PXL Hunter Peep
#PXLHBLK
Black

**Deep Perimeter Groove
For Easy Securing Of
Peep Into String**

**MACHINED
ALUMINUM PART**

**US Patents #D869591,
#10,161,719 and other
Patent Pending**

- The most advanced peep system in the archery industry!
- The PXL Hunter Peep has many similarities to the Podium Peep™.
- **CST - Center String Technology** - Aperture located on center of bowstring – prevents L and R misses.
- **PLT – Protected Lens Technology** – Clarifiers and Verifiers protected by Polycarbonate on 2 sides prevents damage to lenses.
- **DSAT - Dual String Angle technology** – has both 37 and 45-degree string angles on the same peep housing.
- **NEW “Capture Aperture” technology** uses **LRT - Lens Retention Technology** to prevent dropping of Verifier or Clarifier lenses!
- Clarifier or Verifier lens snaps gently into place in the Capture Aperture, but can still be removed for easy cleaning!
- PXL Hunter Peep weight: 30.5 grains.

PXL Hunter Peep Shade Cap

#PXLHPS

- Screws into target side of PXL Hunter Peep to reduce glare.
- PXL Hunter Peep Shade Cap weight: 3.0 grains

PXL Hunter Capture Apertures

Non-Glare Material
When Used With A Lens, The Non-Metal Surfaces Protect The Lens From Chips Or Cracking

- The new PXL Hunter Peep still uses **TAP – Tool-less Aperture Technology** - Knurled Tool-less aperture eliminates the need for an aperture wrench.
- NEW “**Capture Aperture**” technology uses **LRT - Lens Retention Technology** to prevent dropping of Verifier or Clarifier lenses!
- Clarifier or Verifier lens snaps gently into place in the Capture Aperture, but can still be removed for easy cleaning!
- Capture Apertures can be used with or without a Clarifier or Verifier lens installed.
- PXL Hunter Peep Capture Aperture weight: 7.5 grains.

PXL Hunter Capture Aperture Kit #PXLHAKT

- NEW “**Capture Aperture**” technology uses **LRT - Lens Retention Technology** to prevent dropping of Verifier or Clarifier lenses!
- Fits into PXL Hunter Peeps only.
- Includes all 3 PXL Hunter Capture Apertures: 1/4”, 3/16” and 5/32”.

US Patents #D869591, #10,161,719
and other Patent Pending

Pro Stix Stabilizers & Weights

- Specialty Archery's Pro Stix stabilizer is our most advanced tournament style stabilizer to date.
- It is made from an ultra-stiff, high-modulus carbon which offers the perfect blend of rigidity and vibration dampening.
- The machined aluminum base also has a built-in Quick Disconnect system for easy removal of stabilizers and side rods from the bow.
- Interchangeable weights allow for perfect balance of any setup. (Weights not included.)
- Stabilizer Rod lengths are 24", 30", and 36".
- Side/V-bar Rod lengths are 10", 12" and 15".
- Weights available in 0.5 oz., 1.0 oz. and 4.0 oz. configurations.
- Weights are also available in a kit with the following weights, which allows the shooter to add up to 7.5 oz. of weight:
 - 1 - 4 oz. weight
 - 3 - 1 oz. weights
 - 1 - 0.5 oz. weight

#10PSX-BLK (10") (6.0oz)
#12PSX-BLK (12") (6.3oz)
#15PSX-BLK (15") (6.7oz)

#30PSX-BLK (30") (8.6oz)
#36PSX-BLK (36") (9.4oz)

Pro Stix Weight Kit

#PSXWK

Includes:

- 1 - 4.0 oz. weight
- 3 - 1.0 oz. weight
- 1 - 0.5 oz. weight

Pro Stix Individual Weights

#05PSXW (0.5 oz.)

#1PSXW (1.0 oz.)

#4PSXW (4.0 oz.)

How Does The Peep System Work?

Large 1/4" Size Peep Housing

- Accepts all current 1/4" Verifiers & Clarifiers.
- Accepts all 1/8" and smaller Verifiers, Clarifiers & Apertures with use of Peep Reducer (#753-3).
- Comes with a Peep Reducer (#753-3) and a Dual Aperture Wrench (#210078).
- The most popular Specialty Archery Peep for hunting.
- Available in Black, Blue, Green, Red, Camo, Pink, Purple & Silver.
- *Note: 1/4" peeps are only available in 37 degree string angle.*

Optically Centered Technology

- Industry leading centration standards.
- What this means is every Clarifier lens at Specialty Archery is held to industry leading tolerances.
- Perfectly centered image.
- Improved centration eliminates rotational image shift.

