deployment every shot
- Bone-crushing chisel tip drives deep through heavy hide, muscle, and bone
- Aerodynamic profile engineered for field-point flight accuracy
- Available in vertical bow and crossbow configurations
- Sold in a pack of 3
- 100 gr weight

TYRANT VERTICAL BOW
· ITEM #: R70001 *NEW*

TYRANT CROSSBOW
· ITEM #: R70002 *NEW*

TRYPAN EXTREME NEW

The Trypan Extreme is a purpose-built evolution of the original Trypan — a two-blade mechanical scaled up for catastrophic cutting. Designed to deliver the biggest entry wounds possible from a two-blade platform, the Trypan Extreme rips enormous, clean openings without sacrificing flight or deployment confidence. Its hypodermic tip slices a precise entry channel so the blades can deploy instantly and lock into place, producing a wide, consistent wound cavity that overwhelms tissue and shortens recoveries.

At the heart of the head is a precision titanium ferrule that maintains structural integrity under extreme impact while keeping total weight optimized at 100 grains. The thick .039" 420 stainless blades razor edges and engineered to resist bending or folding on heavy hits. Unique ramping surfaces on the blade backs guide each blade into a mechanically locked position with limited rotation, creating a solid, immovable cutting geometry that stands up to bone and heavy tissue—transfer energy where it counts.

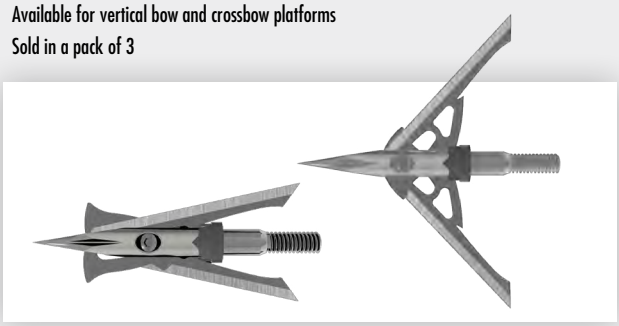

Retention and deployment were rethought from the ground up. The collar is similar to previous trypan and single use, eliminates noisy, failure-prone retention methods and ensures the blades remain snug and silent in flight, then deploy cleanly and reliably on impact. Combined with an aerodynamic profile tuned to fly like a field point, the Trypan Extreme gives hunters a lethal mix of point-and-shoot accuracy and devastating terminal results.

This is not just a bigger cut—it's a more decisive one: engineered to create massive entry wounds, maintain blade integrity on the hardest impacts, and convert kinetic energy into immediate, observable terminal performance.

- Precision Titanium ferrule — 100 gr total weight, engineered for strength-to-weight balance
- 2.5" cutting diameter — the largest 2-blade opening in Rage history
- .039" thick 420 stainless blades for surgical edges and unrivaled durability
- Ramped blade backs guide blades into locked position with limited rotation for maximum rigidity
- Hypodermic tip for clean, low-resistance initial penetration
- Aerodynamically tuned for field-point flight accuracy
- Available for vertical bow and crossbow platforms
- Sold in a pack of 3

Rage®

The Next Evolution in LETHAL TECHNOLOGY

MUZZY BROADHEADS

Never fail broadheads that are designed to bust through bone, are durable, dependable, sharp and accurate.

BAD TO THE BONE

Founded in 1984 Muzzy gained popularity due to their sharpness, ease-of-use and effective designs with Bad to the Bone innovation. Today, no matter if it's a fixed-blade or hybrid – Muzzy remains a product leader and the number one selling brand in the fixed-blade broadhead category. Muzzy's unique fixed-blade locking system secures the blades within the broadhead ferrule for ultimate strength, while making it nearly impossible to lose any of their razor-sharp blades. The tried and true performance of Muzzy's hardened steel Trocar® tip destroys anything in its path, including bone and has proven to be a capstone to product success in the field. Both vertical and crossbow users benefit from Muzzy's over 40 years of product innovation.

High-Quality Bow Sights for Enhanced Archery Precision

Sights designed to help archers shoot more accurately at longer distances guaranteed.

CENTER THE DOT FOR THE PERFECT SHOT

Consistency is the key to accuracy, by providing immediate feedback to the shooter while at full draw the IQ Retina Lock technology will extend your distance by 20 yards! This is done by ensuring your grip is the same every shot and your anchor points are consistent. This will give you tighter groups and allow you to be more effective at longer range!

Patented RetinaLock™ technology helps users identify and eliminate bow torque or inconsistent anchor points that lead to lack of accuracy and confidence beyond 40 yards. Thanks to this ground-breaking technology, the IQ Bowsight system quickly became regarded as the world's most accurate archery sighting system.

IQ® PRO HUNTER RH

· IQ® Pro Hunter RH ITEM #: IQ00359

Designed with versatility in mind, the IQ® Pro Hunter features two slimmer fixed pins for shots at shorter distances and a third slimmer "floater" pin that can be dialed to specific yardages for precision aiming when shots call for a stretch of the tape. IQ's patented and exclusive Retina Lock™ alignment technology and rapid-drive pin adjustment system mark the sights stand out features, while a single pin rapid adjustment system runs the full range of the floating pin with just a few simple turns of the zero-stop adjustment knob.

IQ® MICRO

· IQ® Micro 5-pin, RH ITEM #: IQ00360
· IQ® Micro 5-pin, LH ITEM #: IQ00361

The IQ® Micro Bow sights now feature an improved pin design. The slimmer pin design is 50% thinner than our previous blade, allowing the archer a cleaner sight to the target. The IQ® Micro bow sight offers Retina Lock® Technology which provides instant feedback that will identify even the slightest torque or anchor point change. Micro adjustment knobs allow quick and simple adjustment of the elevation and windage to precise positions. Dual position mounting gives you the ability to mount your sight to your particular shooting style. Tool-free locking knobs allow you to lock your windage and elevation positions in place without the use of any tools.

