

AXT

WARRIOR BUILT

AXT Warrior Built

Archer Xtreme is leading the industry with innovative archery accessories using the lightest and strongest materials available today – materials like Carbon Fiber, Titanium, 6061 T6 Aluminum, and Stainless Steel screws and fasteners. These materials combined with precision engineering result in increased accuracy – accuracy that equates to harvests in the field and wins on the 3D circuit.

We, at Archer Xtreme, refer to our customers as Warriors because they are the first on the mountain and the last to leave, no matter the conditions – they use AXT products because they have the strength and stamina to withstand any condition and put up with all the abuse that you, the Warrior, can dish out.

Utilizing industry leading 5-axis machining, AXT has introduced new innovative technologies to the market that will forever change the face of archery accessories.

AXT Warrior Proven

Archer Xtreme's products have been tested and proven by our Warriors – out in the field and at 3D shoots – for over 5 years. We stand behind our products with confidence and one of the best warranties in the industry. AXT products can handle any hunt, any time, anywhere!

The AXT Advantage

AXT manufactures the lightest, strongest, most durable and accurate products in the industry. AXT's products are designed, developed and manufactured by hunters, for hunters.

Materials

AXT utilizes the lightest, strongest and most durable materials on the planet, including:

- Carbon Fiber
- Titanium
- 6061 T6 Aluminum
- Stainless Steel Fasteners

Pins

AXT uses a “true” .019 Center Core Pin Technology where the fibers run through the pin – not outside in a channel – which protects the fiber while moving through the field.

Warranty

AXT has one of the best warranties in the industry and offers a lifetime warranty on all manufacturing defects* to the original owner of any of AXT's products!

Customer Service

We're here to help! AXT's Customer Service is unparalleled in the industry. If you have any questions, anytime, anywhere, please don't hesitate to give us a call or shoot us an email and we'll be here for you.

**manufacturing defects do not include fiber optics*

RAK1000

DRIVEN TO BE
TOTALLY ACCURATE

Developed for the archer who takes shooting to the Xtreme, our new RAK1000 features our exclusive, patent pending FAST/RAK DETACH SYSTEM for Rapid Auto Lock of the sight bar with micro adjustment. The FAST/RAK Detach bar features a 5.6" RACK bar with dovetail mount to help you match the housing perfectly with your peep. The hunter who needs to detach the sight for transport can finally do this with the most precise system on the planet. Also comes with a 1-7/8" 2X power HD hunter lens scope for long distance accuracy.

FAST/RAK Detach System

Patent pending. 5.6" FAST/RAK bar with dovetail mount for even more accuracy, a micro-adjustment like no other

1-7/8" HD Hunter Lens

For long distance accuracy, all-metal locking collar secures the lens, making for a quick detach for transport

ALL ACCURATE AXIS Adjustment

Precise 2nd and 3rd axis adjustments made as close to the pin as possible to ensure total accuracy

EDGE Gear Drive

Three-pronged gear drive is easy to use and allows for smooth mirco-adjusting

Stainless Steel Indicator Pin & Lock

Adjustable indicator pin to maximize head movement for greater distances and thumb lock to ensure sight stability

Micro-Adjustable

Stainless steel allen set screws make it easy to micro-adjust for windage and elevation.

1x .019 Center Core Pin Technology

Our fibers run through the pins – not outside them in a channel like other manufacturers – which protects the fibers when out in the field

Micro LED

All of AXT's sights come standard with Micro LED lights

Convertible

TITANIUM RECON PRO

LIGHTER, STRONGER,
FASTER

Introduced in 2014, the AXT Titanium Recon arrow rest is the lightest, strongest and most accurate arrow rest on the market.

Strong

Utilizing a 100% Titanium Launcher over-molded with sound dampening rubber, this launcher is 100 times stronger than our competition's plastic launchers

Quiet

Not only does the launcher have quieting features, but the main housing does as well. Engineered with a Carbon Fiber cap on it – which dampens noise rather than amplifies it like plastic – the Recon is the quietest arrow rest you'll find on the planet

Tunable

To drop fast, or maintain as much arrow-shaft contact as you desire, the Recon allows for more accurate arrow flight where it matters most - down range

360° Containment

Once the Titanium Launcher is set, the containment arm keeps your arrow in place - ready for the shot - giving you the confidence you need to move about when spotting and stalking your prey

Faster Setup

Once the cord is served into the down cable, all of the tuning adjustment is done at the trigger on the rest, decreasing setup time significantly

Lightweight

Weighing in at only 3.25 ounces, the Titanium Recon blows away the competition!

two configurations:
right-hand - AXR10
left-hand - AXL10

TITANIUM RECON

ROGUE

PERFORMANCE AND
ACCURACY REDEFINED

The AXT Rogue 5-Pin Sight is the “Ferrari” of bow sight machining technology. Machined from 6061 T6 Aluminum using an industry leading 5-Axis machine – the Rogue has a Taper-Core sight bracket which not only looks cool but allows for increased strength in key areas while decreasing weight – resulting in superior strength to withstand any conditions.

