RAZOR

THE LEADER IN REPLACEABLE BLADE KNIVES

Outdoor Edge introduced the RazorSafe® system in 2013 with the RazorBlaze, a hunting model based on a 3.5" blade length in a lockback folding knife. Over the course of the next 5 years the system grew into 3.0" and 5.0" blades, leading to advancements in knives and blade holders. Since the inception of the first model, we continue to provide the best replaceable blade knife experience.

As our system gained popularity among hunters and outdoor enthusiasts, we saw an opportunity to enhance its design with stronger materials, improved locking mechanisms, and cutting-edge features. This drive for innovation led to the creation of our award-winning Razor VX, tailored specifically for the everyday carry market. This year, we took another leap forward by engineering a smaller and compact 2.5" Razor VX line, expanded on the Razor APX with a 3.0" folding version. Most notably, we are expanding our authority into game processing with the introduction of CutCraft, a modular cutting board system allowing you to create a work surface from dinner prep to breaking down big game animals.

Over the past 11 years, Outdoor Edge has put 40 million RazorSafe replaceable blades into the hands of hunters, EDC enthusiasts, DIYers, and anyone who appreciates a quality knife that never needs sharpening. This incredible achievement could not have been reached without the help of our dedicated customers and exceptional partners. Thank you for helping us hit this milestone. And get ready, because we are just getting started in the evolution of replaceable blade knives.

Stay sharp.

- (1) INGREDIENT TRAY

Model # CC-S2

Designed for those who demand more from their gear, the CutCraft Prep Station turns everyday prep into a high-performance operation. The Prep Station combines a precision-engineered cutting board with a 3-section tray for organizing ingredients and a dedicated transfer tray that keeps waste out of your workspace. From weekday meals to weekend feasts, this system delivers cleaner, faster, and more efficient food prep.

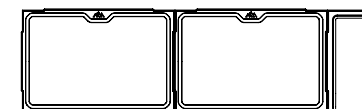

ONE SYSTEM, ENDLESS CONFIGURATIONS

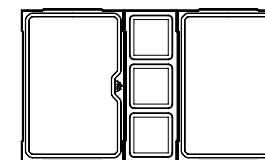

- (1) CUTTING BOARD
- (1) TRANSFER TRAY
- (1) INGREDIENT TRAY

- (2) CUTTING BOARDS
- (1) TRANSFER TRAY

- (2) CUTTING BOARDS
- (1) INGREDIENT TRAY

NEW EXPANSION SET

- (2) CUTTING BOARDS

Model # CC-S1

Expand your prep footprint with the CutCraft Expansion Set, perfect for everything from processing wild game to slicing brisket for family gatherings. Two boards connect to create 342 sq. in. of continuous cutting surface, then store flat when not in use, unlike bulky traditional boards.

RAZORSAFE® REPLACEMENT BLADES

Our patented RazorSafe® System has grown with a simplified blade compatibility system to easily ensure you are purchasing the correct blade sizes for your knives. Quickly match the color on package corresponding to the number on the blade holder for quick and easy guaranteed compatibility.