IQ® SIGHT LIGHT

· IQ® Sight light ITEM #: S15000

- Fits IQ®, Rocky Mountain, and most Sure-Loc® sights
- Adjustable Rheostat control
- Purple low glare light
- Works on RH and LH sights
- Batteries included - (3) Energizer 392

Stop arrows with friction. Not force.

Durable Block Archery Targets provide Easy Arrow Removal for Thousands of Shots

EXTREME STOPPING POWER

Layered archery targets that offer easy arrow removal, are long lasting, and work with field points, fixed blade and expandable broadheads.

Award-Winning BLOCK® Targets lead the market with a unique combination of durability, ease-of-use and overall value while becoming the hallmark moniker of all similarly-styled archery target products, commonly referred to as "blocks". Dependable and long lasting, BLOCK® Targets changed the game and are still the ultimate combination of durability and easy arrow removal.

G

A. BLOCK® 6X6

- 16" Block® 6X6: 16"x16"x12" ITEM #: B56750 *NEW*
- 18" Block® 6x6: 18"x16"x18" ITEM #: B56700
  - › PolyFusion™ layered technology
  - › Easy arrow removal
  - › Stops all field points and broadheads
  - › Six-sided shooting
  - › Multiple aiming points on all sides
  - › Designed to stop arrows from vertical bows
  - › Easy carry handles

B. BLOCK® INFINITY

- Block® Infinity 20" ITEM #: B56405
- Block® Infinity 22" ITEM #: B56505
  - › Open Layered PolyFusion™ technology
  - › Easy arrow removal
  - › Stops all field points and broadheads
  - › Six-sided shooting
  - › Multiple offset aiming points on all sides
  - › Provides shooters specific practice shots
  - › Designed to stop arrows from vertical bows
  - › Easy carry handles

C. BLOCK® INFINITY CROSSBOW

- Block® Infinity Crossbow 16" ITEM #: B56800
- Block® Infinity Crossbow 20" ITEM #: B56900
  - › Open Layered PolyFusion™ technology
  - › Easy arrow removal
  - › Stops all field points and broadheads
  - › Six-sided shooting
  - › Multiple offset aiming points on all sides
  - › Designed to stop Standard Diameter Bolts from most crossbows
  - › Can be used for vertical bows
  - › Easy carry handles

D. BLOCK® CLASSIC TARGETS

- Classic 18: 18"x13.5"x18" ITEM #: B51100
- Classic 22: 22"x13.5"x22" ITEM #: B51300

BLOCK®Classic archery target - It is based on the original, legendary BLOCK® target and is simply the best 2-sided, layered foam archery target on the market. Features the legendary open-layered technology which allows easy arrow removal and longer target life no matter what kind of arrow tip.

E. BLOCK® YOUTH GENZ™

- 16"x8"x18" ITEM #: B51000

The BLOCK® GenZ™ was designed specifically with the young archer in mind. It is intended for bows with 40 pounds of draw weight or less. The GenZ™ features the legendary open-layered technology which allows easy arrow removal and longer target life no matter what kind of arrow tip the GenZ™ shooter is using. High-contrast white-on-black aiming points offer great visibility, so your child can move up from the larger aiming points to the smaller spots for a greater degree of difficulty and superior accuracy.

F. BLOCK® YOUTH BULLSEYE

- 34"x14"x34" NASP Official Target ITEM #: B50801
- Wheel Kit ITEM #: B90255
- Replacement Sleeve ITEM #: B90253

Made specifically for the National Archery in the Schools Program (NASP), the BLOCK® Bullseye Archery Target features an easy-on, easy-off 2-sided replaceable target sleeve. It has integrated and removable wheels for easy transport. Wheel kit is optional and must be ordered separately.

G. BLOCK RANGE TARGETS

- Range 48: 48"x18"x48" ITEM #: B50901
- Range 24: 24"x18"x48" ITEM #: B50902
- Range 28: 28"x18"x48" ITEM #: B50900

Because the BLOCK® Range archery targets stop arrows with friction, not force, it will last longer than other targets. Arrow removal is dramatically easier which is especially important with high speed bows. All BLOCK® Range Targets are designed to butt together with minimal seams between targets. On a shots-per-dollar basis, the long lasting BLOCK® Range Target is, by far, the best investment for pro shops. And, archers love them too, which means more happy customers!

BLACK HOLE

Black Hole Targets Versatile and Effective Archery Practice

Easy arrow removal for archers on a budget.

STOP ARROWS WITH FRICTION. NOT FORCE.

Proudly made in the U.S.A., Black Hole targets have an unprecedented reputation for performance at a great price. The patented open-layer design utilizes compressed open layered foam to slow arrows with friction, not force. Each face provides bright aiming points and 4-sided shooting that can withstand the impacts of field tips, broadheads and expandables. Black Hole targets are portable and durable making them an ideal choice for the back of the truck or a backyard range. With two sizes available for compound and recurve shooters and one specifically designed for crossbow users, Black Holes Targets are a must-have for any bowhunter.

BLACK HOLE CROSSBOW

- 16 Inch (16"x14"x16") ITEM #: B61212

Durable 3D Archery Targets for Realistic Practice and Easy Arrow Removal

PRACTICE FOR THE SHOT OF A LIFETIME!

3D targets that offer easy arrow removal, are long lasting, and work with field points, fixed blade and expandable broadheads. Helping users practice for real life shot placement for the shot of a lifetime! GlenDel® Targets offer a 4 sided vital core that features over-molded open layered foam. This allows for easy arrow removal while extending the life of the target. When one side gets shot out, simply rotate the core for a fresh set of vitals. Featuring 2 standard vital sides, one treestand vital angle and one quartering away angle. This technology combined with life like body sizes and anatomical body features ensure hunters will be ready when the moment of truth presents itself.

MUZZY®
BOWFISHING

Muzzy Bowfishing High-Quality Gear and Accessories

Bowfishing Products that work how they are supposed to, when they are supposed to, and help put more fish in the boat.

