ADIX

- » ADIX Hunting Bows are the most advanced hunting line ever created.
- » ADIX has our new HYBRIX Cam system with Helix Groove in the lower cam and our new MASS DISTRIBUTION SYSTEM.
- » MASS DISTRIBUTION SYSTEM allows the archer to determine where in the cam to place the required weight to tune the arrow.
- » The Helix Groove has proven to eradicate cam lean by displacing and transferring load across the cam as the bow cycles from static to dynamic position.
- » ADIX also features the RRAD Weight Distribution System in the riser that is fully adjustable to the archers' feel.
- » Short, Compact, NO HAND SHOCK, Quiet and Fast, the ADIX is the most versatile hunting machine ever designed.

DAMON HOWATT

HAND-CRAFTED EXCELLENCE

At Damon Howatt, we still do things the traditional way. Hand shaped, hand sanded & hand crafted. The process takes longer, but we believe you can see the results. We build more custom bows than any other traditional bow manufacturer. Each bow is built one at a time & is a functional work of art. They're all unique & tell a story. When you are looking for the finest American craftsmanship, look no further than Damon Howatt.

Diablo Super Elite

THE MOST COMFORTABLE BOW IN THE WORLD TO SHOOT

- » Smooth, stack-free draw & speed with zero hand shock for ultimate stability.
- » Slightly deflexed riser allowing for a smooth feel & speed.
- » Contrasting hardwoods with maple laminate make it an absolute eye-catcher.
- » 60" length & generous brace height provide very forgiving characteristics.
- » Little vibration helps to quiet the bow & makes it one of the most comfortable bows in the world to shoot.
- » Limbs are laminated hardwood backed with black glass to provide solid performance without affecting its silky draw.

Scorpion

THE ULTRA LIGHT, SUPER FAST CARBON HOT ROD

Pound for pound few animals are as deadly as the scorpion. This bow is certainly no exception, hand-crafted from black action wood, the Scorpion features individually stained hemlock wood fused with high quality Gordon glass & hand-shaped in the USA, each piece of wood is hand picked & each bow is carefully hand made to perfection. This one-of-a-kind Damon Howatt recurve isn't just eye-catching, it's also built with the legendary quality you expect.

Hunter

THE #1 RECURVE FOR OVER 50 YEARS

Celebrating its 50+ years in production, the Hunter is perhaps the most successfully used traditional bow ever made. The Howatt Hunter was a popular model long before many of today's archers were even born! Built for speed, it easily lives up to its name. Perfect for the archer with a longer than average draw length, the 62" Hunter will perform well for draw lengths up to 30". Its longer length adds stability & accuracy, providing control to its impressive cast & speed.
