\*Add color code (see list to left) after Cat. No. to distinguish color choice (eg: 2559-R is a Kwik Stand with Red Legs).

**NEW**

# KWIK STAND

**NEW**

## TRI-POD BOW SUPPORT

Adjustable to fit shorter, top heavy & parallel limb bows. With the Kwik Stand Tri-Pod, the bow is always within arm's reach and secure so archers don't have to worry about making noise when they reach for the bow.

The Tripod leg is fully adjustable featuring a hirth gear to lock it into place when you find your bows sweet spot. Long gone are the days of your cams being in the dirt. The leg trough accepts most cams on the market keeping them clean and ready to shoot.

The Kwik Stand comes with non-marring adjustable jaws. The jaws make removing the bow from the jaws super quiet and helps keep the bow locked in and secure.

The legs on the Kwik Stand are adjustable to provide better stance angles than other bow stands. The Kwik Stand is solid as a rock on a gym floor, the forest floor, or the inside of a ground blind, making it a great stand for archery and bowhunting.

CAM OUT OF THE DIRT

# KWIK STAND

## RAIL MOUNT

**NEW**

Crossbow shooters now have a solution to keep their crossbow limbs and cams off the ground and out of the dirt. The new Kwik Stand Rail Mount is made of High Density Nylon, and can stay attached to the crossbow during any shot with no added vibration. The mounting bolt keeps the rail mount snug & secure while you trek through any and all terrain.

The new Kwik Stand Rail Mount will attach to any picatinny rail system which allows it to be more versatile, and can be used on an AR style firearm by replacing those heavy bi-pods being used.

Two options available; the package deal that will include a black Kwik Stand & the new Rail Mount, or just the Rail Mount for those that already have a Kwik Stand.

**MADE IN**  
  
**USA**

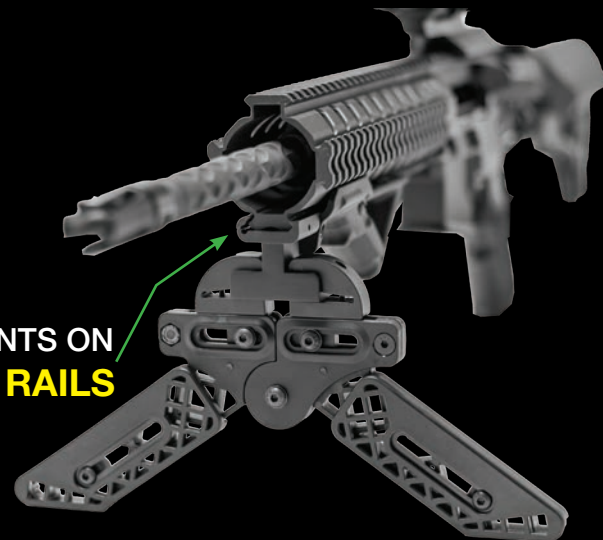

**WORKS ON  
 CROSSBOWS & FIREARMS!**

- MOUNTS TO PICATINNY RAIL
- **SUPER STRONG NYLON MATERIAL**
- USE AS LIGHTWEIGHT BI-POD
- WORKS ON CROSSBOWS OR FIREARMS
- **SHOOT WITH STAND ON OR OFF**
- SECURE RAIL MOUNT
- LIMBS & CAMS OR MUZZLE OFF GROUND
- PERFECT FOR **BLIND HUNTING**

**RAIL MOUNT STAYS ATTACHED WHEN KWIK STAND IS REMOVED**

**ALSO MOUNTS ON FIREARM RAILS**

 Kwik Stand Rail Mount w/ Kwik Stand Bow Support (Black)

# GEN-STAND

## Genesis® Bow Support

Stop laying your Genesis® Bow on the ground. The Gen-Stand mounts easily and holds your Genesis® Bow securely. Made of super strong resin and anodized aluminum, the Gen-Stand is a great addition to your bow. During transport, the Gen-Stand fits on the bow and the legs retract back against the bow\*. In between ends, the Gen-Stand fits in your hip quiver and is ready for the next round. This bow support is made exclusively for the Genesis® Bow.