IMPALE A SCALE

For nearly four decades Muzzy® Bowfishing has been the category leader in the development of durable and user-friendly bowfishing products. As the pioneer in the bowfishing market, Muzzy Bowfishing separates themselves by offering industry's most innovative and diverse product line to with numerous options of bows, reels, arrows, line, kits, and other accessories – all specifically designed and purpose-built for the rigors of time spent on the water. Muzzy also continues to generate opportunities to expand the sport of bowfishing not just through product development but also through support and hosting of the nation's largest and most Bad to the Bone bowfishing tournament(s).

KIT INCLUDES:

- Bow
- Aluminum Shelf Rest
- Single Arrow Quiver
- LVR Reel Seat
- Tournament Reel
- Shoot Through Rod

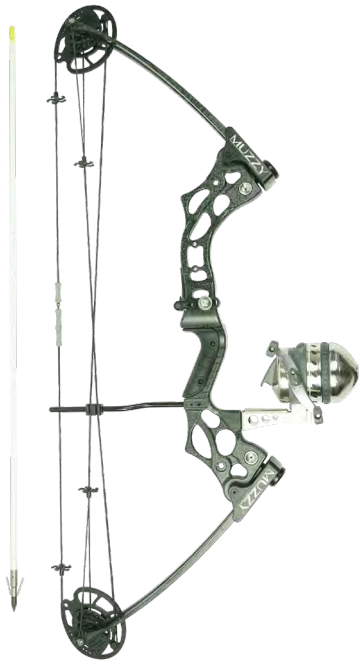

MUZZY® DEVIANT HYBRID LEVER-CAM BOWFISHING BOW/KIT

- Muzzy Deviant HLC Bow RH | ITEM #: 9000
- Muzzy Deviant HLC Bow RH Pro Kit | ITEM #: 9004

Designed with functionality and performance in mind, the Muzzy® Deviant boasts durable construction featuring a dipped Magnesium riser, ensuring both lightweight handling and striking appearance. With its smooth contours and optimized geometry, the Muzzy® Deviant offers a fit and feel that's comfortable in hand and performance-driven. Coming in at only 3.8 pounds, 27.5" axle to axle, 38.7" tip to tip, 7.1" brace height, the Muzzy® Deviant is in a class of its own. Its unique design brings together lightweight materials, hard-hitting performance, and simplistic functionality. The ergonomic grip also is designed to minimize torque and allow for a comfortable hold over long periods of fishing. This combination pairs to make this bow to point true and shoot incredibly accurately.

- Simple/Easy to adjust and tune with or without a bow press
- Integrated Pic Rail for seamless mounting of LVR Reel Seat (also compatible with standard threaded reel seats)
- Adjustable draw weight: 15 - 50 lbs
- Adjustable draw length: 19" - 29"
- Brace height: 7.1"
- Let-off: 60%

- Bow
- XD-Pro Push Button Reel or Muzzy Bottle Reel
- Fish Hook Rest
- Classic Arrow and Finger Savers Installed

MUZZY® BOWFISHING V2 BOW/KITS

- Bow - RH | ITEM #: 7920
- Bow - LH | ITEM #: 7920-L
- Spinning Kit - RH | ITEM #: 7925
- Spinning Kit - LH | ITEM #: 7925-L
- Bottle Kit - RH Only | ITEM #: 7926

Built for the demands of long days on the water with the versatility to accommodate shooters of all sizes and strength the new Muzzy® V2 bowfishing comes as close to one size fits all as a bowfishing bow can. A new and improved version of previous Muzzy® compound bowfishing bow models, the V2 features a redesigned aluminum riser with optimized geometry to enhance aiming, enhanced grip for greater comfort and less torque, and an improved cable guard and slide system for smother draw and extreme tunability. Extra-long limb bolts serve to improve field adjustability, letting users make in-the-field adjustments in draw length and draw weight without the use of a bowpress or other complicated tools. Available as a bow only in right- and left-handed models or in two right-handed kit configurations or a left-handed kit. Kit includes bow, XD-Pro push button reel or Muzzy® bottle reel, Fish Hook rest, classic arrow and finger savers installed.

- New designed aluminum riser
- Longer limb bolts so that the bow doesn't need a press to change the string
- Built in tip wrench
- Adjustable draw weight: 25 - 55 lbs.
- Adjustable draw length: 25" - 31.5"
- Axle-to-Axle: 33.8"
- Brace height: 7.8"
- Let-off: 70%

CLASSIC FIBERGLASS WHITE OR CHARTREUSE FISH ARROWS & SHAFTS

Classic White or Chartreuse Shafts or Arrows with either Gar or Carp Point plus predrilled cross hole for tying your line or installing a bottle slide.

- Fiberglass Arrow Length: 32"
- Diameter: 5/16"
- Cross-Hole Drilled
- Nock Installed
- Available with or without Bottle Slide

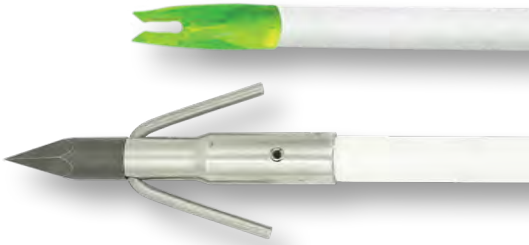

CHARTREUSE FISH ARROW WITH GAR POINT NOCK, BOTTLE SLIDE INSTALLED

GAR POINT

- White fish arrow with gar point (nock installed) ITEM #: 1020-G
- Chartreuse fish arrow with gar point (nock installed) ITEM #: 1420-G
- White fish arrow with gar point (nock, bottle slide installed) ITEM #: 1020-GBS
- Chartreuse fish arrow with gar point (nock, bottle slide installed) | ITEM #: 1420-GBS

CARP POINT

- White fish arrow with carp point (nock installed) ITEM #: 1020-C
- Chartreuse fish arrow with carp point (nock installed) ITEM #: 1420-C
- White fish arrow with carp point (nock, bottle slide installed) ITEM #: 1020-CBS
- Chartreuse fish arrow with carp point (nock, bottle slide installed) ITEM #: 1420-CBS

WHITE FISH ARROW WITH CARP POINT NOCK INSTALLED

WHITE & CHARTREUSE FIBERGLASS SHAFT 32"

Fiberglass Shaft 32" (bare w/cross-hole drilled & nock end tapered).