Layered Coating Technology

- Never before has so much technology gone into a lens of this size. Each Clarifier Lens is fully multicoated for superior anti-reflection in all lighting conditions.

Versa Scope & Versa Scope 3D

- The Versa Scope accepts both Specialty Archery 1.345" diameter as well as 1.275" diameter lenses.
- Dual ledge lens pocket accommodates both lens sizes.
- Comes with the Double Vision Lens Retaining Ring (uses 1.108" Double Vision Lens) for use with the Double Vision lens system. (See pages 25-26.)
- Accepts the Specialty Archery Glow Pin (GP1) in .010", .020" or .030" diameter. (See page 24.)
- Glow Pin can be positioned as an up pin, a down pin, or side pin. (Pin must be mounted opposite 10/32 scope mounting rod.)
- Scope outside diameter of 1.625"; inside diameter (field of view) of 1.000".
- Easily converted from RH to LH by changing position of the 10/32 scope rod.
- Yellow Level (#637Y).
- Available in black only.

- The Versa Scope 3D accepts 1.720" - 1.750" diameter lenses.
- Accepts the Specialty Archery Glow Pin (GP2) in .010", .020" or .030" diameter. (See page 20.)
- Glow Pin can be positioned as an up pin, a down pin, or side pin. (Pin must be mounted opposite 10/32 scope mounting rod.)
- Scope outside diameter of 1.990"; inside diameter (field of view) of 1.585".
- Easily converted from RH to LH by changing position of the 10/32 scope rod.
- Yellow Level (#637Y).
- Available in black only.
- *Note: Versa Scope 3D does not accept the Double Vision System.*

Uses Glow Pin #GP2

1 3/8" Super Scope Kit

- The Specialty Archery Super Scope Kit is a great introduction scope and lens kit.
- Features the X-Focus 365 #365PC lens in 2x, 4x, 6x & 8x powers. (See page 22.)
- Clear 1 3/8" (#040-2) polycarbonate scope housing. (See page 20.)
- Compatible with Double Vision Lenses. (See page 26.)

Custom Lenses

- Specialty Archery is now a X-Focus 365 Lens supplier!
- X-Focus 365 offers superior coatings and optical centration of lenses.
- Super-hydro and super-oleophobic coatings to repel water, oils and grime on all lenses!
- Superior coatings also are super resistant to surface scratches.
- Custom sizing available.
- 2x, 4x, 6x & 8x available.
- The #365PC and the #365CL can be center drilled in various sizes to accommodate glow fiber.
- Custom sizing and drilling for fiber optic available. (Custom sizing and drilling are in addition to lens price.)

#365PC

- Super Hydro AR coated Polycarbonate lens.
- Premium aspheric optical performance in a polycarbonate lens.
- Super-hydro and super-oleophobic coating chemistry repels water, oils and grime.
- Easy to clean with advanced hydro & oleophobic topcoat. Anti-static coating keeps lens cleaner longer.
- Tough scratch resistance extends the life of the lens.

#365CL

- Made from a unique lightweight composite material that provides superior clarity in a non-glass lens.
- Improved aspheric design and light management properties provide nearly the same optical characteristics as high end glass lens.
- Super-hydro and super-oleophobic chemistry repels water, oils and grime.
- Easy to clean with advanced hydro & oleophobic topcoat. Anti-static coating keeps lens cleaner longer.
- Tough scratch resistance extends the life of the lens.
- The toughest, clearest, sharpest non-glass lens available.

007 Super Bright Sight With Fiber Kit

- 7 different colors: **Green**, **Blue**, **Light Blue**, **Red**, **Amber**, **Violet**, & **White**.
- Variable brightness adjustment.
- Automatic shut-off after 5 minutes to prolong battery life.
- Operates on one AAA battery (lithium batteries recommended).
- Battery life can be tested by pressing and holding the ON button.
 - Green = battery is new
 - Blue = battery is mid-life
 - Red = battery is low, replace
- Estimated alkaline battery life is 6.5 hours for full brightness. 78 cycles at 5 minutes each.
- Memory function – stores the color and brightness.
- Weighs 1.6 oz. with battery.
- For use on all Specialty Archery scopes.
- Compatible with other manufacturers' scopes that use a fiber optic sight pin.
- Fiber Kit now included!