- Easily attaches to Genesis® Bow
- Won't scratch bow while in use
- Legs slide back for easy transport
- Holds Genesis® Bow securely
- Made in USA

Cat. No. 2562-BK Gen-Stand Genesis® Bow Support

**MADE IN**  
  
**USA**

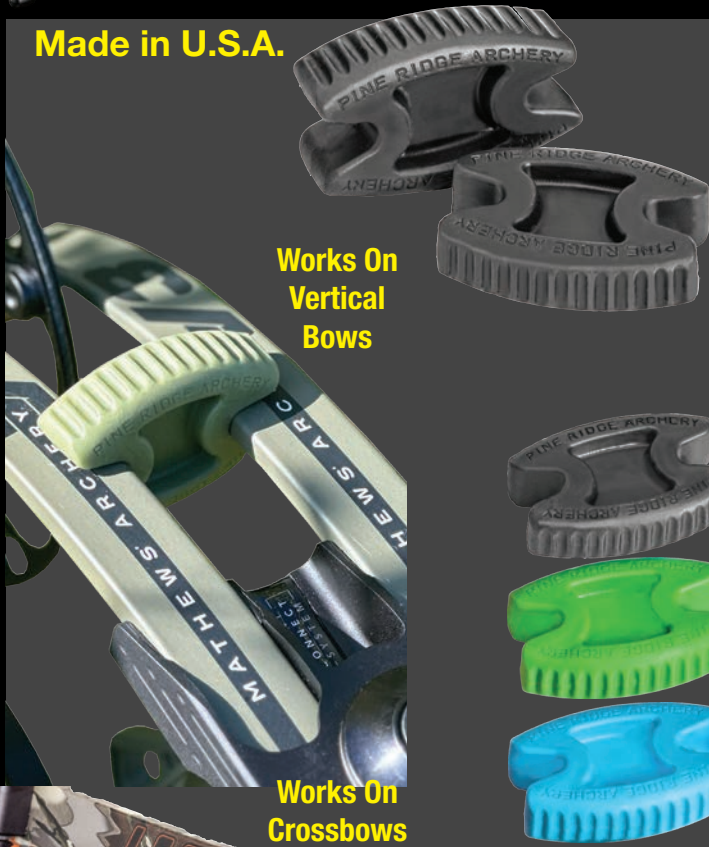

\*Note: Do not shoot with Gen-Stand attached to bow.

Made in U.S.A.

# NITRO SPLIT-LIMB DAMPENERS

Easy to use dampeners fit right in-between the split limbs with no tools or bow press required. They hold tight and will dampen vibration and noise on both vertical bows as well as many crossbows like the Ravin™ Crossbow.

12 COLORS TO CHOOSE

Works On Vertical Bows

Works On Crossbows

Cat. No. 2727 Nitro Split Limb Dampener 2/pkg.

\*Add color code after Cat. No. to distinguish your color choice (eg: 2727-BK would be for black.)

**NEW COLORS**

# NITRO SPEED BOMB

The Nitro Speed Bomb comes in at a weight of approx. 23 grains making them a perfect alternative for the difficult to use brass nocks.

At 23 grains, you can eliminate 3 typical brass nocks and the effort to crimp and burn the shrink tubing, while retaining the ability to adjust them to the perfect position on the string. A brass nock is pretty much stuck where you crimp it, while the Nitro Speed Bomb can be adjusted to the perfect placement for optimal speed. However, once achieved, they stay where you want them thanks to their durable and tacky material. No need for shrink tubing, crimps or serving. Once set, just shoot!

- 13 COLORS -

MADE IN

USA

(1) Nitro Speed Bomb weighs as much as (3) brass nocks (23 grains) approx.

**NITRO SPEED BOMB**  
 • 23 Grains  
 • Adjustable Position

## STRING BUILDER SPECIALS - BUY IN BULK

# WISHBONE

## STRING & CABLE DAMPENERS

Weight: 14 grains / ea

Made in U.S.A.

The Wishbone will make a noticeable difference in dampening vibration and noise on your bow's string and cables.

**NO BOW PRESS NEEDED!!**

Simply wrap the tight fitting Wishbone around the string or cable and loop it back on itself for a secure fit. Works on all vertical bows as well as crossbows to help reduce vibration and noise.

