PERFORMANCE. DUTY. PISTOL.

Walther PDP: The best performing duty pistol build by the German premium gunmaker. The new definition of high-end Walther performance, being defined by the trigger, ergonomics, and modularity.

The brand new Performance Duty Trigger has a wall that breaks like glass at 25N, the basis for accurate shooting.

The incredible result is a highly precise trigger control in any situation. A short reset delivers continuous top performance for every shot. The ergonomics of the new PDP are as convincing as the trigger.

It is an overall composition of grip design, slide design, total weight, weight distribution, and balance.

The result is an unparalleled natural pointability.

The PDP points precisely to the "central vision" of the master eye. A decisive advantage when fractions of a second are needed in critical situations!

PDP
PERFORMANCE. DUTY. PISTOL.

WALTHER
PDP 9mm

PERFORMANCE. DUTY. PISTOL.

All PDP models come optics ready and are co-witness ready. The full-length dust cover with Picatinny accessory rail made for thoroughgoing service use.

Other highlights include the unique surface texture of the grip and the design of the slide serrations:

The unique tetrahedron structure of the grip's "Performance Duty Texture"

delivers proper grip performance of the PDP's ergonomic grip. With gloves or without. Under harshest weather conditions.

The SuperTerrain Serrations deliver the same performance with protruding front and rear slide serrations. The arrangement of the controls is Walther-typical and user-oriented: The focus of attention is the target. The manipulation of the pistol comes intuitively.

The Walther PDP is build for duty from the start:

The PDP Full size is available with 4", 4.5", or 5" barrel and the PDP Compact with 4" and 5" barrel length.

POWER. FORGED IN STEEL.

Breaking boundaries and shattering expectations. The Walther Steel Frame Series is superior performance taken to the next level through heightened functionality and a relentless determination to deliver precisely what the experienced shooter demands. The real competitive edge begins here.

The Q-Series Steel Frame is a remarkable triumph made possible only by Walther's superior standards. Despite common misconceptions, you can buy performance.

EXPERT |

Q4 STEEL FRAME (PS)

Outmatched by no one. Walther continues their tradition of superiority with a handgun designed specifically for those who only buy the best and nothing less. This is the ultimate representation of high-class performance in a concealed carry package that just can't be found anywhere else. A testament to Walther's enduring legacy of excellence, the Q4 Steel Frame delivers peak performance when you need it most. Featuring Walther's legendary barrel, phosphoric sights as well as front and rear slide serrations, the advantages this handgun delivers are undeniable.

Q4 STEEL FRAME OPTICS READY (OR)

A feat in firearm engineering that simply must be felt to be believed, the Walther Q4 Steel Frame OR will surpass all expectations with its unrivaled accuracy and performance. Its steel frame – precision machined from solid steel billet – improves ergonomics with a wrap-around grip panel, beavertail, full length Picatinny rail and recessed slide release. The weight distribution of the Walther Steel Frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency. Featuring Walther's legendary barrel, LPA serrated adjustable duty sights as well as front and rear slide serrations, plus the option for optics when the situation demands it. Get yours today and shoot with the best.

Q5 MATCH STEEL FRAME

The Q5 Match Steel Frame is a testament to the level of excellence found solely at Walther. Its steel frame – precision machined from solid steel billet – improves ergonomics with a wrap-around grip panel, extended beavertail, full-length Picatinny rail and recessed slide release. The weight distribution of the Walther Steel Frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency. A modern work of art in its own right. The slide is outfitted with features previously found only on custom handguns. It is ported and optic ready, with LPA sights as well as front and rear slide serrations. Walther's superior accuracy is quickly realized when shooting thanks to the 5" barrel with polygonal rifling and stepped chamber.

Q5 MATCH STEEL FRAME CHAMPION

Breaking boundaries and shattering expectations. The Q5 Match Steel Frame Champion is superior performance taken to the next level through heightened functionality and a relentless determination to deliver precisely what the experienced shooter demands. The Q5 Match Steel Frame Champion comes standard with flared magwell, extended basepads, and adjustable sear engagement. The real competitive edge begins here. Despite common misconceptions, you can buy performance.

Q5 MATCH STEEL FRAME EXPERT

To exceed your expectations. To follow your ambitions. To go beyond borders. Forget what you thought you knew about competition handguns. Supremacy of functional design and exceptional performance delivering a superior championship caliber product specifically aimed at the experienced shooter! The Q5 Match Steel Frame Expert draws its extra edge from its enhanced trigger. It's literally the best trigger on a striker fired gun ever made. 20 Newton pull out of the box, with adjustable take-up and trigger stop. A perfect trigger pull counts when the timer is ticking and your heart beats fastest. A competition trigger in pure culture.