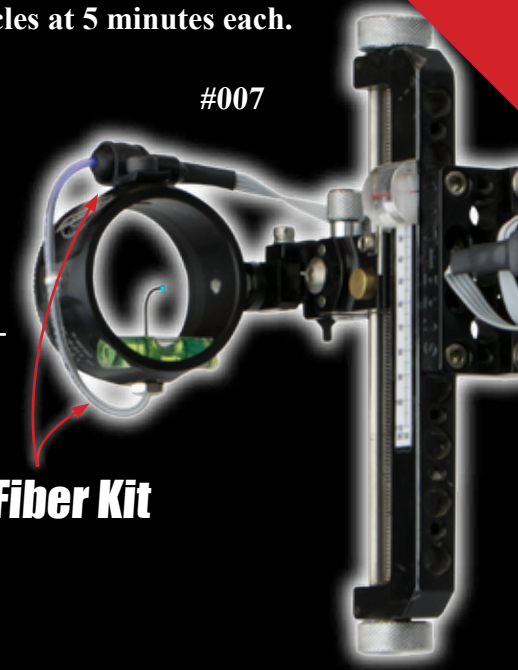

Super 7 Bright Sight With Fiber Kit

#007

7 Selectable Colors

#007

007 Fiber Kit

#FBK-007

Fiber Kit

- Allows use of Specialty Archery 007 Super Bright Sight with Specialty Archery and other manufacturers' scopes.
- Replaces the fiber in your existing sight pin with the clear fiber in the Fiber Kit.
- Easily converts a standard Glow Ring (GR) or Versa Scope to accept the 007 sight.
- Includes 8" of .010", .020" & .030" clear fiber optic & clear protective shroud.
- Aluminum Fiber Adapter & Compression Washer for attaching fiber optic.
- Clamp & Bolt for mounting.

007 LED Replacement Cable

#007-LC

- Allows the #007 to be used on multiple scope housings.
- Replaceable LED Cable for #007 Super Bright Sights.

007 LED Bright Blue Light Cable

#007-LB

- Brighter "Blue only" light cable for the 007.
- Does NOT work with alternate 007 colors.
- Brighter than standard 007 cable.

007 Axcel Adapter

#007-AXC

- Allows the use of the #007 Super Bright Sight with your Tru-Ball Axcel Scope.
- Adapter screws directly into the threaded end of the Axcel YCS scope mounting connector.

**Axcel Adapter shown attached to scope and #007.*

1 Glow Ring...

...3 Fiber Colors Included!

- Specialty Archery's Glow Ring (GR) now has easily replaceable fiber and includes an easily replaceable Glow Pin (GP), allowing the archer to customize both fiber color and pin diameter.
- Glow Pin protects fiber from damage.
- Fiber colors are easily interchangeable without the use of tools.
- Clear fiber shroud allows maximum light transmission to the fiber, allowing for maximum pin brightness.
- Available in .010", .020" or .030" diameter.
- Each Glow Ring includes 8" of red, green & blue fiber optic.
- Glow Pin can also be replaced if the archer desires to change pin size without the need to purchase an additional Glow Ring.

Core Archery By Larry Wise

#01-100

- Larry Wise is one of the top archery coaches in the world.
- Learn tips and tricks that will help target and bowhunters alike.
- Backtension.
- Improve aiming.
- Many other accuracy-improving subjects.

Vibra-Tite

#VC3

- Locks & seals threaded fasteners of virtually any size.
- Utilizes a special blend of acrylic resins to prevent fasteners from loosening.
- Works well for many archery applications.
- Range: -65°F to +165°F

1-800-555-2856 ~ www.specialtyarch.com

Quick Range

- Specialty Archery's Quick Range Rangefinder Mount is the only rangefinder mount that allows you to use your regular rangefinder mounted directly to your bow (or crossbow).
- Works with most rangefinders and bows.
- Mounts to bows using standard sight mounting holes. May be placed between sight and riser, or on outside of sight.
- Eliminates excess noise and movement associated with using a traditional rangefinder.
- Includes strap and adhesive cushion for mounting rangefinder.
- Bow mount available in black or camo.
- Crossbow mount available in black.
- Available RH or LH.
- Quick Range Rangefinder Crossbow Mount - for mounting to crossbow scope picatinny rails.
- *NOTE: Check your state regulations for legality of bow-mounted electronics.*

