

2018

Made with Pride in the USA

Neet Products,
a tradition of
old-fashioned
craftsmanship.

We continue to offer products that follow the guiding principle that Leroy and Judy Young established for this company back in the fifties. We started out making items for local friends and family but over the years the company has grown a lot, both in square footage and in reputation. Neet Products now supplies archery accessories for everyone from beginners to experts around the world.

We're still located right where we've always been, in the middle of the U.S. All of our products are made by a workforce that includes many employees with 20 to 30 years of service, as we continue to be the industry leader in both quality and selection. To insure this quality, we perform as much of the processing of our raw materials and assemblies as possible right here in Mid-Missouri.

As you look through this catalog, please note our product changes and new items for 2018. You'll notice that we've changed our camo pattern offerings to include True Timber Kanati and Strata patterns, and we're also offering the new Southwestern inspired Sierra pattern on select items.

We are very proud to continue our lines of NASP, S3DA and Bear licensed products. For 2018, we're teaming up with Shoot Like A Girl in designing and making items that assist them in their mission to increase involvement of women in the shooting sports.

If you have any comments or questions concerning these products, or any other of our items, please visit us at www.neet.com and e-mail us your thoughts.

For 2018, Neet Products and the Shoot Like A Girl organization are

teaming up to offer a line of accessories to the growing number of women in the shooting sports. These products are made in the U.S. to insure the quality that both companies demand. Since 2008, Shoot Like A Girl has been on a mission of empowering women with confidence to increase their involvement in these activities.

The Osage Bowmen Line

We're honored to offer the Osage Bowmen line of Traditional Accessories. This club of archery enthusiasts was formed in 1930 and flourished until its members' contributions in the World War II effort forced it to disband. The next generation of Missouri archers revived it in the '50s, when it continued the original group's charter to host local and state tournaments and produce multiple champions as it promoted the growth and success of Archery. This new line of products is designed and made in a manner to pay tribute to those pioneers of our sport.