Q5 MATCH STEEL FRAME Black Ribbon

The Ulm based company continues the success story of the Q5 Match Steel Frame and stakes new claims towards highest sportiness with its "Black Ribbon" pistol. The youngest member of the pistol family is wrapped in a touch of black. It was born with the approval for the IPSC Standard Division. Besides, after removing the anodized low-profile magazine funnel, this 9 mm pistol can also be a winner in the production class.

The "Black Ribbon" offers the shooter a wide range of flexibility as soon as the case is opened: three 18-round magazines, fiber optic front sight plus shaded, click-adjustable rear sight and it is optics ready. Three mounting plates are included to allow the installation of a variety of popular red dot sights.

Q5 MATCH SF Special Editions

The Q5 Match SF Editions: aesthetically already staking their claim as a legend. These valuables are unmistakable eye-catchers that set standards second to none. This is reflected inside and in the technical properties without any compromises: Superior trigger characteristics and ultimately better hitting as a consequence of Walther's Dynamic Performance Trigger. This competition trigger with its distinctive aluminum finger rest is made for dynamic shooting: short take-up, little over-travel and fast reset. At the point of release, the trigger with its flat trigger blade breaks like glass at 2.5 kilograms.

WALTHER

Q5 MATCH SF Black Tie

Contrasts and steel in perfection: Classic aesthetics and state-of-the-art surface treatment processes deliver optimum corrosion protection and an extremely attractive appearance.

The Black Tie comes with a satin finish which is created by a combination of several processes. The basis is the Tenifer® nitriding process. Followed by a Stinox® coating. The result is an unparalleled finish with superior hardness and wear-reduced slide rails.

Not only the frame is milled from a forging, but also the nicely slim aluminum grip panel with 20 LPI checkering and best ergonomics. The finish is black anodized. The sights are also completely black, serrated and are click-adjustable.

M
MEISTER
MANUFAKTUR
WALTHER

Q5 MATCH SF Black Diamond

The Black Diamond is completely black and is created by a combination of several processes. The basis is the Tenifer® nitriding process. Followed by the finest polishing operations and a diamond-like carbon coating. The result is a high-gloss finish with superior hardness and wear-reduced slide rails.

Not only the frame is milled from a forging, but also the nicely slim aluminum grip panel with 20 LPI checkering and best ergonomics. The finish is black anodized. The sights are also completely black, serrated and are click-adjustable.

New on the special editions is the Dynamic Performance Trigger. Here a dream comes true: trigger guard, aluminum trigger blade with flat finger rest and hook-shaped end. The shorter take up in combination with a short trigger stop, even shorter reset travel, optimized sear engagement and crisp trigger break are second to none.

M
MEISTER
MANUFAKTUR
WALTHER

Q5 MATCH SF Patriot

The high gloss finish of The Patriot comes with an engraving from Giovanelli, Italy. It picks up on US motifs such as the bald eagle, the Statue of Liberty and Stars and Stripes.

Barrel, slide, frame and magazine base plate are polished and tenifer® treated. The bright finish is achieved by a further polishing treatment. The grip of this noble variant is covered with a particularly slim anodized aluminum grip panel. Like the steel frame, this grip is made out of solid material. The Patriot is delivered in a luxury case. It comes with two magazines. The magazine base plate is milled from steel. With this base plate the magazine holds two cartridges more than usual.

With the Dynamic Performance Trigger this jewel is prepared for dynamic shooting: Short take up, crisp trigger break, shortened trigger stop and trigger reset. The trigger is made of aluminum and is equipped with a trigger safety.

Q5 MATCH SF Vintage

The Vintage special edition of the Q5 Match SF combines both proven functionality and distinctive aesthetics. The beautifully marbled and cloud-like shimmering color effects that result from the case hardening process are incredibly exceptional on every single WALTHER Vintage handgun. One-piece wooden grip, Dynamic Performance Trigger, case hardened magwell, packed in a luxury case are given high-end standards for this model.

VICTORY OUT OF THE BOX.

Time-tested performance meets technological precision with the Walther Q-Series polymer handguns. Optic-equipped handguns have undoubtedly risen in popularity over the last few years. With practice, the right optic can help you become a faster and more efficient shooter. The Q-Series of pistols are uniquely designed to give you the flexibility you need to swap from iron sights to optics easily. Built for right and left-handed shooters, the Q-Series pistols feature an ambidextrous slide stop and reversible button-style magazine release.

| Q4 TAC |

| Q5 MATCH |

Q4 TAC M2

The Q4 Tac provides unmatched compatibility with the most efficient defense tools available today, allowing for the latest advances in both suppressors and slide-mounted red dots. Pairing these features with unparalleled ergonomics and our superb Quick Defense Trigger make the Q4 Tac one of the most versatile pistols on the market. The Q4 Tac is uniquely designed to give you the flexibility you need to swap from iron sights to optics easily. Built for right and left-handed shooters, the Q4 Tac M2 features an ambidextrous slide stop and reversible button-style magazine release. Experience for yourself why the Q4 Tac is the ultimate handgun for shooters who seek nothing less than the best. Adaptable. Efficient. The perfect integration of both professional and tactical dynamics. The Q4 Tac is unparalleled proficiency in a platform designed to meet your individual needs.