- White fiberglass shaft 32" (bare w/cross hole drilled & nock end tapered) ITEM #: 1200-W
- Chartreuse fiberglass shaft 32" (bare w/cross hole drilled & nock end tapered) ITEM #: 1200-CHART

CARBON COMPOSITE ARROW WITH POINT & LIGHTED NOCK

Made of a 80/20 carbon composite with reinforced fiberglass center for maximum durability, improved straightness, & better visibility. Made with either Carp or Gar Point plus predrilled cross hole for tying your line or installing a bottle slide.

- Carbon Composite Arrow Length: 32"
- Diameter: 5/16"
- Pre-Drilled Cross-Hole
- Includes Nockturnal Lighted Green Nock
- Available with or without Bottle Slide

- Lighted Carbon Arrow Gar Point Green Nockturnal ITEM #: 1320-G
- Lighted Carbon Arrow Carp Point Green Nockturnal ITEM #: 1320-C
- 3-Pack lit nocks one each red, green and orange ITEM #: 1047

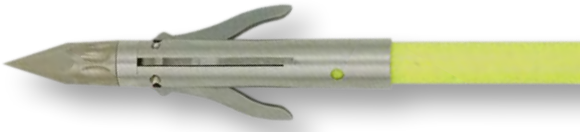

LIGHTED CARBON ARROW GAR POINT GREEN NOCKTURNAL

CHARTREUSE IRON FISH ARROWS

Classic Chartreuse Arrow with Choice of either 2 Blade or 3 Blade Iron Point. Full stainless steel ferrules and replaceable tip, 2 turns of the tip allow the barbs to release.

- Fiberglass Arrow Length: 32"
- Diameter: 5/16"
- Cross-Hole Drilled
- Nock Installed
- Available with or without Bottle Slide

IRON 3-BLADE FISH POINT CHARTREUSE ARROW

2-BLADE

- Iron 2-Blade Fish Point Chartreuse Arrow ITEM #: 1034
- Iron 2-Blade Chartreuse Arrow w/ Slide ITEM #: 1034-CBS

3-BLADE

- Iron 3-Blade Fish Point w/Chartreuse Arrow (nock installed) ITEM #: 1039
- Iron 3-Blade Chartreuse Arrow w/ Slide ITEM #: 1039-CBS

IRON 2-BLADE FISH POINT CHARTREUSE ARROW

IRON 2-BLADE CHARTREUSE ARROW W/ SLIDE

TOURNAMENT REEL
ITEM #: 1192

Heavy-duty spin cast style reel features Muzzy's renowned elongated hood

- Improved elongated hood
  - Larger opening for smoother line flow
  - Line lubrication slots
- Dual stainless steel pickup pins
- Gear ratio of 3.4:1
- Carbon fiber handle with larger foam grips
- One-way bearing anti-reverse system
- Increased durability and performance
- Pre-spooled with 150' of 150 lb tournament Line

XD REEL
ITEM #: 1097

Muzzy® XD Bowfishing Reel with 150lb line installed & extended hood

- Offers an elongated hood for better line flow and smoother shooting
- Push-button activation
- Spin-cast style reel
- Pre-spooled with 150' of 150 lb tournament Line
- Extended hood

XD PRO REEL WITH BUTTON
ITEM #: 1079

Improved spin style bowfishing reel with integrated reel mounting system With 150lb Line Installed. Push button activation.

- Offers an elongated hood for better line flow and smoother shooting
- Push-Button activation
- Spin-cast style reel
- Integrated Mount
- Pre-spooled with 150' of 150 lb tournament line

BOTTLE REEL
ITEM #: 1193

Constructed of weather proof materials and designed for long-lasting durability

- Drag free shooting
- Easy to Install using sight mounting screw holes
- Pre-spooled with 25 yards of 150 lb line

MUZZY® STR
ITEM #: 1058

Shoot through rod for spin cast reels

- Extends the life of your reel by reducing side torque on the main shaft
- Allows line to flow freely from spool
- Nothing for line to get wrapped around
- Stainless-steel construction

LV-R QUICK DETACH REEL SEAT
ITEM #: 1180

- Tool-free reel lock
- Anti-twist lock feature for bow
- Adjustable cam pressure
- Shoot thru rod adaptable
- Machined and anodized 6061-T6 aluminum

ANCHOR REEL SEAT
ITEM #: 1063-B

- Attaches to stabilizer mounting hole
- Heavy duty design
- Rust resistant aluminum construction
- Fits most Spincast style reels

LIME GREEN 200 LB BRAIDED BOWFISHING LINE
ITEM #: 1078

- Spool Sized (Enough line to fill a Muzzy® reels spool)
- Braided Line for Strength and Durability
- Color: Lime Green
- Quantity: 100 feet
- Test: 200 pound

REPLACEMENT TIPS

GAR POINT REPLACEMENT TIPS

· ITEM #: 1050

- 2 Pack

CARP POINT REPLACEMENT TIPS

· ITEM #: 1051

- 2 Pack

IRON 2 AND 3 BLADE REPLACEMENT TIPS W/ O-RING

· ITEM #: 1062

- 2 Pack

BIG FISH ADAPTER 5PK

· ITEM #: 1100-5

- 5 Pack
- Easily converts any standard point into a big fish point
- Provides another set of barbs that produce maximum holding power
- Features Standard ¼–28 threads
- Package includes 5 Big Fish Adapters

REPLACEMENT ONE PIECE BOTTLE SLIDE KIT

· ITEM #: 1132

- 6 Pack (6 Slides, 6 Stops, 6 Screws, 6 Nocks)
- Replaces Slides and Stops for standard 5/16"" Bowfishing Arrows
- Improved design reduces splash