Cat. No. 2725 Wishbone String & Cable Dampeners (4/pkg)  
 \*12/pkg and 100/pkg also available (see price sheet).

# NITRO BUTTONS

Nitro Buttons can increase the overall speed of a bow, making it the perfect accessory for archers looking to get a little extra speed.

Some of the common problems archers consistently deal with include nock pinch and arrow speed. With the Nitro Button, those problems are a thing of the past. Inexpensive Nitro Buttons can give a bow more speed without breaking the bank.

*Nitro Buttons also help eliminate unwanted bow noise and vibrations and can be installed in minutes.*

# NITROXL BUTTONS

The Nitro Buttons XL combine dynamic design with a color flair. These speed increasing, string quieting buttons do it all. At 19 grains each, these will add a perfect amount of weight to the the string which helps to gain bow speed, and they are simple to install.

Most bows will gain speed, and all will benefit from the noise dampening properties of the Nitro Buttons XL. Once on your string, simple slide adjustments will get you dialed in to your bows "sweet spot" and you are ready.

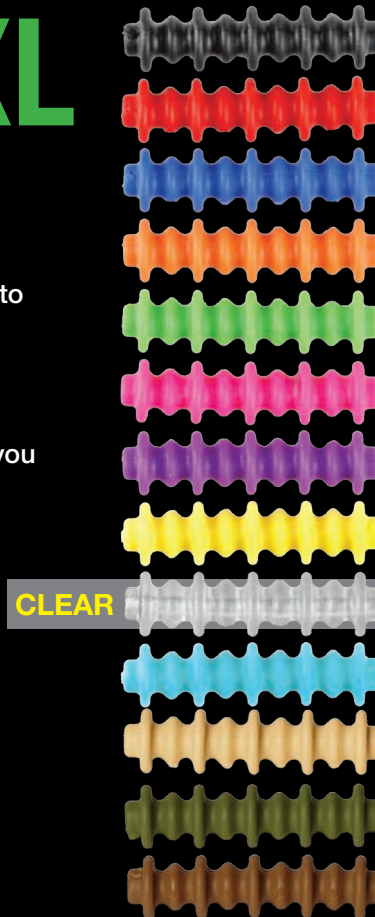

- REDUCES STRING VIBRATION & NOISE
- INCREASE BOW SPEED ON MOST BOWS
- EASY INSTALLATION / ADJUSTMENT

Cat. No. 2724 Nitro Button XL 2/pkg.

*\*Add color code after Cat. No. to distinguish your color choice (eg: 2724-BK would be for black.)*

# BRUSH BUTTONS

## TRADITION WITH A NEW FLAIR

- Soft strong material
- 5 colors to match bow, string & accessories
- Great for traditional & compound bow strings
- Dampen string noise and vibration
- Make great "speed" accelerators on string
- Slide onto string over end loop for easy installation

The Pine Ridge Archery Brush Buttons allow the archer to keep the tradition alive while adding some new color. Your traditional or compound bow string will benefit from these buttons. They are easy to install, they slide right over the end serving. They help prevent brush and twigs from getting caught in between your string and limb on your recurve, plus they add speed to your compound bow. Best of all, they will help to dampen vibration and noise on any bow and they look great while doing it.

Weight: 25 grains / each

Cat. No. 2729 Brush Buttons 2/pkg. **Made in U.S.A.**

\*Add color code after Cat. No. to distinguish your color choice (eg: 2729-BK would be for black)

## WHISKERS

String whiskers have been a staple in quieting bow strings for many years. The Nitro Whiskers have taken an existing concept and improved upon it. Our material is durable and will provide a long life on your bow. Plus, with 17 color choices, you are sure to find one that matches your bow and accessories perfectly.

You can slide through the string or tie around the string. This allows you to install on your string without a bow press. Great for all bows and all shooters.

- REDUCES STRING VIBRATION & NOISE
- ADD COLOR / PERSONALIZATION

Cat. No. 2595 Nitro Whiskers (2/pkg.)  
Cat. No. 2597 Nitro Whiskers (50) 5" pieces/pkg.