Super Server 2500

- Serves up to 2500 RPM; twists up to 600 RPM.
- Foot Pedal - easy stop and start.
- Memory function allows the user to store up to 64 settings for future use.
- Repeat & infinite turns functions.
- Larger air cylinder allows tensioning of strings up to 450#. (Compressor not included.)
- Light Beam Safety Sensors allows rapid stoppage of motors.
- Emergency Stop Switch completely powers off both motors.
- Easily mounts to standard 1 5/8" x 1 5/8" Unistrut. (Unistrut not included).
- Twists bowstrings evenly from both ends to ensure an even twist rate throughout the bowstring.
- Quick release air valve.
- Laser engraved marks on bases for quick string measurement.
- Can also serve as a jig for laying up bowstrings.
- Includes (1) Aluminum Jig Spool (#AJS).

Foot Pedal Included!
#SS-FP

**Aluminum Jig Spool
Included!**
#AJS

Super Server 2500
#SS-2500

**Unistrut Not Included.*

Super Server 800

- Easily mounts to standard 1 5/8" x 1 5/8" Unistrut. (Unistrut not included).
- Serves up to 800 RPM; twists up to 300 RPM.
- Optional Foot Pedal (#SS-FP) available.
- Repeat & infinite turns functions.
- Ability to store 64 individual memory files.
- Lays down a perfect serving every time.
- Twists bowstrings evenly from both ends.
- Uses air cylinder to ensure bowstring stays at a constant tension when serving or twisting.
- Can tension up to 375# with the use of 150 psi air compressor. (Air compressor not included).
- Can also serve as a jig for laying up bowstrings.
- Quick release air valve.
- Laser engraved marks on base plates for quick measuring of strings.
- Can wind bulk serving material onto jig spools with the Bobbin Attachment (#SS-BA).
- Includes (1) Aluminum Jig Spool (#AJS).

**Aluminum Jig Spool
Included!**
#AJS

Super Server 800
#SS-800

**Unistrut Not Included.*

**SS-800 may also be purchased
as a kit. #SS-800-KT Includes:**

- (1) Super Server 800 (#SS-800)
- (1) Bobbin Attachment (#SS-BA)
- (3) Quick Stretch 350's (#QS-350)
- (1) Manifold Kit (#SS-QS-MK)
- (1) Foot Pedal (#SS-FP)
- (1) Remote Display Cradle (#SS-RC)
- (1) Tool Tray (#SS-TT)
- (1) Note Pad (#SS-NP)
- (1) String Separators (#SS-SS)
- (1) Building Bowstrings DVD (#SS-DVD)

Bobbin Attachment #SS-BA

- Mounts onto exposed shaft of SS-800 motor.
- Allows for spooling jig serving spools from bulk serving material spools.
- Spins up to 800 rpm.
- Wing nut keeps jig serving spool in place.

29 *Not compatible with the SS-2500.*

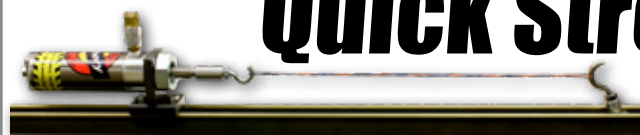

Foot Pedal #SS-FP

- Hands free activation of SS-800 and SS-2500 motors for twisting and serving.
- Plugs directly into SS-800 and SS-2500 Power Supply Box.
- *Not compatible with the SS-600.*

Quick Stretch 350

Quick Stretch 350
#QS-350

**Unistrut Not Included.*

- Great addition to the Super Server serving machines.
- Uses air cylinder to ensure bowstring is stretched at a constant tension.
- Can tension strings up to 375# when using a 150 psi air compressor. (Air compressor not included).
- Can connect multiple Quick Stretch 350 string stretching machines with the use of the manifold kit (#SS-QS-MK).

Manifold Kit

#SS-QS-MK

- Kit includes: ¼ NPTF Quick Coupler, manifold attachment, 25' air hose, fittings and plugs.
- Allows a single input air line to be split up to 4 output lines.
- For use with all Super Servers & #QS-350's.

*Manifold Kit shown with SS-800 & 3 QS-350's.