BOWFISHING LIGHTED NOCK

· ITEM #:1047

- 3 Pack
- Bowstring activated linear switch
- Fool proof operation in any condition
- Long life lithium battery
- Super bright Green LEDs
- Water and weather proof
- Unsurpassed reliability
- X-Nock design specifically for Carbon Composite Fish Arrows

BOWFISHING REST

FISH HOOK BOWFISHING REST

· ITEM #: 1080

- 1 Pack
- A versatile rest for bowfishing, its unique design keeps your arrow in place at all times, so you are always ready
- Right- or left-handed use
- Very dependable rest that is easy to install
- Weight: Approximately .09 pounds

MANTIS II BOWFISHING REST

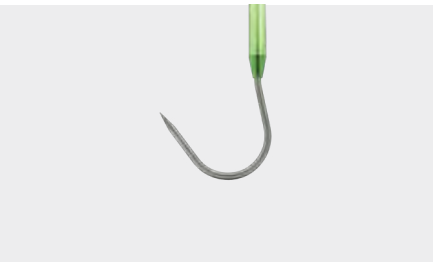

· ITEM #: 1099

- 1 Pack
- Anodized aluminum frame
- Full containment
- Solid Aluminum Construction
- Laser etched markings for windage adjustments
- Rotatable frame for elevation adjustments and alignment

BOWFISHING IS BEING REDEFINED

MISC ACCESSORIES

24IN GAFF

· ITEM #: 1038

- 1 Pack
- 24" Aluminum handle
- Steel hook
- Foam rubber grip

SINGLE ARROW QUIVER

· ITEM #: 1195

- 1 Pack
- Rust resistant aluminum construction
- Securely holds bowfishing arrow close to bow
- Mounts to existing sight/quiver bolt holes on bow
- Can be mounted in the arrow forward or arrow back positions

FLOATING DOUBLE BOW CASE

· ITEM #: 1157 *NEW*

- Holds 2 Fully Rigged Bowfishing Bows
- Zip around design stays zipped even with Shoot Through Rods
- Divider and Straps keep bows secure and protected
- Floating design keeps bows safe while on the water
- Compartments for extra reels and reel seats
- Arrow pouch for arrow tubes or loose arrows

NOCKTURNAL™
LIGHTED NOCKS By Rage

Nockturnal Lighted Nocks Enhance Your Arrows Visibility while Maintaining Accuracy

Provide bright, accurate, dependable products that help archers see and find their arrows during and after the shot.

STRING-ACTIVATED TECHNOLOGY

Nockturnal® Lighted Nocks is the leading designer and manufacturer of lighted nocks for arrows and crossbow bolts. Nockturnal's unique, patented, string-activated, linear switch with piston-driven assembly ensures the activation of the LED bulb every time. Nockturnal® Lighted Nocks feature super-bright LEDs and long-life lithium batteries for superior illumination that lasts. Available in a wide variety of sizes and configurations that fit nearly any size arrow or shaft, these specialty nocks perform with exceptional accuracy when shot from both vertical and crossbows. Nockturnal® Lighted Nocks blaze down range with extreme brilliance with a wide spectrum of color options and are offered as either constant single-color light emission or with dual-color strobing options on select models. Our Shift Series of nocks is now available with our "FIT" bushing system and in G size for tool free functionality almost every size arrow.

NOCKTURNAL® CROSSBOW NOCK

LAUNCHPAD® CROSSBOW NOCK

- Launchpad® Crossbow Nock - Red ITEM #: NT-782
- Launchpad® Crossbow Nock - Green ITEM #: NT-785
- Launchpad Crossbow Nock - Strobing Red/Green 3pk ITEM #: NT-780

The Nockturnal Launchpad Crossbow Nock is easy to install, easy to use, and specifically engineered to light up every shot with high-visibility LEDs. The lightweight, durable design is fully adjustable and can provide a custom precision fit on virtually any brand of crossbow bolts.

NOCKTURNAL® LIGHTED NOCKS

FIT UNIVERSAL

- Super Strong Clear Polycarbonate Construction
- Available in Strobing or Non-Strobing Versions
- Fits X, H, S, and GT Arrows
- Each nock in this package weighs approximately 25 grains
- 20+ Hour Battery Life
- 3-Pack

- Red/Green Strobing ITEM #: NT-300
- Blue/Green Strobing ITEM #: NT-320
- Red/Blue Strobing ITEM #: NT-310
- Red Lighted Nock ITEM #: NT-302
- Green Lighted Nock ITEM #: NT-305
- Blue Lighted Nock ITEM #: NT-314
- Orange Lighted Nock ITEM #: NT-315
- Pink Lighted Nock ITEM #: NT-312

SHIFT FIT UNIVERSAL

- Nockturnal Shift Nock with FIT Technology
- 3-Pack
- Waterproof and Shock Proof
- Fits X, H, S, and GT Arrows
- Each nock in this package weighs approximately 25 grains
- Delivers more than 20 hours of lithium-powered battery life

- Red/Green Strobing ITEM #: NT-832
- Blue/Green Strobing ITEM #: NT-834
- Red/Blue Strobing ITEM #: NT-833
- Red ITEM #: NT-830
- Green Nock ITEM #: NT-831
- Blue ITEM #: NT-836
- Orange ITEM #: NT-835
- Pink ITEM #: NT-837

G NOCK SHIFT

- Bowstring activated linear switch
- Super Strong Clear Polycarbonate Construction
- Streamlined tool-free on/off switch
- 3-Pack with Universal FIT Collars
- Non Shift G Series in Red, Green, Blue, Pink, and Orange
- Fits G Arrows
- 17+ Hour Battery Life

- Red/Green Strobing ITEM #: NT-819
- Blue/Green Strobing ITEM #: NT-821
- Red/Blue Strobing ITEM #: NT-820
- Red 3pk ITEM #: NT-813
- Green 3pk ITEM #: NT-814
- Blue 3pk ITEM #: NT-815
- Orange 3pk ITEM #: NT-817
- Pink 3pk ITEM #: NT-816

NOCK TOOL

- ITEM #: NT-901
  - Works with new and old style nocks
  - More ergonomic design
  - Stronger hook for turning off nocks

AXE CROSSBOWS

Axe Crossbows High-Performance Crossbows for Hunting

FAST. QUIET. SAFE.