# FINGER SAVERS

## SOFT & COMFORTABLE

- Soft strong material
- 10 colors to match bow, string & accessories
- Great for kids or beginning shooters
- Great alternative for glove shooters
- Great for traditional shooters
- Make great "speed" accelerators on string
- Slide onto string over loop for easy installation
- Great for bowfishing

Finger Savers are made of a strong yet soft material that allows the shooter to shoot without using a finger tab or release. Wrap your fingers around the Finger Saver above and below your nocking point and you'll be ready to shoot. Finger Savers save time and create consistency for beginning shooters. These are also great for bowfishing! When you're trying to put more fish in the boat, Finger Savers are the answer.

Finger Savers allow you to take faster and more accurate shots and are easy to install. They also add speed to your bow when positioning them at the top and bottom of the string as "speed buttons".

Weight: 22.6 grains / set

Made in U.S.A.

Cat. No. 2810 Finger Savers

\*Add color code after Cat. No. to distinguish your color choice (eg: 2810-BK1 would be for black 1/pkg. and 2810-BK6 would be a black 6/pkg.)

# FINGER SAVERS XL

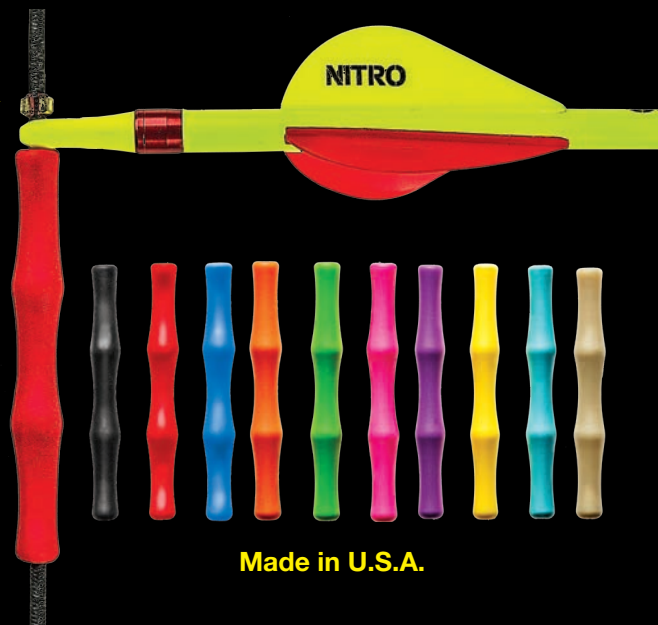

## BOWFISHING & TRADITIONAL

- Soft strong material
- 10 colors to match bow, string & accessories
- Larger size for adult shooters
- Great alternative for glove shooters
- Great for traditional shooter
- Slide onto string over loop for easy installation
- Great for bowfishing

Finger Savers XL are made of a strong yet soft material that allows the shooter to shoot without using a finger tab or release. Wrap your fingers around the Finger Saver XL below your nocking point and you'll be ready to shoot.

These are great for bowfishing! When you're trying to put more fish in the boat, Finger Savers XL are the answer. They allow you to take faster and more accurate shots and they are easy to install.

Weight: 42 grains / each

Made in U.S.A.

Cat. No. 2811 Finger Savers XL

\*Add color code after Cat. No. to distinguish your color choice (eg: 2811-BK1 would be for black 1/pkg. and 2810-BK6 would be a black 6/pkg.)

# NITRO

## VANES

US PATENT #  
US 9,039,550 B1

### REGULAR PROFILE 2.0" WIDTH

**THE VANES YOU  
CAN RELY ON!**

**WORKS WITH CROSSBOWS  
OR VERTICAL BOWS**

Dimensions:

2.0: 0.59" X 2.0" - Weight: 7.8 grains

2.2: 0.41" X 2.2" - Weight: 6.2 grains

*\*Note: Vanes may or may not have logo printed depending on batch*

### LOW-PROFILE 2.2" WIDTH

Our NITRO Vanes offer many benefits over other vanes. With the Micro Glue Pockets, our vane has more surface area in contact with the glue and shaft **providing a superior bond**.

Our patented leading edge design is rounded instead of "forked" like many other vanes which decreases drag into the target. This reduces the probability of the vanes' leading edge lifting up after repeated shots, a common problem with other vanes.