WE THE PEOPLE

Q5 MATCH

The Q5 Match is a remarkable triumph made possible only by Walther's superior standards. A modern work of art in its own right, the slide is outfitted with features previously found only on custom handguns. It is ported and optic ready, with LPA sights as well as front and rear slide serrations. Walther's superior accuracy is quickly realized when shooting thanks to the 5" barrel with polygonal rifling and stepped chamber. The interchangeable backstraps allow you to tune your grip, giving you a perfect, straight-back trigger pull. This adjustability also provides access to the magazine and slide releases without shifting your hand. Designed for right and left-handed shooters, the Q5 Match features an ambidextrous slide stop and reversible button-style magazine release. This platform allows you to maximize the accuracy, power, and speed necessary to dominate the competition completely.

PPQ Combo

Co-witness sights and red dot: This PPQ M2 comes with frame in Tungsten Grey and compact SHIELD RMSc Red Dot Mini Sight. The defining features of the Combo: Extra low sitting RMSc and full visibility of the iron sights – finding the red dot becomes second nature. Available in 5" or with 4.6" SD barrel.

PPQ 45

The Walther PPQ 45 features a grip circumference that's the same as its little brother, the PPQ 9mm, while still boasting a 12-round magazine capacity. The PPQ 45 is also equipped with the quick defense trigger made famous by the PPQ family. Combining the German engineering of the PPQ and the American .45 ACP ammunition produces an extremely accurate handgun with low muzzle blast and very moderate recoil. If you are looking for a soft shooting, heavy hitting, self and home-defense handgun, look no further than the PPQ 45.

THE SINGLE-STACK THAT STARTED IT ALL.

The PPS M2 Series is a revolutionary yet practical concept. Delivering the premier concealed carry option with unprecedented accuracy and comfortability, capable of withstanding anything thrown in its way. Upon its release, the PPS series transformed the industry by introducing a polymer single-stack concealed carry pistol, effectively establishing a trend that remains popular still today. The PPS M2 is a more refined version of that original design, now measuring only 1" thick! It is the ultimate representation of Walther's world-renowned performance catered to the expectations of the modern shooter.

PPS M2

The thin, yet comfortable full frame provides the most grip surface in its class, allowing ample room for off-hand support. More grip surface provides significantly improved recoil management when combined with the higher grip supplied by the undercut trigger guard. The secret to the accuracy of the PPS M2 results from the legendary Walther barrel and an internal steel chassis that provides superior slide-to-frame fit. These features make the PPS M2 the most accurate, controllable, and concealable handgun available on the market. Often imitated, but never duplicated, the PPS series is designed to exceed every expectation and deliver the absolute best shooting experience possible.

A MODERN TAKE ON CLASSIC STYLE.

Impressive is an understatement. Unbelievably capable in any situation, this modern fusion of practicality, power, and function is sure to deliver outstanding results with every shot. The PK380 was the first semi-automatic polymer pistol developed with an easy to rack slide. Its single-action/double-action trigger and internal slide stop are inspired by the legendary PPK, making the PK380 a real force to be reckoned with. Chambered in .380 ACP, it provides noticeably soft and manageable recoil, allowing for the best shooting experience possible.

| PK380 |

| PK380 NICKEL |

PK380

The PK380 is small, light, and stylish. The easy to handle size and overall dimensions of this pistol make it an ideal option for concealed carry. The .380 caliber is powerful enough for any circumstance. The easy-to-operate slide, slight recoil, and ergonomic grip make this handgun a great choice for any shooter. The PK380 is fully ambidextrous with both a paddle-style magazine release and slide safety. The PK380 is sure to impress, no matter the situation.

WE INVENTED CONCEALED CARRY.

Timelessness inspires true greatness. A groundbreaking idea now gives rise to the next level of achievement in unrivaled performance, delivering tried-and-true results when you need them most. Walther's industry-leading innovation takes the spotlight with their PPK model handguns. At the time of its invention over 80 years ago, the PPK inspired an entirely new category in the firearm industry, now widely known as the concealed carry pistol. To fill the need for performance in a concealable package, Walther broke the mold of pocket pistols and full-size military pistols to bring undercover officers a more practical option, the PPK. Chambered in .380 ACP, the PPK provides all the power needed in a self-defense pistol without sacrificing on critical functionalities.

