Available Stripped or complete with Front and Back Flip up sights, a HFG Frontgrip and M4 Stock in our RTU (Ready to use) package (SFU- Side Folding Unit not included).

Pictures showing not included accessories.

Triari Single Unit

TRIARI

READY TO USE

Our Triari has been designed to meet the functions and needs of today's law enforcement/military, agency and sport shooter. The click and fire system has been developed to ensure that response time is reduced and maximum capability is given. With an approximate 4 second installation/ready to fire time, the Triari can provide that needed time to any situation. We are honored to have worked with various agencies, officials and customers throughout Europe, listening to their needs and wishes. The Triari contains the basic frame and can be equipped with various Stock, Grip and Sight Systems.

TRIARI RTU

READY TO USE

Our Triari RTU - Ready to use Package. Unless the basic Triari System our RTU comes fully equipped with Front- and Back Sights, a Frontgrip and a M4 Style Stock (Discount prices for SFU available during RTU order).

- SIG 226 / 2022 (only European Models)
- Glock 17/19/20/21/22/23/31/32/34/35
- Walther PP9 (Gen.2 +)
- Walther PPQ
- Walther PPQ 5" Match
- CZ SP01
- HK P30
- HK P30L
- S&W M&P9 / M&P40

CQR

Designed for the LE/Military market to create one of the most rigid and compact Rifle Systems based on the widely available AR15 Platform. The CQR Riflestock is a easy to install replacement buttstock for Mil-Spec AR15 Rifles using a Mil-Spec (recommended) Carbine Buffertube.

In combination with our CQR Frontgrip, operators will get a light-weight, compact and ergonomic SBR system.

Fits AR15 Mil-Spec Lower Receivers or Similar as well as AR10 (DPMS Gen.2 Standard).

Special Models for AR10 DPMS Gen.1 Standard also available.

NE

EC

EC

CQR AK

Designed for the AK47 market to create one of the most rigid and compact Rifle Buttstock Systems based on the widely available AK47 Platform (Stamped Standard Receivers). The CQR Riflestock is a easy to install replacement buttstock for AK47 Rifles.

In combination with our CQR Frontgrip, operators will get a lightweight, compact and ergonomic Riflesystem.

EC

FEATURELESS

All CQR Stocks and Frontgrips are also available with a Manufacturer installed Plate to ensure legality (Depending on State/Country) where traditional Buttstocks/Grips are prohibit.

HRS

The HRS (Hera Rifle Stock) is a modern designed slimline Buttstock made out of impact optimized polymer. Easy to install replacement for A2 Standard-Buttertubes. Comes with Covers for both sides to use the backspace as a additionally compartment.

HERA FREE FLOAT HANDGUARD SYSTEMS GEN.3

The Hera Arms line of Handguards are modern designed Handguards made from high quality aluminum and is built to handle the hardest use and abuse of tactical and competitive shooting. All Handguards are CNC milled from T6060 aluminum alloy and anodized for added strength. Available in lengths of 7", 9", 12", 15" and 18.5" all Handguards comes with their own barrel nut where the Handguard is clamp mounted. The anti-tum millings prevent rotating even with rough use. All Handguards are interchangeable without replacing the HERA Barrel Nut.

HERA H3T GEN2

All new Generation 2 of the Hera GmbH 30 Round Polymer Magazines for AR15 based Weapon Platforms. Available in Black, OD Green and Tan. Model „T“ provides a partially transparent Makrolon frame.

HERA H2

Hera GmbH 20 Round Polymer Magazines for AR15 based Weapon Platforms. Available in Black, OD Green and Tan.

HERA H1

Hera GmbH 10 Round Polymer Magazines for AR15 based Weapon Platforms. Available in Black, OD Green and Tan.

HERA HFG

HERA Front Grip (HFG) is a easy to install vertical Frontgrip made out of Fiberglass filled Polymer. An internal storage can be used, for example, as a Battery compartment. Available in Black, OD Green and Tan.

HERA HFCA

HERA Multi-Position Frontgrip for MIL-STD 1913 Rails. Easy to install adjustable Front Hand Support. Available in Black, OD Green and Tan.

HERA H15G

HERA AR15 Grip (H15G) is a easy to install Hand Grip made out of Fiberglass filled Polymer. An internal storage can be used, for example, as a Battery compartment. Available in Black, OD Green and Tan.

Available in Black, OD Green and Tan.