Ring Blade

#RB-BLK

- Cuts all types of serving, bowstring, and even tough string loop material.
- Two stainless steel rust-proof blades ensure quick cutting.
- Velcro strap fits most finger sizes and allows ring to be worn or mounted to any round surface up to 1" in diameter.

Super Server String Separators (2/pkg)

#SS-SS

- String Separators allow for easy separation of bundles when building bowstrings.
- Rounded edges for easy installation & removal from bowstring.
- Keeps the individual halves of the bowstring properly separated when twisting.
- Can also be used to separate halves of the bowstring for peep installation.

10 Port Manifold Kit

#SS-QS-MK-10

- Kit includes: ¼ NPTF Quick Coupler, manifold attachment, 75' air hose, fittings and plugs.
- Allows a single input air line to be split up to 10 output lines.
- For use with all Super Servers & #QS-350's.

Super Server Tool Tray

#SS-TT

- Provides a convenient place to store your tools when building strings.
- Mounts securely into Unistrut channel.
- Multiple mounting possibilities.
- All metal construction & a black powder-coated finish.
- 10" self-adhesive magnetic strip included.
- Measures 14" x 4" x 1".

Super Server Note Pad

#SS-NP

- Keep your string specs easily visible.
- Easily mounts to Tool Tray (#SS-TT) with included hardware.
- Multiple mounting possibilities.
- Usable area measures 8.5" x 12".
- All metal construction with a black powder-coated finish.

*Tool Tray & Note Pad shown mounted together.

Remote Display Cradle

#SS-RC

- Great addition to the Super Server.
- **Remote Cradle works with all Super Server Remote Displays.**
- Fits into channel on unistrut & holds Remote Display securely, yet allows for quick & easy re-positioning.
- Comes in a black powder-coated finish.

*Shown with SS-800 Remote Display.

Aluminum Jig Spool

#AJS

- Aluminum construction is more precise than molded jig spools.
- Allows for smoother, more consistent serving payout, resulting in a more consistent bowstring.
- Mounts to all hand serving jigs.

Building Bowstrings With the Super Server

Streaming Service

#SS-VID

*Available online only at www.specialtyarch.com

DVD

#SS-DVD

- Direct from Specialty Archery, we demonstrate the process of building the perfect bowstring on the Super Server Serving Machines.
- Over an hour of instruction on how to build strings and cables on the Super Server Serving Machines.
- You'll learn what equipment to use, how to lay up strings and cables, twisting, how to check for peep rotation, how to determine string/cable length, serving and many other tips and tricks that will guide you to make your own bowstrings!
- If you're already a string builder looking at refining your methods for use on the Super Servers, or just looking at getting into string building, this is the video for you!

Super Server Replacement Equipment

Super Server Clamp

Handle

#SS-CH

- Replacement Clamp Handle for all Super Servers.
- *Sold individually. (NOT per pair).*

String Equipment Valve

#SS-VL

- Replacement Valve for all Super Servers or Quick Stretchers.

Super Server Tape Measure

#SS-TM

- Adhesive replacement Tape Measure for Super Servers.
- Numbered from left to right. 12' x 1/2".

Serving Jig Winder

#SS-SW

- Specialty Archery's Serving Jig Winder is the fastest way to spool up hand serving jig spools from bulk spools.
- Works with all bulk serving spools.
- Easy to use.
- Safe.
- Serves a hand jig spool in less than a minute.
- Easy to use foot pedal operation.
- Drag system ensures even tension on spool.
- NOTE: product component colors may vary from picture.

*Bulk serving spool and Jig Spool not included.

Hunt Saver Crossbow Press

#SA-XP

Patent #10,408,559

- Can change a crossbow string in a matter of minutes.
- Can save your hunt!
- Works on most COMPOUND crossbows that employ a CRANK to draw (EXCEPT crossbows less than 16" axle to axle).
- Does NOT work on recurve crossbows.
- Comes with padded protective carrying case.
- Want a great tip? When you replace your strings, be sure to keep your original strings in the case along with the crossbow press in case of an emergency!
- Compact, portable, and easy to use!

Pro Press Hex Conversion Kit

#PRP-HX

- The Pro Press Hex Drive Conversion Kit allows you to convert your original X-Press flat-style crank handle to the same 9/16" Hex Drive system found on the current Pro Press and Pro Draw.
- Allows the same Hex Drive Crank Handle to be used on both the press and the Pro Draw.