The AXE400 Crossbow delivers on speed, accuracy, and value all in one exceptional package. Offered by one of the industry's most progressive crossbow manufacturers, shooters will feel confident taking to the range or the timber with this performance-driven crossbow.

Sending crossbolts down range at a deadly 400 feet per second the AXE400 delivers on the high-end performance users have come to expect from AXE Crossbows — without a high-end price tag. Lightweight, compact, ambidextrous, and extremely adjustable this attractive offering leaves nothing to want. With a state-of-the-art ambidextrous safety mechanism and patented Anti-Dry Fire feature the AXE400's trigger is just one of the many safety and performance-driven metrics. This bow's backbone is a multi-position buttstock, easy step-through foot stirrup, and an ergonomic/adjustable foregrip the stock resembles those found on high-end tactical firearms. The extruded aluminum rail is designed for repeatable accuracy and pairs perfectly with ultra-durable 200-pound compression molded limbs to deliver the feel and function sought after by today's demanding hunters. The quiver mounting system holds tight against the stock for an improved, streamlined fit and better overall aim. A premium AXE optic is ideally matched to the crossbow's ballistic profile with a 2-7 power x 36mm multi-reticle scope with precision windage and elevation adjustment, that's sturdily mounted to a cantilever-style mount above the rail. Dual string suppressors and limb dampeners help improve accuracy and eliminate noise while keeping the 400 dead-in-the-hand.

KIT INCLUDES:

- Top-end multi-reticle 2-7 power x 36mm scope
- Removable quiet crank cocking device
- Rope cocking device
- 3 PileDriver Bolts
- 3 Field points
- 3 Crossbolt side quiver
- Axe optic

AXE 400 CROSSBOW KIT

ITEM #: AX30001

At a maneuverable, stable and easily shouldered 35-inches long and less than 14.25-inches axle-to-axle (cocked) the AXE 400 sends cross bolts down range at a deadly 400 fps. The AXE 400 delivers high-end performance that users have come to expect from AXE Crossbows -without a high-end price tag.

- Best in class Axe optic with illuminated pre etched reticle from 20-100 yards
- Feet Per Second: 400 fps (with 380G Bolt)
- Kinetic Energy: 135 ft-lbs
- Draw Weight: 200 lbs
- Weight: 7.2 lbs (bow only, 8.4 with accessories)
- Width: 14.25" (cocked) / 17.75 (uncocked)
- Power Stroke: 14.25"
- Length: 35"
- Arrow: 20" PileDriver cross bolts w/moon nocks & 100 gr field points

CARBON EXPRESS®

Arrows for all aspects of archery that help archers shoot better through proven technologies, proprietary designs, and innovation.

WHY CARBON EXPRESS®?

- Carbon Express® controls the most critical variable in arrow performance: spine behavior.
- When you control spine, you control flight—and when you control flight, accuracy follows.
- CX arrows recover faster, fly straighter, tune easier, and deliver unmatched consistency shot after shot.

TRI SPINE® TECHNOLOGY – CONTROLLED FLEX = CONTROLLED FLIGHT

- Three engineered spine zones keep the front and rear stiff while the center Red Zone manages all dynamic flex.
- Produces faster arrow recovery and cleaner, more stable initial flight.
- Makes broadheads fly like field points with drastically reduced oscillation.
- Tightens groups significantly—especially beyond 40–50 yards.
- More forgiving accuracy even when form isn't perfect.

360° SPINE CONSISTENCY – UNIFORM STIFFNESS ALL AROUND

- Eliminates weak side and strong side bias found in traditional arrows.
- Arrow reacts identically regardless of vane or nock orientation.
- Virtually eliminates fliers and erratic impacts.
- Allows easier, faster tuning and improved downrange consistency.

LASER SORTED & WEIGHT MATCHED FOR TRUE CONSISTENCY

- Every shaft is individually laser measured for straightness.
- Each dozen is weight matched to ±1.0 grain—not batch averaged.
- Ensures every arrow bends, loads, and flies the same.
- Delivers predictable long range impact and smoother broadhead tuning.

WEIGHT FORWARD ENGINEERING – BUILT IN STABILITY & PENETRATION

- More mass toward the front stabilizes the arrow in flight.
- Flatter trajectories with reduced drift in windy conditions.
- Improves penetration and retained downrange energy.

THE CX ADVANTAGE – THE BOTTOM LINE

- Carbon Express controls spine, straightness, weight, flex behavior, and recovery speed at a level no other brand matches.
- The result: faster stabilization, cleaner tuning, tighter groups, and the most forgiving accuracy in the category.
- CX arrows don't just shoot better—they make the shooter better.

MACH 5 5MM NEW

Mach 5 is the fastest arrow Carbon Express® has ever produced—purpose-built for shooters who demand blistering speed, ultra-flat flight paths, and maximum consistency at long range. Engineered from an advanced lightweight carbon matrix, the Mach 5 delivers exceptional downrange velocity while maintaining stability and forgiveness, even when pushed to extreme distances.

360° Spine Consistency ensures that each shaft behaves identically around its full circumference, resulting in perfect launch behavior and reliable broadhead control despite the arrow's ultra-light mass. This uniformity simplifies tuning and produces the kind of repeatable accuracy that speed-focused shooters depend on.

Ideal for TAC-style events, long-range target practice, and any situation where trajectory matters as much as precision, the Mach 5 gives archers an aerodynamic edge without sacrificing the core Carbon Express® expectations of consistency, reliability, and performance.