Ball 'n Socket 2nd Axis Adjustment

Another industry first – the 2nd axis adjustment on the Rogue is 100 times stronger than standard 90° clamp systems

2" HD Sight Ring

All of AXT's sights have interchangeable sight rings – available in Green, Orange, Pink, Blue and Red – which make it easy to customize your sight to match your bow

Micro-Adjustable

“No-tool” thumb clamps allow for quick, easy loosening and tightening for micro-adjusting for windage and elevation

5 x .019 Center Core Pin Technology

Our fibers run through the pins – not outside them in a channel like other manufacturers – which protects the fibers when out in the field

Micro LED

All of AXT's sights come standard with Micro LED lights

Fully Machined

Not cast, enabling it to outperform other sights in tough conditions

RONIN

LIGHTER, STRONGER,
MORE ACCURATE

AXT's RONIN 5-Pin Sight was designed and manufactured in the spirit of the Samurai. With its precision machining that results in fast, accurate target acquisition, this sight is sure to quickly become a best-seller. Proven accuracy and performance are imperative and AXT delivers with the new Ronin. Lighter, Stronger, More Accurate.

Rail Locking System
Increases surface area for unmatched rigidity in key areas

Stainless Steel Hardware
Withstands even the toughest elements and abuse

2" HD Fiber Guard Sight Ring
For quick target acquisition & extra sight pin fiber protection

Micro-Adjustable
For quick, easy windage and elevation micro-adjusting

5 x .019 Center Core Pin Technology
Our fibers run through the pins – not outside them in a channel like other manufacturers – which protects the fibers when out in the field

A.X. DRIVER

DRIVEN TO THE XTREME

AXT's A.X. Driver Series sights were designed and engineered for the die-hard hunter and 3D shooter alike. The ability to dial your sight in to specific distances gives you Xtreme accuracy both in the field and on the 3D range. The precision engineering in the Driver Series allows for the tightest tolerances in the industry.

Utilizing a program like Archers Advantage (archersadvantage.com) you can print out accurate sight tapes to more quickly and accurately acquire your desired target.

EDGE Gear Drive

The three-pronged gear drive is easy to use and allows for smooth micro-adjusting to your desired yardage

Stainless Steel Indicator Pin & Lock

Complete with an adjustable indicator pin to maximize head movement for greater distances and a thumb lock to ensure your sight's stability

Micro-Adjustable

Stainless steel allen set screws make it easy to micro-adjust for windage and elevation

2" HD Sight Ring

All of AXT's sights have interchangeable sight rings – available in Green, Orange, Pink, Blue and Red – which makes it easy to customize your sight to match your bow

NITRIX QUIVER

NO SHAFT TOO BIG OR
SMALL, THE NITRIX FITS
THEM ALL

AXT's Nitrix Quiver is the only quiver in the industry that
adjusts completely to fit any size arrow. Available in 4 and 6
arrow configurations, the Nitrix is the right choice for treestand
and XTREME backcountry hunters alike.

**XTREME Drop
Rack Technology**
Carbon Fiber adjustable arrow rack
accommodates any length arrow –
and dampens noise and vibration

Adjustable
Fully collapsed, the Nitrix measures
11.5"; fully Xtended, it's 17.5"

**Articulating
Mounting System**
Allows for quickly adjusting the quiver in
close to the riser, for better balance
and more accuracy

**Single Gripper
Locking System**
Ensures arrows are locked in and
makes removal a breeze

**Steel Cable
Adjustable D-Loop**
For easy hanging when the quiver
is detached

Lightweight
One of the lightest quivers on the planet!

Convertible
One quiver fits both left-hand and
right-hand bows

CARBON CARNIVORE

SIGHT INNOVATION:
MACHINED CARBON FIBER

Carbon Carnivore 5-Pin

Weighing in at only 8 ounces, the Carbon Carnivore comes with 5 pins and is one of the lightest sights in the industry. This Carbon hybrid sight uses a 100% Carbon sight housing and mounting arm resulting in XTREME weight reduction. The EZ Tech micro-adjust pin system allows you to easily adjust your pins individually. The Carnivore also features a Vibration Absorbing Coat (VAC) – a rubberized clear coat that significantly diminishes vibration. If you're looking to reduce accessory weight on your bow, the Carbon Carnivore is the sight for you.