Pro Press Conversion Kit

#PRP-CK

- The Pro Press Conversion Kit allows the user to convert the original Sure-Loc X-press for use with the Pro Press Limb Ears.
- Limb Ears offer increased flexibility in placement as well as reduced stress on the bow limbs and riser.
- Increased ease in mounting and use of the Specialty Archery Pro Draw to create the ultimate bow tuning press and draw board system.
- Includes new Safety Straps.
- *NOTE: The Pro Press Conversion Kit does NOT include the Hex Drive Crank Handle or the Hex Drive shaft found on the Specialty Archery Pro Press. Also available is the Pro Press Hex Drive Conversion Kit (#PRP-HX) which allows you to convert your original X-Press flat-style crank handle to the same 9/16" Hex Drive system found on the current Pro Press and Pro Draw. Allows the same Hex Drive Crank Handle to be used on both the press and the Pro Draw.*

From this...

To this!!!

US Patent #8,505,523 B1

Limb Slider Safety Pins

- Limb slider safety pins prevent the limb slider from being forced upwards on the swing arm when pressing past-parallel limb bows.

Adjustable Limb Ears

- Limb Ears rotate on a splined shaft and can be easily adjusted inward and outward to fit any limb configuration.
- Ear Tabs prevent damage to bow limbs.

Pro Press
#PRP

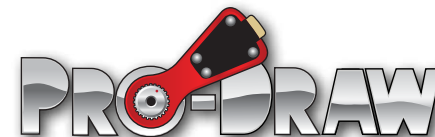

Safety Straps

- Safety Straps prevent the bow from being forced downward while pressing past-parallel bows.

Timing Collar

- Adjustable Timing Collar allows the user to synchronize the Limb Ears to touch the bow limbs at exactly the same time.

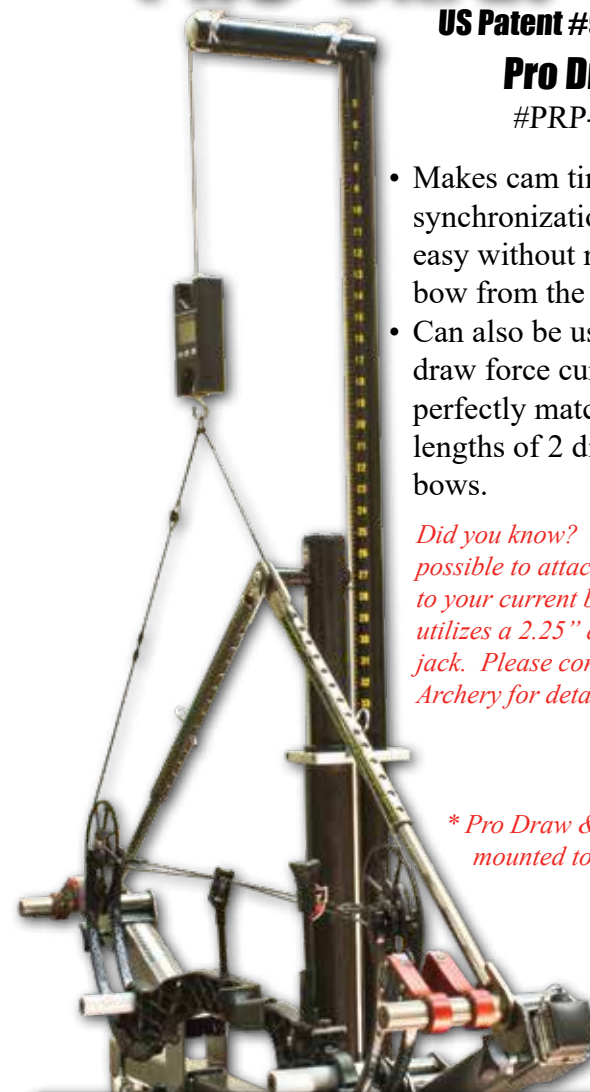

US Patent #9,360,267

Pro Draw
#PRP-PD

- Makes cam timing/synchronization quick and easy without removing the bow from the press!
- Can also be used to plot draw force curves or to perfectly match the draw lengths of 2 different bows.

Did you know? It may be possible to attach the Pro Draw to your current bow press that utilizes a 2.25" diameter center jack. Please contact Specialty Archery for details.