PLEASE SEE PRICE SHEET FOR AVAILABLE QUANTITIES AND PART NUMBERS

PHOTON 4MM NEW

Photon 4mm is engineered for archers who prioritize speed, wind resistance, and precision at distance. The micro-diameter construction significantly reduces drag and crosswind influence, while Tri-Spine® Technology stabilizes the arrow at launch, ensuring fast recovery and tight group consistency.

Its lightweight design produces high arrow speeds without compromising integrity, and the 360° Spine Consistency manufacturing standard ensures every shaft tunes and flies the same. Photon 4mm empowers bowhunters and competitive shooters to extend their effective range with confidence, accuracy, and superior long-range control.

- Components: 4mm Aluminum 50gr Outserts
- Available Qty: 6 Pack Fletched or 12 Pack Shafts

PHOTON 5MM NEW

Photon 5mm strikes the ideal middle ground between speed, stability, and impact performance. Its reduced diameter improves penetration and long-range forgiveness, while the Tri-Spine® design manages dynamic spine for clean, consistent broadhead flight.

With 360° Spine Consistency, every Photon 5mm shaft delivers uniform stiffness, which improves tuning and ensures your entire dozen behaves identically in the field. Fast, stable, and forgiving, Photon 5mm is built for hunters who want a lightweight arrow that performs reliably under real-world conditions

PHOTON 6MM NEW

Photon 6mm delivers high speed, exceptional accuracy, and forgiving shot behavior in a standard-diameter arrow design. The lightweight build produces flat trajectories, while Tri-Spine® Technology controls flex and reduces variation at the shot—making this arrow extremely stable, even with broadheads.

Built to the tightest tolerances with 360° Spine Consistency, Photon 6mm ensures every shaft in your quiver flies the same, tunes quickly, and maintains Carbon Express® precision across all shooting environments.

SPINE	GPI	LENGTH	ID	OD	AVG. SPINE	INSERT	COLLAR SIZE

MAXIMA RED 4MM NEW

Maxima RED 4mm is built for bowhunters who demand elite broadhead control and maximum long-range accuracy. The RED Zone—powered by Tri-Spine® Technology—manages dynamic spine through the shot cycle, producing faster recovery, cleaner broadhead steering, and significantly tighter groups.

The micro-diameter increases resistance to wind drift and enhances penetration, while 360° Spine Consistency ensures identical performance from shaft to shaft. Maxima RED 4mm sets a new benchmark for micro hunting arrows built for precision and terminal authority.

SPINE	GPI	LENGTH	ID	OD	AVG. SPINE	INSERT	COLLAR SIZE
400	9.3	32"	.166"	.240"	.399	#2	#2

- Available Qty: 6 Pack Fletched and 12 Pack Shafts

MAXIMA RED 5MM NEW

Maxima RED 5mm is an extremely versatile hunting shaft built around the RED Zone—Carbon Express's dynamic spine control system powered by Tri-Spine Technology. This design forces the arrow to recover quickly, stabilizing broadheads and producing consistent downrange patterns across all setups.

The small-diameter profile improves penetration while resisting wind drift, and 360° Spine Consistency ensures every arrow in the set performs identically. Maxima RED 5mm is the dependable, accuracy-focused workhorse of the Carbon Express lineup.

MAXIMA RED 6MM NEW

Maxima RED 6mm continues the legacy of the RED Zone by delivering broadhead-friendly accuracy in a highly forgiving standard-diameter design. Tri-Spine Technology supports rapid recovery and reduced oscillation, making this arrow incredibly stable and easy to tune across bow setups.

With 360° Spine Consistency, the shaft behaves identically through every degree of rotation, eliminating tuning guesswork. Maxima RED 6mm is the perfect all-around hunting arrow for archers who want durable performance and unwavering precision.

PREDATOR AIR 4MM NEW

Predator Air 4mm is engineered for bowhunters who prioritize penetration, wind-cutting performance, and consistency at long range. The micro profile significantly reduces drag and helps maintain energy deep into the target.

With 360° Spine Consistency, every shaft delivers identical flex and launch behavior, ensuring arrow-to-arrow reliability. Predator Air 4mm is built to provide premium micro-arrow performance at an accessible price point.

SPINE	GPI	LENGTH	ID	OD	AVG. SPINE	INSERT

RECURVE DRAW WEIGHT

These spine reccomendations are for arrows installed with standard supplied components and a 100 grain field point or broadhead.
For every 25 grains added to the front of the arrow via heavier tip, nonstandard component or insert weight move one box down.
If in between reccomendations It is always better to go a spine stiffer (lower number) than weaker.
If you have specific questions please contact your loacal Carbon Express® Dealer or customer service.

MAXIMA 23XL NEW

Maxima XL 23 is engineered for competitive 3D archers who demand maximum scoring potential and unwavering consistency. The 23-class diameter offers enhanced line-cutting advantage, while Tri-Spine Technology stabilizes the arrow at launch for unmatched flight repeatability.

360° Spine Consistency ensures every shaft behaves identically, delivering predictable accuracy essential for tournament success.

TANK 27

Revolutionizing the 27 series arrow shaft has been a challenge few were willing to try and even fewer who found success. This revolution requires endless trial and error builds followed by countless shots out of the shooting machines and finished off with field testing by our Factory Pro Staff shooters. Years of dedication to research and design has led to the inception of the ultimate indoor MAX 27 arrow. Birthed from the leader in carbon competition arrows, Carbon Express® , the TANK 27™ combines a heavy build with industry leading consistent 360 degree spine. The result is the most accurate and forgiving 27 series arrow on the market.

XBUSTER

The X-Buster™ was specifically developed for indoor 20 yard/18 meter tournaments and conforms to the 9.3mm FITA and NAA rules. The X-Buster™ is a heavy construction eliminating the need for archers to "tune down" their equipment to obtain slower, more forgiving indoor speeds. The X-Buster™ also delivers the proper spine at the correct weight - eliminating the need to stack additional weight into the point. Designed to be 50% stronger than competitors' indoors target arrows, the X-Buster arrows remain consistent throughout entire seasons.