Carbon Carnivore C4

The Carbon Hybrid Carnivore C4 comes with 4 pins and has everything you need to keep your gear lightweight and accurate on your next XTREME hunting adventure. Whether you're shooting one of today's ultra-light bows, or you want to reduce weight on your existing bow, the Carnivore C4 is the sight you need. Utilizing a Carbon sight housing and a Carbon mounting arm, this is one of the lightest and most durable sights in the industry. Carbon construction is lightweight and XTREMELY durable.

Carnivore 5 pin - C510B

4-pin C4 - C410B

Gear Tech Micro Pin Adjustment

Allows for individual pin micro adjustment

2" HD Carbon Sight Ring

All of AXT's sights have interchangeable sight rings – available in Green, Orange, Pink, Blue and Red – which makes it easy to customize your sight to match your bow

Micro-Adjustable

"No-tool" thumb clamps allow for quick, easy loosening and tightening for micro-adjusting for windage and elevation

4 and 5 x .019 Center Core Pin Technology

Our fibers run through the pins – not outside them in a channel like other manufacturers – which protects the fibers when out in the field

CARBON QUIVERS

THE WORLD'S ONLY
100% CARBON FIBER QUIVERS

CARBON VAPOR **HYPERLITE** 2-PIECE QUIVER

Let's face it, decreasing accessory weight is critical. Designed and manufactured out of 100% Carbon Fiber, this quiver is Xtremely strong and durable, yet Hyper-lite.

- Dual Connect (DC) detach system
- Arrow tips stay secure with no movement
- Five-arrow hood comes with foam insert with pre-cut broadhead slits
- Single 3K Carbon Fiber bar support with gripper bridge system
- Vibration Absorbing Coat (VAC) – rubberized clear coat diminishes vibration and noise
- Comes with collar locks for today's most popular bow brands that fit Mathews, Hoyt, Bowtech, PSE
- Fits all Hoyt Spider Bows
- Gripper slot secures both large and small diameter arrows
- Available in Blackout 100% 3K Carbon Fiber

accepts small
diameter arrows

V203K

CARBON VAPOR 1-PIECE QUIVER

The world's first and still the ONLY 100% Carbon Fiber quiver that has redefined what a quiver is supposed to be, weighing in at a mere 7 ounces.

- 3K Carbon Body Ridge – Carbon Fiber for superior strength
- 3K Carbon Hood – Destroys harmonics and stops vibration
- 3K Carbon Support Frame – Stronger and lighter - stopping the effects of vibration
- Quad Lock – A four-point lock-down system with vertical adjustment
- Vibration Absorbing Coat (VAC) – Rubberized clear coat diminishes vibration and noise
- Five arrow hood comes with foam insert with pre-cut broadhead slits
- TPR over-mold hood stops unwanted noise
- Adjustable, one hand removal system is secure and quiet
- Gripper slot secures arrows both large and small diameter
- Available in Blackout 100% 3K Carbon Fiber

HEADHUNTER

When the crew of HEADHUNTERS TV contacted AXT to create a sight that met the demands of their Xtreme hunting style, we rose to the challenge. The AXT HeadHunter Sight series was built and then thoroughly tested by the HEADHUNTERS TV Crew under their demanding hunting conditions. The HeadHunter sights have everything you need and nothing that you don't. Simple, yet built tough enough to withstand any hunting conditions with un-paralleled accuracy that is sure to result in a successful harvest.

LADY XTREME

XTREME PRODUCTS for XTREME LADY HUNTERS...

Lady hunters are no longer limited to purchasing the bulky accessories built for the average hunter. AXT's Lady archers are more Xtreme in their abilities and have been hampered with today's heavier equipment designs – until now. AXT has introduced the Lady Xtreme series of products with three accessories that give the lady archer all the benefits of our lightweight design capabilities, resulting in superior quality and accuracy.

LADY XTREME 40 SIGHT

The fully machined Lady Xtreme sight is made from 6061 T6 solid billet aluminum for precision and strength. Four .019 stainless steel encapsulated fiber pins allow for multiple yardages, and the micro adjustable vertical and horizontal bars make set up quick and easy. Convertible to left hand use.