** Pro Draw & Scale shown mounted to Pro Press.*

Pro Press & Pro Draw may also be purchased as a kit.

#PRP-KT Includes:

- (1) Pro Press (#PRP)
- (1) Pro Draw (#PRP-PD)
- (1) Pro Press Stand (#PRP-ST)
- (1) Pro Press Serving Jig (#PRP-SV)
- (1) Pro Press Trays (PRP-TR) sold per 2
- (1) Pro Press Scale (#PRP-SC)

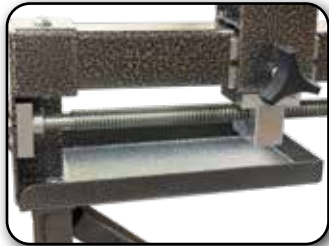

Optional Pro Press/Pro Draw Equipment

Pro Press Stand #PRP-ST

- Allows your Pro Press to be free-standing. The perfect complement to your Pro Press.

Pro Press Trays (Sold Per 2) #PRP-TR

**Tray shown attached to Pro Press.*

- Provides a convenient place to hold tools or other items when working on bows.
- Multiple mounting options.

Pro Press O'Ring Band #PRP-OR

- Replacement O' Ring for Pro Press & Pro Draw Stand.

Pro Press Serving Jig #PRP-SV US Patent #8,387,600 B1

- Allows for quick and easy repair of servings without removing the string or cable from the bow.
** Serving Jig shown in use on the Pro Press.*

Pro Press Safety Straps (Sold Per 2) #PRP-SS

**Pro Press Safety Straps shown in use.*

- The Pro Press Safety Strap is a replacement strap for the existing Limb Safety Clips and Split Limb Safety Clips.
- Holds any bow securely in the Pro Press.
- Easy to use.

Pro Press Replacement Ear Pads #PRP-EP

- 4 Ear Pads included in each package.
- Black Rubber (#PRP-EP) or White Poly (#PRP-PP).
- Easy to replace.

Pro Draw Stand #PRP-DS

**Pro Draw shown attached to Pro Draw Stand.*

- The Pro Draw Stand mounts to a workbench or table top and allows the Pro Draw to be used without the Pro Press.
- The grip section has a cushioned covering to prevent damage to bow's handle.

Pro Press Scale #PRP-SC

- Measures from 0 to 600 pounds (300kg) in 0.2 pound (100g) increments.

Premium Quality Arrow Rests

2020 PRODUCT CATALOG

WWW.BODOODLEUSA.COM

Switchblade

The heart of the Switchblade Arrow Rest is the frame, allowing you to change out Yokes to fit your situation.

Switchblade Hunter

#SBH (RH or LH) BLK

Switchblade Target

#SBT (RH or LH) BLK

Proven technology from our Pro Lite II, the Switchblade Hunter is the perfect choice for the field and the range, offering superior tunability and durability. The Switchblade Hunter comes complete with .015" Speed fins installed, and a pair of .015" Hunter Fins to allow the archer freedom to set up this rest as you see fit.

The Switchblade Target was born for the tournament trail. We took the design from our Timber Rattler II and made the frame wider & taller to accommodate larger arrows & taller fletchings for easy clearance. The pivoting yoke allows you to tune your blade like never before with the spring tension on the side of the rest.

Switchblade Yokes

Simply back out the cone screw on the Pivoting Yoke and switch it out with either the Hunter Yoke or the Target Yoke. One rest - two Yoke options!

Hunter Yoke

#SBHY-BLK

*.015" Speed & Hunter Fins included!

Target Yoke

#SBTY (RH or LH) BLK

*.010" & .012" Lizard Tongues included!

.010" Tongue .012" Tongue

Extra wide/deep frame allows larger diameter arrows & tall fletching to clear with ease with either the Hunter or Target Yoke system.

Hunter Yoke

Target Yoke

Pivoting Yoke

Switchblade Hunter

#SBH (RH or LH) BLK

Speed Fins

Hunter Fins

*.015" Speed
& Hunter Fins
included!