NANO-PRO™ X-TREME™

Nano-Pro™ X-TREME™ is specifically engineered for today's competitive recurve bows. When the X difference of success can be that of mere millimeters in FITA, NAA and NFAA long distance field shooting, the Nano-Pro™ X-TREME™ is sure to deliver pinpoint accuracy as a result of its multi-spine construction.

Utilizing an incredibly light yet strong 46-ton carbon, the Nano-Pro™ X-TREME™ is a parallel shaft that has three distinct spines with the stiffest section being in the mid area and the weakest spine positioned at the back end of the shaft allowing for ideal fletching clearance through the cushion plunger and arrow rest. With this design, the Nano-Pro™ X-TREME™ recovers faster out of the bow while delivering the flattest trajectory and superior down range accuracy. The Nano-Pro™ X-TREME™ features the smallest diameter of any of our target arrows coupled with the parallel shaft design to virtually eliminate cross-wind drift. Contrary to aluminum core arrows, the Nano series won't take a set (permanent) bend, and consistently hold their initial spine tolerance for several seasons.

NANO-PRO RZ

The Nano-Pro™ RZ is simply the best compound field arrow in the world. Featuring Carbon Express® exclusive Tri-Spine® technology which combines stiff ends with a more flexible center section for ultimate performance and accuracy out of today's compound bows. This multi-spine construction manages how an arrow flexes in flight (dynamic spine) delivering pin-point accuracy and simply the most forgiveness an arrow can offer, especially in windy conditions. The Nano-Pro™ RZ is constructed with incredibly light yet strong 46-ton carbon. Unlike aluminum core arrows, the Nano-Pro™ RZ won't take a set (permanent) bend, consistently holding initial spine and straightness tolerances for several seasons.

RECURVE BOW (BOW DRAW WEIGHT)

LEGEND: NP = Nano-Pro™ RZ

Note: For compound bows, you must first calculate your adjusted weight from the adjusted weight chart. Recurve bows use the weight on the right side from the draw weight of your bow at your draw length.

BOW DRAW WEIGHT (ADJUSTED WEIGHT CHART)

Proper spine selection is the key to optimum arrow flight. With today's modern compounds, there are many variables that affect how an arrow reacts when it is thrust from the bow. The bow's cam, bow speed, arrow length and many other conditions affect performance during flight. Given the number of variables that require consideration, Carbon Express® STRONGLY recommends that you begin by using the company's adjusted bow draw weight chart to calculate a final pound number for your bow.

WARNING - FOR COMPOUND BOW USE: It is CRITICAL that you determine your proper adjusted bow draw weight before selecting arrow shafts. Selecting the wrong shaft could result in damage to the shaft and/or serious injury. To avoid serious injury and learn about safe hunting techniques, users must read the instructions and watch videos at **www.safearrow.com** prior to shooting any arrow.

MAXIMA® CONTOUR

The Maxima® Mossy Oak® Contour crossbolt provides Dual Spine Weight Forward technology® that fuses different carbon materials to create two spines in one crossbolt. This technology combined with our patented BuffTuff® and Carbon Weave delivers twice the accuracy, strength, and durability unmatched in other crossbolts.

SIZE	GRAINS	OD	ID	VANES
20″	390	0.343"	.284"	3" Dragon®

STRAIGHTNESS +- 0.002"

- Maxima Contour Available in 3 pks
- 3pk includes inserted Moon Nocks plus C-Nocks
- Above weight includes 100 grain field point

D-STROYER 380

The D-Stroyer 380 is the lightest and fastest bolt in the Carbon Express lineup. It provides Dual Spine Weight Forward Technology for ultimate down-range accuracy plus BuffTuff exterior on the front 2/3rds that adds superior strength and consistency. Maximize the most speed and accuracy out of your crossbow with the D-Stroyer 380 Crossbolt.

SIZE	GRAINS	OD	ID	VANES
20″	380	0.340"	.284"	3" Fusion™

STRAIGHTNESS +- 0.003"

- D-Stroyer 380 Available in 3 pks & 36pk Bulk
- 3 pk includes inserted Moon Nock and C-Nock plus Rocky Mountain Nub & 3 Practice Points
- Above weight includes 100 grain field point

NOCKTURNAL LAUNCHPAD CROSSBOW LIGHTED NOCKS - RED, GREEN, OR STROBING
ROCKY MOUNTAIN PRACTICE POINT XBOW 11/32″ 100, 125, OR 150 GRAIN

MAYHEM®

The Mayhem® crossbolt provides ultimate versatility through advanced carbon materials to meet the demands of today's high performance crossbows. The Mayhem offers the ultimate combination of speed, accuracy, and penetration.

SIZE	GRAINS	OD	ID	VANES
20″	420	0.348"	.248"	3″ Dragon®
22″	449	0.348″	.248″	3″ Dragon®

- Mayhem Available in 6 pks, 12pk Bulk, & 36pk Bulk
- 6 pk includes inserted Moon Nocks plus C-Nocks
- Above weight includes 100 grain field point

NOCKTURNAL LAUNCHPAD CROSSBOW LIGHTED NOCKS - RED, GREEN, OR STROBING
ROCKY MOUNTAIN PRACTICE POINT XBOW 11/32″ 100, 125, OR 150 GRAIN

PILEDRIVER®

The PileDriver® crossbolt is engineered for the hunter who wants bone crushing penetration. It's the best all-around durable bolt in the Carbon Express line to create bone crushing kinetic energy and greater knock down power. Innovative design provides exceptional toughness for greater confidence and overall performance shot after shot.

SIZE	GRAINS	OD	ID	VANES

CROSSBOW RELEASE BOLT

Strong, safe, and durable woven wrapped layered glass offers exceptional strength to safely disengage crossbow every time. Easy recovery ultra-dense steel front end tip is built to withstand ground impact without burrowing below the surface. Highly visible vanes make it easy to locate after discharge. Release bolts are inserted with moon nocks that fit a majority of today's competitive crossbows.