Our NITRO Vanes' Aerodynamic shape provides **exceptional arrow recovery and stabilization**.

With the NITRO Vanes' molded, flexible and durable material, it is **extremely quiet in flight** and will stand up to pass throughs and tough use.

- **MICRO GLUE POCKETS / SUPERIOR HOLD**
- **FOR HUNTING AND TARGET SHOOTERS**
- **2.0" OR 2.2" AERODYNAMIC DESIGN**
- **EXTREMELY QUIET IN-FLIGHT**
- **MORE RETAINED ENERGY**
- **GREAT STABILIZATION / DURABILITY**
- **GREAT FOR CROSSBOW BOLTS**
- **GREAT ON ALL ARROW SHAFTS**

**DESIGNED BY  
AERONAUTICAL  
ENGINEERS FOR  
SUPREME FLIGHT  
CHARACTERISTICS**

**Made in U.S.A.**

Cat. No. 2822 Nitro Vane 2.0"

Cat. No. 2824 Nitro Vane 2.2" Low Profile

*\*Add color code (see list to left) and qty after Cat. No. to distinguish color choice & pkg. qty. (eg: 2822-W36 is a 36 pack of white.)*

Package Qty. Available: 36, 100, 1000

Color Codes:

**BK** (Black) - **R** (Red) - **BL** (Blue) - **NOR** (Neon Orange)  
**NG** (Neon Green) - **NPK** (Neon Pink) **PR** (Purple)  
**NY** (Neon Yellow) - **W** (White) - **TQ** (Turquoise)

# INSTANT ARROW GLUE

Pine Ridge Archery Instant Arrow Glue and Insert Glue are staples that archers and pro shops alike depend on. Our new cap design makes these great glues easier to work with and last longer since it screws on and off and includes an internal pin that keeps the bottle tip from clogging and hardening when not in use.

Instant Arrow Glue is an extremely cost effective adhesive. We worked hard to ensure that the consistency is just right:

## NOT TOO RUNNY NOT TOO THICK

- Setup time: 7-10 seconds.
- Works on: *carbon, aluminum, wood*
- Great for fletching and inserts.

- (A) Cat. No. 2601 Instant Arrow Glue 1 oz. Made in USA  
 (B) Cat. No. 2602 Instant Arrow Glue 2 oz.

## INSERT GLUE

Pine Ridge Archery Insert Glue adds the extra drying time needed for working with hidden inserts or when you want a little more impact resistance than a normal fast setting glue.

- Drying time: 90 sec.
- Impact Resistant
- Perfect for all inserts, even Hidden Inserts

- (C) Cat. No. 2610 Insert Glue 1/2 oz.  
 (D) Cat. No. 2611 Insert Glue 1 oz.

Made in USA

## REPLACEMENT BOTTLE TIPS

The fine tip option is for thin beads and those meticulous glue jobs. The fine tips are interchangeable with our fletching & insert glue bottles.

Cat. No. 2607 6 Fine Tips & Caps/pkg

# NITRO WRAPS

NITRO Wraps work with carbon, aluminum and wood arrow shafts. These premium wraps will customize the look of your arrows and aids in shot placement through better visibility.

The NITRO Wraps create a great bond with most fletching glues, especially the Pine Ridge Archery Instant Arrow Glue. Paired with NITRO Vanes, these wraps will be a great addition to your arrows.

- WORKS ON CARBON, WOOD & ALUM SHAFTS
- AIDS IN SHOT PLACEMENT
- CUSTOMIZE YOUR ARROWS
- (1" X 4") & (7/8" X 4") SIZE - 12 / PKG

- Cat. No. 2831 Nitro Wraps Small Carbon (4")  
 Cat. No. 2832 Nitro Wraps Standard Carbon (4")

Made in U.S.A.

\*Add color code to Cat. No. to distinguish color choice.

The "Slide On Kisser Button" does not have a slit in it like regular kissers, so you can slide it on the string (even over the loops at the end) for a secure fit that will not move. The Slotted version has a slit in the side allowing you to install the kisser by crimping or serving it on without removing the string from the bow.