- Wider and taller frame for added clearance of vanes over our Pro Life II.
- Will mount on most compound bows & will accommodate all arrow sizes & materials.
- With the purchase of the Target Yoke (#SBTY), the Switchblade Hunter rest can be converted to a Switchblade Target in seconds.
- Lightweight at 4 ounces and is made of rugged 6061 T-6 aluminum.
- Adjustable windage and elevation for perfect arrow flight in seconds.
- Features a zero play frictionless yoke assembly & jewel-like bearings for extremely quiet and worry-free shooting.
- "Smoke Quiet" silencing tape included to ensure a quiet draw when hunting.
- Over 1" of elevation adjustment.
- Comes standard with 2 stainless steel .015" thickness Speed Fins & 2 stainless steel .015" thickness Hunter Fins. Other Fins available.
- Right or left handed.
- Available in black.

Hunter Fins

- #HRF-015 .015" Thickness Hunter Fins (arrows under 550 grains).
- #HRF-023 .023" Thickness Hunter Fins (arrows over 550 grains).

Speed Fins

- #SRF-015 .015" Thickness Speed Fins (arrows under 550 grains).
- #SRF-023 .023" Thickness Speed Fins (arrows over 550 grains).
- #SRF-028 .028" Thickness Speed Fins (arrows over 600 grains).

Switchblade Target

#SBT (RH or LH) BLK

.010" Tongue

.012" Tongue

*Both Lizard Tongues included!

Cousins Best Blade .200" Width Tips

- #CBB-008 .008" For arrows up to 325 grains.
- #CBB-010 .010" For arrows from 325 to 425 grains.
- #CBB-012 .012" For arrows over 425 grains.
- *Made from Spring Steel; resistant to bending & cracking.

Cousins Best Blade Wide .375" Width Tips

- #CBW-008 .008" For arrows up to 325 grains.
- #CBW-010 .010" For arrows from 325 to 425 grains.
- #CBW-012 .012" For arrows over 425 grains.
- *Made from Spring Steel; resistant to bending & cracking.

Stainless Steel Lizard Tongue

- #LT-010 .010" - For arrows from 325 - 425 grains.
- #LT-012 .012" - For arrows over 425 grains.

- Perfect for competition shooting.
- Mounts to most compound bows & accommodates all arrow sizes & materials.
- Stainless Steel .010" & .012" Lizard Tongues with built in vibration dampener comes standard. * The .010" Lizard Tongue comes installed on the rest.
- Fully adjustable yoke system allows the shooter to tune the blade by adjusting the spring tension on the yoke.
- Classic Bodoodle design has a protective guard to prevent damage to your launcher.
- Also compatible with the Cousins Best Blades.
- Left or right handed.
- Available in black.

Pro Lite II *While Supplies Last

Pro Lite II
#PL2 (RH or LH) BLK

- Compensates for all forces exerted on an arrow at launch and speeds the arrow on its way without interference.
- Will mount on most compound bows & will accommodate all arrow sizes & materials.
- Lightweight at 3.5 ounces and is made of rugged 6061 T-6 aluminum.
- Adjustable windage and elevation for perfect arrow flight in seconds.
- Features a zero play frictionless yoke assembly & jewel-like bearings for extremely quiet and worry-free shooting.
- "Smoke Quiet" silencing tape included to ensure a quiet draw when hunting.
- Over 1" of elevation adjustment.
- Comes standard with 2 stainless steel .015" thickness Speed Fins.
- Other fins available.
- Right or left handed.
- Available in black.

Hunter Fins

- #HRF-015 .015" Thickness Hunter Fins (arrows under 550 grains).
- #HRF-023 .023" Thickness Hunter Fins (arrows over 550 grains).
- * Fins include 4 strips of Smoke Quiet Tape

Speed Fins

- #SRF-015 .015" Thickness Speed Fins (arrows under 550 grains).
- #SRF-023 .023" Thickness Speed Fins (arrows over 550 grains).
- #SRF-028 .028" Thickness Speed Fins (arrows over 800 grains).
- * Fins include 4 strips of Smoke Quiet Tape

Bullet

- Compensates for all forces exerted on an arrow at launch & speeds the arrow on its way without interference.
- Lightweight at 2.3 oz & made from rugged 6061 T-6 aluminum.
- Features a zero play pivoting yoke assembly for extremely quiet & worry-free shooting.
- Will mount on most compound bows & will accommodate all arrow sizes & materials.
- Comes standard with 2 stainless steel .015" thickness Speed Fins.
- Other fins available.
- Includes 4 strips of "Smoke Quiet" silencing tape to ensure a quiet draw when hunting.
- Right or left handed.
- Available in black.