PPK

Walther's industry-leading innovation takes the spotlight with their PPK model handguns. At the time of its invention over 80 years ago, the PPK inspired an entirely new category in the firearm industry, now widely known as the concealed carry pistol. To fill the need for performance in a concealable package, Walther broke the mold of pocket pistols and full-size military pistols to bring undercover officers a more practical option, the PPK. It is chambered in .380 ACP, the PPK provides all the power needed in a self-defense pistol without sacrificing on critical functionalities. To execute this revolutionary concept, the Police Pistol Kriminal took all the modern advancements available at the time and combined them into one performance leading pistol. It features a single-action/double-action trigger that decocks when rotating the safety down into the safe position, first introduced by Walther.

PPK/S

An evolution of the classic PPK, the PPK/S maintains the timeless features, essence and the elegance of the original with an additional extended grip allowing for added capacity and improved ergonomics. To execute this revolutionary concept, the Police Pistol Kriminal took all the modern advancements available at the time and combined them into one performance leading pistol. It features a single-action/double-action trigger that decocks when rotating the safety down into the safe position, first introduced by Walther. Few guns have withstood the test of time like the brilliantly designed PPK. To this day, the PPK is still one of the most sought after concealed carry pistols on the market. This demand serves as a testament to Walther's long-enduring legacy of excellence and unparalleled performance. The timeless design and superior engineering make the PPK a true legend amongst firearms.

PPQ 22

Extraordinarily comfortable and genuinely elegant, advancing both efficiency and ergonomics for self-defense handguns in ways never thought possible before. PPQ 22 is the ultimate definition of effectiveness. Walther delivers one of the most satisfying shooting experiences yet with the incredibly proficient PPQ 22 M2. This handgun features all the outstanding benefits of the PPQ series in a convenient rimfire caliber. The platform uniquely allows PPQ owners to utilize standard PPQ 9mm holsters for practice at the range, at a fraction of the ammo cost. The PPQ 22 provides the same ergonomics, controls, and feel of the trigger. This rimfire exhibits all the high-quality performance that the PPQ series is known to have. Premium features such as adjustable elevation sights and a threaded barrel make this pistol an indisputable leader in its class. This pistol is Walther ingenuity in action.

P 22 Q

Originality at its finest. This firearm is a testament to a history of unprecedented achievement in both ingenuity and effectiveness. Able to surpass the expectations of modern shooters and define the competitive advantage only Walther can provide. The Walther P22 was the first polymer-framed, semi-auto tactical rimfire handgun ever made. Premium features such as windage adjustable rear sight, captured recoil spring, single-action/double-action trigger, and threaded barrel help to solidify this pistol as a leader in its class. The extremely reliable P22 is ready for anything from varmint control to recreational shooting. This pistol is the premiere handgun for those seeking superior quality and performance from a tactical rimfire.

| P22 Q |

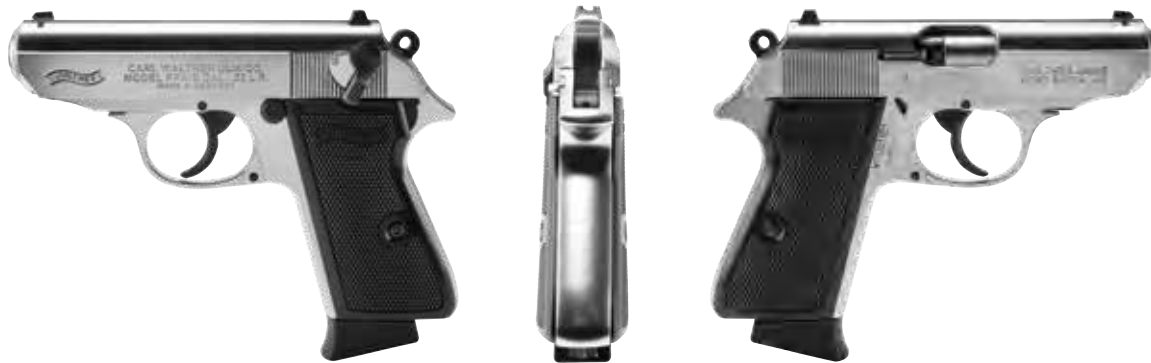

| P22 Q NICKEL |

PPK/S .22

Walther's industry-leading innovation takes the spotlight with their PPK model handguns. A 1-to-1 scale of the Walther PPK/S in .380, this PPK/S .22 LR affords you the look, style, and feel of the original in a rimfire caliber. Equipped with a single-action/double-action trigger, black checkered grips and functional safety/decocker, the PPK/S .22 is the perfect recreational firearm for any situation. This rimfire pistol comes with a threaded barrel direct from the factory, making it suppressor-ready out of the box. Walther's signature accuracy and reliability come standard whether you're shooting suppressed or unsuppressed. The remarkable elegance and performance distinguish the PPK/S .22 as the premiere rimfire pistol available today.