MPSS GEN.2

The MPSS, Multi Purpose Safety Selector, is introducing a dual purpose safety bolt as well as 6 interchangeable polymer switches in 3 colors; for a total of 18 switches, giving almost endless configuration.

The dual purpose safety bolt may be used in a 45° or 90° fire mode. By easily rotating the bolt 180° the Operator can choose between standard or short fire selections during installation of our MPSS.

HERA POLYMER DUST COVER

HERA GmbH aftermarket Dust-Cover for AR15 style Rifles. Ball Plunger can be adjusted. Available in Black, OD-Green and TAN.

LOWER PARTS KIT

Complete AR15 Lower Parts Kit, including all Parts to assemble a stripped Lower (except Buttslock assembly).

AR15 AMBI MAG RELEASE

Easy to install Drop in AMBI Mag Release for AR15 Style Rifles / Lower Receivers including push button. Replaces your standard AR15 Mag Release.

BC

HERA WEAPON CASE

Lockable Hera GmbH Rifle case including Label „The15th“.

NE

AR15 STRAIGHT PULL CHARGING HANDLE

The perfect side charging handle for Straight Pull builds. Easy slide in installation or replacement, without the need for milling the Upper Receiver.

Works with standard AR15 Upper Receivers.

BC

COMPETITION SPRINGS

AR 15 Trigger, Hammer and Disconnector Competition Springs. Will reduce your AR15 Mil-Spec Trigger pull to 1,5-2,5 kg. Easy to install replacement.

BC

STANDARD GASTUBES

AR15 Standard Gastubes. Available in Rifle length, Mid length, Carbine and Pistol length.

AR15 GASBLOCKS

A new addition to the Hera Arms AR15 line is our line of low profile gas blocks. Machined using high precision CNC milling and out of a solid Steel block. Easy installation with a great new look.

Inside Diameter: .750, .936

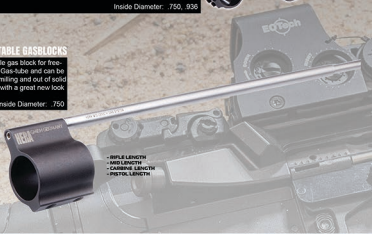

AR15 ADJUSTABLE GASBLOCKS

A new addition to the Hera Arms AR15 line is the low profile adjustable gas block for free-float AR15 Systems. All Gasblocks provide a pre-mounted, sealed Gas-tube and can be adjusted during a front-screw. Machined using high precision CNC milling and out of solid steel, easy installation with a great new look.

Inside Diameter: .750

EC

LINEAR COMPENSATOR-S

223 / 5.56 Linear Compensator for use on short barrel rifles which is designed to lead blast and noise straight forward. Available in Black and thread 1/2 x 28.

NE

LINEAR COMPENSATOR GEN.2

Generation 2 of our 223 / 5.56 / 7.62 Linear Compensator for use on short barreled rifles. The inside design with 12 separate expansion chambers leads blast and noise straight forward to increase shooting comfort and reduce noise at the shooters ears. Available with 1/2 x 28 (.223REM) and 5/8x24 (7.62mm) threads. With a new outside desing and a reduced mass, Generation 2 is around 15% lighter than Generation 1.

NE

HERA CC COMPETITION COMPENSATOR

HERA 5.56 / .223REM Muzzle Break. The 3 Chamber design reduces recoil and muzzle rise to keep the shooter on target. CNC machined from 42CrMo4, heat threaded and nitrided. Fits all Weapons in 5.56 and .223 Rem with a 1/2x28 tpi Muzzle thread, also available in 5/8x24 for 7.62.

EC

THE 15TH™ GEN.3

All of our „The 15th“ Rifle Systems are based on a combination of available Lower and Upper Systems. Combine any of them and get a complete, ready to shoot, Rifle.

All combined Systems will be delivered in our HERA lockable weapons case and come with a 10 Round H1 Magazine as well as a Manual.

Starting March 2018 all Lower Systems (except LS010 and 9mm LS010), Upper Systems and Handguards are brought to the Generation 3 Standard. All Upper Systems are featuring a Keymod Handguard with the possibility to switch to other Handguard Systems without additional charge.

All Lower Systems are featuring our Competition Spring Set that reduces Trigger Pull weight. The standard Spring set will be delivered as well for Customers who prefer the Standardized Trigger Pull.