# KISSER BUTTONS

## SLIDE-ON & SLOTTED

Both Kisser Buttons are made from a unique blend of materials that make them softer, yet super-strong, flexible and comfortable.

Made in U.S.A.

# XL KISSER BUTTONS

## SLIDE-ON & SLOTTED

### XL-SLIDE-ON or SLOTTED VERSION

11.6 Grains (approx)

The XL Kisser Buttons are great when extra feel and connection to the string is desired. When using a facemask or if you just want to "know it's there", the XL Kisser Button provides the extra diameter you are looking for. They are made with the same soft blend of durable material to last and offer comfort for every shot!

- Soft material will not rip or irritate the shooters' lip.
- Extra large diameter is great for shooters with face masks
- 13 Colors available

• Made in USA

Cat. No. 2801 Slotted XL Kisser Button (available 1/pkg. & 6/pkg.)  
 Cat. No. 2802 Slide-On XL Kisser Button (available 1/pkg. & 6/pkg.)

**PK** (Pink) - **PR** (Purple) - **Y** (Yellow)  
**TQ** (Turquoise)

Made from high impact resin for years of worry free use. The Feather Peep is one of the lightest peeps on the market, therefore it will not cost you valuable speed. Result...your bow can be faster with the Feather Peep than it can be with a heavier peep sight.

- ▶ **LIGHTWEIGHT / HIGH IMPACT RESIN**
- ▶ **DEEP STRING & SERVING CHANNELS**
- ▶ **38° ANGLE AT FULL DRAW FOR FULL VIEW**
- ▶ **3/16" & 1/4" APERTURES AVAILABLE**
- ▶ **9 COLORS TO MATCH YOUR ACCESSORIES**

Cat. No. 2570 Feather Peep (3/16" Aperture) 1/pkg.  
 Cat. No. 2571 Feather Peep (1/4" Aperture) 1/pkg.

**MADE IN USA**

# NITRO

## PEEP SIGHT & SILICONE TUBING

Made from high impact resin for years of worry free use. Self-aligning peep sight eliminates twisted peep upon draw, while the serving channel allows you to tie the peep in place. Included is color matching premium silicone tubing to insure a perfect alignment for each draw you make.

*\*Two diameters of silicone tubing available for a perfect fit!  
**\*\*3' lengths and 25' or 50' bulk spools also available.***

**AVAILABLE IN

# Z-38 Aluminum Peep

The Z-38 Peep sight is precision machined from 6061-T6 aircraft grade aluminum and is polished to insure there are no burrs or edges left to damage your string.

At 38 degrees, the peep provides an ideal angle at full draw for the archer. Our serving channel also allows the peep to be properly served to keep the peep in the string as well as not allowing it to move over time.

- Cat. No. 2565 Z-38 Peep (1/8" Aperture) 1/pkg.
- Cat. No. 2567 Z-38 Peep (3/16" Aperture) 1/pkg.
- Cat. No. 2568 Z-38 Peep (7/32" Aperture) 1/pkg.
- Cat. No. 2569 Z-38 Peep (1/4" Aperture) 1/pkg.

\*Add color code after Cat. No. to distinguish your color choice (eg: 2567-BK would be for black.)

**Color Codes:**

# SAWTOOTH stabilizer

The Sawtooth Stabilizer cuts vibration and noise while providing balance and style to your bow. At 5.5" long, the Sawtooth is perfect for hunting and target archers alike.

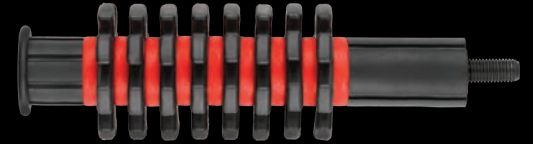

The solid rod construction gives true lock down power and the lightweight balance we all desire. Extra noise is cut by the Sawtooth dampeners and vibration is virtually eliminated by the colored Nitro Rings.

The subtle addition of color is not by accident. We designed this stabilizer to provide all the dampening and balance while offering a color matched look.

# REEL-A-STRAP

## 30' EQUIPMENT HOIST

The Reel-A-Strap is a must for serious treestand hunters. Our 3/4" strap forever eliminates "rope burns" and will never twist or knot up in the wind. It provides silent equipment retrieval – a second adjustable clip prevents gear from banging together – and a third clip attaches to your belt while climbing up and down your tree.

- 30 feet of strap.
- 4-inch spool for E-Z winding.
- Adjustable equipment clip.

Cat. No. 2534 Reel-A-Strap

Made in U.S.A.

2<sup>nd</sup> Adjustable Clip

# ARROW INSPECTOR™

## SPIN TESTER

When you want to check an arrow, nock or broadhead, you need a spinner that's perfectly balanced and absolutely friction-free. Otherwise you might get false readings. If they don't spin right, they won't fly right! The Arrow Inspector is a precision instrument designed to help insure a smooth and accurate arrow flight, every time. As bows increase in speed, accuracy becomes more and more critical.

The Arrow Inspector will check, with precise accuracy, arrow shaft straightness, broadhead balance and straightness, nock alignment and vane and feather balance. The Arrow Inspector features low friction machine cut steel axles and precision cut aluminum wheels - to detect even the slightest imperfection in an arrow shaft or unbalanced arrow.

### QUICKLY AND ACCURATELY CHECKS:

- Broadhead tip and ferrule straightness
- Insert straightness/balance
- Shaft straightness
- Vane/feather alignment
- Nock orientation

Made in U.S.A.

Cat. No. 2500 Arrow Inspector

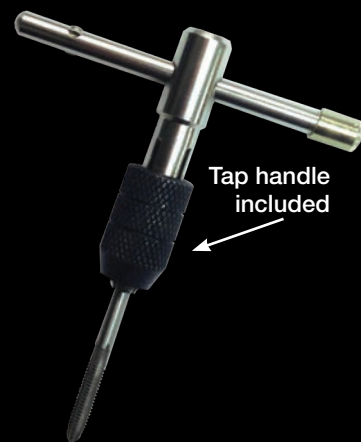

**IF THEY DON'T SPIN RIGHT...THEY WON'T FLY RIGHT**

# THREAD REPAIR TOOL

## TAP AND TAP HANDLE

Great tool for clearing paint and repairing threads on inserts, sights, rest, quivers, stabilizers and more.

Cat. No. 2508 Sight/Quiver Thread Repair Tool (10-24)  
Cat. No. 2509 Stabilizer/Rest Thread Repair Tool (5/16"-24)

# SERVING SCISSORS SET

## CURVED & STRAIGHT

Two essential tools for the shop. These lightweight scissors are great for peep tubing, string loop, serving or any other shop needs. The straight and curved tips give you multiple options when cutting in tight locations.

Cat. No. 2517 Scissors (Straight) & Scissors (Curved) Set. 1 ea./pkg.

# ARROW PULLERS

Pulling arrows can be a tough deal when you can't get a solid grip on it! Our two arrow pullers are made from a material that is more tacky and provides a secure grip. Each model, the flat Maxx Grip or the tubular Big Gripper can make a tough task much easier. Plus, the Big Gripper can be used to extinguish most lighted nocks and tighten 3 different sizes of field points!

*Carabiner included to easily attach to your belt or quiver.*

- Cat. No. 2503 Maxx Grip Arrow Puller 1/pkg.
- Cat. No. 2504 Big Gripper Arrow Puller-Black 1/pkg.
- Cat. No. 2504-R Big Gripper Arrow Puller-Red 1/pkg.
- Cat. No. 2504-OR Big Gripper Arrow Puller-Orange 1/pkg.
- Cat. No. 2504-LG Big Gripper Arrow Puller-Lime Green 1/pkg.

# TARGET PINS

## EASY PULL

The Pine Ridge Archery Target Pins are made from high strength material and work great with all foam archery targets on the market. The built in ring allows you to easily insert and remove the pin. Plus, the ring is great for attaching to your quiver for easy access when mounting a new target face.

**Made in U.S.A.**

- Strong material
- Great for foam targets
- Ring makes pulling pin easy
- Piercing tip for easy insertion
- Use your caribiner to attach pins to quiver

- Cat. No. 2835 Target Pins 4/pkg
- Cat. No. 2835-100 Target Pins 100/pkg

# HUNT-N-GEAR EQUIPMENT HANGER
